# BY-LAWS OF THE TOWN OF ARLINGTON.

[Compiled by the Committee of Five as authorized by vote of the  
Town November 24, 1902.]

---

## ARTICLE I.

### NOTIFICATION OF TOWN MEETINGS.

Every Town meeting shall be notified by posting a copy of the warrant calling the same, on the doors of the Town Hall, seven days, at least, before the day appointed for said meeting; and a printed notice containing the substance of the warrant shall be left at every dwelling house in the Town. Also notice of time of the meeting or of the date of its adjournment shall be published in the local papers.

## ARTICLE II.

### RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

SECTION 1. No final vote shall be re-considered except upon notice, for that purpose, made by one of the majority acting thereon, within fifteen minutes after such vote has been passed; and no article in the warrant shall be again taken into consideration after it has been disposed of, unless ordered by a vote of two-thirds of the voters present.

SEC. 2. No person shall speak more than twice upon any question, without first obtaining leave of the meeting, except for the correction of an error, or to make an explanation; and not until others who have not spoken upon the question shall speak, if they desire to.

SEC. 3. All questions submitted for the consideration of the Town, involving the expenditure of money, shall be in writing, and all other motions shall be reduced to writing, if required by the presiding officer.

SEC. 4. Every person speaking shall address the Chair, standing and uncovered.

SEC. 5. No vote, fixing the period for closing a ballot, shall be re-considered after such ballot shall have commenced;

but it may be in order to extend the period without such re-consideration.

SEC. 6. When a question is under debate, motions shall be received, to adjourn, to lie on the table, the previous question, to postpone indefinitely, to postpone to a time certain, to commit, or to amend. Which several motions shall have precedence in the order in which they are arranged. The first four shall be decided without debate.

SEC. 7. The duties of the presiding officer, not specially provided for by law, or by the foregoing rules, shall be determined by the rules of practice, contained in Cushing's Manual, so far as they are adapted to the condition and powers of the Town.

SEC. 8. On all questions submitted for the consideration of the Town involving the expenditure of money, the ballot and check list shall be used when requested by twelve or more legal voters present at the meeting.

### ARTICLE III.

#### FINANCIAL YEAR.

The financial year of the Town shall begin with the first day of January in each year, and end with the thirty-first day of December, following.

### ARTICLE IV.

#### ANNUAL TOWN MEETING.

The Annual Town Meeting shall be on the first Monday of March, in each year, and all reports of Town Officers shall be made at that time.

### ARTICLE V.

#### REPORTS OF COMMITTEES.

No action shall be had at any Town meeting on the report of any Committee previously chosen, unless the same shall be specially notified in the warrant for calling said meeting.

## ARTICLE VI.

## MEETINGS OF TOWN OFFICERS.

The Selectmen, Overseers of the Poor, Surveyors of Highways, Treasurer, and Clerk, shall meet for the transaction of the business of their respective departments, at their rooms in the Town Hall, on the last Monday evening of each month.

## ARTICLE VII.

## POWER OF THE SELECTMEN TO BORROW MONEY.

The Selectmen may authorize the Treasurer to borrow money temporarily, on the credit of the Town, in anticipation of the collection of the taxes, should the same be necessary, and to give Town notes for the same, signed by him as Town Treasurer; said notes to be countersigned by the Selectmen.

## ARTICLE VIII.

## COLLECTION OF TAXES.

SECTION 1. The assessment of all taxes shall be completed, and a list of the same delivered to the Collector on or before the first day of August, and all tax bills shall be delivered on or before the twentieth day of August of each year.

SEC. 2. All single poll taxes shall be paid in fourteen days after demand. Interest shall be charged on all unpaid taxes after November first of the year in which they are assessed.

SEC. 3. The Collector shall collect all taxes, including street watering and apportioned sewer assessments, levied in any year, before June first of the following year.

SEC. 4. The Collector shall hold no other Town office.

## ARTICLE IX.

## PUBLIC WAYS.

SECTION 1. All persons intending to erect, repair or take down any building, on land abutting on any way which this

Town is obliged to keep in repair, and who desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall, ten days at least before so placing any building material or rubbish, give notice, in writing, to the Selectmen, of such wish, and thereupon the Selectmen may grant a permit to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands, and the security of the public allows such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building material or rubbish.

SEC. 2. Whoever shall use any portion of any way which the Town of Arlington is obliged to keep in repair, without the permit, in writing, of the Selectmen, as above provided, or having obtained such permit, shall fail to comply with the conditions thereof, shall forfeit and pay the sum of ten dollars for each offence, and shall also reimburse the Town for all damages and expenses which the Town may be compelled to pay by reason of the way being encumbered.

SEC. 3. Whoever shall move, or assist in moving, any building more than ten feet high, over any way in this Town, which this Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained, or, having obtained such permit, shall not comply with the restrictions and provisions thereof, shall forfeit and pay the sum of twenty dollars for every such offence.

SEC. 4. Whoever shall suffer horses, goats, or grazing beasts, or swine to run at large in this Town, or to feed by the roadside, either with or without a keeper, shall forfeit and pay the sum of five dollars for every such offence.

SEC. 5. Whoever shall drive or draw any coach, cart, or wheel-barrow, handcart, velocipede, bicycle, or any carriages of burden or pleasure (excepting children's carriages drawn by hand, or children's velocipedes), upon any sidewalk, in the Town, or permit any horse, cattle, swine, sheep or goats, under

his or her care, to go upon any sidewalk in the Town, so as to interfere with the convenient use of the same by all passengers, shall forfeit and pay a sum of not less than two dollars, or more than twenty dollars for every such offence.

SEC. 6. Whoever shall behave himself in a rude or disorderly manner, or use any indecent, profane, or insulting language, in any public place in the Town, or near any dwelling house, or other building therein, or be, or remain upon any sidewalk, or upon any doorstep, portico, or other projection of any house or other building, not his own, to the annoyance or disturbance of any person, or by any noise, or other means, wantonly and designedly frighten any horse in any street, or other public place in the town, or shall throw stones, snowballs, sticks or other missiles, or kick at foot ball, or play at any game in which a ball is used, or fly any kite in the public ways in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 7. Whoever shall stand in any public way in such a manner as to obstruct a free passage for passengers, or shall make any bonfires in any public way or place in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 8. Whoever posts, affixes, or in any way attaches any poster, handbill, notice, advertisement or placard to or upon any post, wall, fence, building or structure not his own, without permission of the owner or proprietor of such post, wall, fence, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 9. Whoever paints, draws, or stamps any letter, notice, figure, advertisement, or marks upon or into any wall, fence, post, tree, building or structure not his own, without the permission of the owner of such wall, fence, post, tree, building or structure, or without said permission mars, defaces, or disfigures in any way such wall, fence, post, tree, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 10. Whoever shall place or cause to be placed upon any of the public ways of the Town, or shall place or cause to

be placed upon any public way, footpath or sidewalk within the Town, any lumber, iron, coal, trunks, bales, boxes, crates, casks, barrels, packages or other things, or shall otherwise obstruct such way by placing things therein, for more than fifteen minutes after being notified by a Constable, Police Officer, or the Selectmen, shall forfeit and pay for each offence, not less than two dollars, and not more than five dollars.

SEC. 11. Whenever complaint shall be made to the Selectmen that coasting on any street or sidewalk in the Town, has become dangerous to the public safety, they may post up a notice in some conspicuous place on the side or corner of any such street or sidewalk, forbidding all persons to coast upon the same; and if any person shall be found coasting upon the same after such notice, he shall forfeit and pay not less than one dollar, and not more than five dollars.

SEC. 12. No person shall tie or fasten any horse to, or have the same standing by any ornamental or shade tree in or near any of the streets, lanes or places of this Town, so near as to injure any unprotected tree, or wrongfully injure or abuse such tree in any manner; and whoever violates the provisions of this section, shall forfeit and pay not less than one dollar, and not more than ten dollars.

## ARTICLE X.

### PUBLIC HEALTH.

SECTION 1. No person shall drive, or cause to be driven, any cart or wagon containing night-soil or offal, or any cart or wagon used for that purpose, through any public way in the Town, between the hours of six A. M. and nine P. M., except an odorless tank, nor permit any such wagon or cart to stand, between said hours, in any street, lane or alley in said Town.

SEC. 2. No person shall keep any swine within a distance of fifty feet of any public way or place, or within a distance of one hundred feet of any dwelling house not his own, or within a distance of twenty-five feet of his own dwelling house. No person shall, after January 1, 1902, keep within the limits of the Town, more than five swine, exclusive of offspring less than four months old of said five swine. Whoever violates any of

the provisions of this section shall be punished by fine not exceeding twenty dollars for each offence.

SEC. 3. No person shall put or suffer to accumulate on his premises, any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or noxious stench or effluvia shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the ponds, streams or brooks of the Town, or shall allow the contents of any vault or house drain, or the refuse of manufacturing or slaughtering process to drain into such ponds, streams or brooks.

SEC. 4. No person, without the license of the Board of Selectmen, shall throw into, or leave in, or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the Town, any dead animal, dirt, manure, oyster, clam or lobster shells, ashes, cinders, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatever.

SEC. 5. No vehicle used for collecting or conveying swill or house offal, shall be drawn over, or allowed to stand upon any sidewalks in this Town.

## ARTICLE XI.

### TRUANTS AND ABSENTEES.

SECTION 1. Any child between the ages of seven and fifteen years, who shall absent himself from the public school to which he is assigned, three times, within the period of one month, without sufficient excuse from his parent or guardian, shall, in each case, be deemed to be an habitual truant.

SEC. 2. Any child convicted of offending under the preceding by-law, shall be committed to the Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, for such time not exceeding two years, as the Court or Justice having, by law, jurisdiction may determine.

SEC. 3. The said Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, is hereby provided as the place for the confinement, discipline and instruction of habitual truants.

SEC. 4. It shall be the duty of every truant officer, before making any complaint for offences under these by-laws, to notify the offending child and his parent or guardian of the offence committed, and of the penalty thereof, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, in his discretion, forbear to prosecute, so long as such pledges are faithfully observed and kept.

SEC. 5. All children between the ages of seven and fifteen years, wandering about in the streets and public places of this town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be punished by a fine not exceeding twenty dollars, or by commitment to any institution of instruction, house of reformation, or suitable situation, provided for the purpose under the authority of the tenth section of chapter 48th of the Public Statutes.

## ARTICLE XII.

No person shall bathe or swim in Spy Pond, or in any public or exposed place in the Town, without wearing a proper covering to the body.

## ARTICLE XIII.

SECTION 1. No person shall blast any rock or other substance with gunpowder, or other explosive material, at any place within fifty rods of any public way or building, without a written permit from the Board of Selectmen, specifying the terms and conditions on which such permit is granted.

SEC. 4. No person shall, except in the performance of some legal duty, discharge any firearms upon or across any public park, play ground, street or way, within the limits of the town, except by permission of the Board of Selectmen.

SEC. 5. No person shall be a dealer in, or keep a shop for the purchase, sale or barter of junk, old metals, or second hand articles, unless licensed by the Selectmen.

SEC. 6. No wagon shall be used for the collection of junk, metals, rags, or second hand articles, unless licensed by the Selectmen. Every such wagon shall bear conspicuously the

owner's name, and the number of the license, on the outside and on each side. Every license shall designate the person employed to drive such vehicle. Such driver shall not be changed without the consent of the Selectmen.

SEC. 7. It shall be the duty of the Town Clerk to keep a record of the name and residence of every peddler licensed by the Town.

SEC. 8. No person shall permit any team under his care or control to stand across any public highway or street in such a manner as to obstruct the travel over the same, and no person shall stop with any team in any public street at the side of or near to another team as to obstruct public travel, and no person shall stop with any team or carriage upon or across any cross-walk in any street or highway in the Town.

Any person who shall violate any provisions of these by-laws, or who shall refuse or neglect to obey any order of the Board of Health, duly issued under these by-laws, and directed to him and properly served on him, shall, in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars. (Note. This paragraph comprises the whole of Article XIII. as approved November 11, 1882.)

#### ARTICLE XIV.

Prosecutions for offences under these by-laws may be made by any Constable or Police Officer of the Town, and all fines shall be paid into the Town Treasury.

#### ARTICLE XV.

Upon the approval of the foregoing by-laws by the Superior Court, all by-laws heretofore existing, except the by-laws relating to the Public Library, the Cemeteries and the Fire Department, shall be annulled and repealed. (Note. This Article was approved November 11, 1882.)

#### ARTICLE XVI.

SECTION 1. Beginning with the year 1903, only one Auditor shall be elected. It shall be the duty of the Auditor, in addition to the duties imposed on him by law, to make state-

ments to the Selectmen, at regular intervals during a financial year, of the conditions of the several departments of the Town; to inspect all bills presented against the Town, see that they have the approval of the board or committee contracting the same, and are in proper form, indicate the account to which they are chargeable, and if there are available funds, shall transmit the same with his certificate to the Treasurer, and draw a warrant authorizing payment thereof; to examine the books of the Treasurer, Collector, Water Board, Sewer Department, and all departments holding funds or trust funds for the benefit of the Town and report at the next annual Town meeting in detail, under their respective heads, all the receipts and expenditures by the Town for the previous year. Said report shall be printed by the Selectmen with the annual reports of the Town Officers before the annual meeting. Said Auditor shall receive for his services such compensation as the Town shall determine. The term of the present Auditors shall terminate with the annual Town Meeting of 1903.

No money, except State and County taxes, and principal and interest of Town notes, shall be paid from the Town treasury without a warrant therefor, signed by the Auditor.

All promissory notes of the Town shall be signed by the Treasurer, and countersigned by the Selectmen.

On the first secular day of each month, and as often as the amount in his hands reaches five hundred dollars (\$500) or upwards the Collector shall pay over to the Treasurer of the Town all taxes by him collected, and shall on or before the first secular day of January in each year, make up his annual account, and render the same to the Selectmen.

The Treasurer shall, on the first secular day of January, annually render to the Selectmen, in writing, a full account of all his receipts and disbursements for the financial year last past.

At the conclusion of any Town Meeting the Town Clerk shall send to the Auditor a certificate stating the amounts of the several appropriations made by the Town.

## ARTICLE XVII.

The Treasurer shall hold no other Town office.

# BY-LAWS RELATING TO THE CONSTRUCTION OF BUILDINGS IN THE TOWN OF ARLINGTON.

[Approved by the Superior Court, April 22, 1901.]

---

SECTION 1. An Inspector of Buildings shall be appointed annually by the Selectmen during the month of March, and he shall continue to hold his office until his successor has been appointed and qualified. He shall not be interested in any contract or engagement for furnishing labor or materials or plans for the construction or alteration of any building in the Town. Until such time as the Town makes an appropriation for the salary of such Inspector, the Board of Selectmen shall perform the duties of the office.

SEC. 2. The Inspector shall have free access to and examine all buildings in course of construction, alteration and repair and see that all by-laws of the Town in relation thereto are complied with, and when necessary, shall take proper measures to secure such compliance. He shall make an annual report of his work to the Selectmen, with such recommendations as he may deem best. Upon hearing that any building is in a dangerous or unsafe condition, he shall examine it and if he deems it necessary, shall notify the owner, agent, or other party interested therein, to make it safe and secure, and if they do not comply with his notice, he shall notify the Selectmen of the facts. He shall from time to time examine all buildings used or proposed to be used for public assemblages or for school or manufacturing purposes, to see if the State requirements as to such buildings are complied with, and in case of any non-compliance he shall at once notify the State Inspector of Factories and Public Buildings. He shall perform such other duties as may be prescribed by these by-laws.

SEC. 3. No building except sheds, outhouses and farm buildings, other than dwellings, shall hereafter be erected in the Town of Arlington, and no addition to or alteration chang-

ing the character of any such building shall be made, unless the person intending to erect or make such alterations in such buildings shall, seven days at least before he proceeds to build or erect the same, or lay the foundation thereof, or to make the said alterations, or to do any act for carrying into execution his intention to do such things, file with the Inspector of Buildings notice in writing of his intention, with such plans and specifications or a full written description of the structure to be erected, in such form as may be approved by the Inspector.

SEC. 4. The Inspector shall give a permit for the erection of, addition to, or alteration above described, of any building after he has carefully inspected the plans, specifications, or descriptions thereof, and ascertained that it has sufficient strength, and that means of ingress and egress and of preventing spread of fire are sufficient, and that it otherwise conforms to the by-laws of the Town.

SEC. 5. The foundations of all buildings for dwelling, business or manufacturing purposes, shall be walls of masonry and piers of masonry or iron, and above a distance of twelve inches below the surface of the adjoining ground the walls shall be laid in mortar. All such wooden buildings not more than one story in height may, with the approval of the Inspector, be built wholly on piers or posts; and such wooden buildings not exceeding three stories in height may be so built, with the approval in writing of the Selectmen. The foundations of all such permanent buildings must rest on solid ground or levelled surfaces of solid rock, or on piles, concrete, or other solid substructure. Such foundation other than solid rock must be not less than four feet below the adjacent surface of the ground exposed to frost. All such wooden buildings shall be framed and constructed in a manner satisfactory to the Inspector, posts and girts in the exterior walls to be not less than 4x6 inches in size, and studding shall be not more than sixteen inches apart.

### EXTERNAL WALLS.

SEC. 6. External walls of brick dwelling-houses hereafter to be erected in this Town, if not more than twelve feet in height above the foundation walls, shall be not less than

eight inches thick for their entire height; if two stories, and not more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the second floor, and not less than eight inches thick for the remaining height; and if three stories, and more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the third floor, and not less than eight inches thick for the remaining height.

SEC. 7. The external walls of all brick buildings, other than dwelling houses, to be hereafter erected in this Town, if not more than forty feet in height above the foundation walls, shall be not less than sixteen inches thick to the top of the upper floor, and not less than twelve inches thick for the remaining height; and if more than forty feet in height and not exceeding sixty feet in height, they shall be not less than twenty inches thick to the top of the second floor, and not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height. PROVIDED, *However*, that the external walls of brick buildings, not exceeding twenty-five feet in height, and covering an area not exceeding two thousand square feet, to be used for stables or light mechanical purposes, may be twelve inches thick.

SEC. 8. No buildings, except a manufactory, railway station, stable, church, school-house, hotel, or hall for public assemblies, shall hereafter be erected, and no existing building shall hereafter be altered or added to, so that they have a frontage of more than fifty feet, without one or more partition walls of brick or some other fire resisting material, extending from the bottom of the cellar, or from a foundation wall to the under side of the roof boarding, which shall be laid and be imbedded in mortar upon said wall. Such walls shall be not more than thirty feet apart throughout the length of the building. If said wall is build of brick, it shall be not less than eight inches thick for its entire height. No existing building having a frontage of more than fifty feet, shall be converted to a use not excepted by this section, without at least one partition wall, constructed as described in this section: PROVIDED, *However*, that any single dwelling house, intended for one family, may be extended more than fifty feet in one direction without such partition wall.

SEC. 9. All buildings hereafter erected which are to be used in whole or in part for business or manufacturing purposes, or as places for public meetings, shall be constructed of brick or stone, and have slate, metal or composition roof-covering and metal gutters, unless permission is otherwise given by the board of Selectmen.

SEC. 10. All buildings hereafter erected to be used as tenement houses, in excess of thirty feet in width, shall have brick partition walls on which floor-beams shall rest, not less than twelve inches thick for their entire height, and extending to the under side of the roof-boardings, which shall be laid and be imbedded in mortar upon said wall. Said walls shall be not more than twenty-five feet apart. All dwelling houses shall have a fire-proof partition wall between each set of up and down tenements.

SEC. 11. No wooden building to be used for a dwelling house shall exceed forty-five feet in height, and no portion of the external side-walls of any wooden building shall be placed at a less distance than five feet from the line of the lot upon which the building is to be located, or within ten feet of another wooden building, except where a brick external wall is substituted for a wooden wall, and of a thickness prescribed for external walls of brick buildings. The brick walls above required shall be built twelve inches above roof-boardings and covered with stone or iron.

SEC. 12. Party walls and all partition walls of brick, in all buildings other than dwelling houses hereafter to be erected in this Town with external walls not exceeding forty feet in height, shall be not less than sixteen inches thick to the top of the second floor, and not less than twelve inches thick for the remaining height, and, in buildings having external walls exceeding forty feet in height, said walls shall be not less than twenty inches thick to the top of the second floor, not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height.

SEC. 13. No opening or doorway shall be cut through or formed in a party or partition wall of any building, without a permit from the Inspector of Buildings, and every such doorway shall have its top, bottom and sides of stone, brick or iron, and

shall be closed by two doors, or sets of doors of wood, covered with metal, with an air space between them of at least four inches, and said doors shall be hung in wooden frames entirely covered with metal, or to iron hinges in brick or stone rabbets.

## PIERS AND COLUMNS.

SEC. 14. All piers shall be built of the best quality of good, well-burnt, hard brick, laid in cement and sand mortar and well wet when laid in warm weather. Brick piers under lintels, girders or columns of brick buildings shall have a cap iron at least two inches thick, the full size of the pier. Brick piers and buttresses shall be bonded with through courses, leveled and bedded, each course, and where their foundations rest upon piles, a sufficient number shall be driven to insure a proper support

SEC. 15. Every pier, column, pillar or post resting on the earth shall have a base course of stone or concrete and if supporting walls of masonry, shall have for a footing course a broad leveller of granite or ledge stone, not less than twelve inches wider on all sides than the bottom area of said piers, columns, pillars or posts, and not less than twelve inches thick.

SEC. 16. Every metal column in a brick building shall rest on an iron plate of not less thickness than two inches. Wooden columns supporting girders and floors in such buildings shall rest on inch and a half iron plates with sockets to receive the foot of the columns. Metal columns placed one on the top of another shall have a plate at the top of each column, with projections on both sides to fit into cap and base of columns, to prevent slipping; and all columns shall have holes bored when and where directed by the Inspector, into and through the shell at right angles to the shaft, so as to show the thickness of shell. All bearing parts of columns and plates shall be turned or planed to true surfaces.

SEC. 17. No roof water from any building shall be allowed to flow over the sidewalk fronting it.

SEC. 18. All brick walls shall be built with proper bond, satisfactory to the Inspector, and all intersections of walls shall

be tied together with wrought iron straps every ten feet in height. Floor beams shall be anchored to brick walls on which they rest, and to each other, so as to form continuous ties across the building at least every ten feet.

SEC. 19. All floors shall be constructed to carry safely the following weights per square foot :

Dwellings . . . . .	40 lbs.
Mercantile and Public Buildings, . . . . .	100 “
Storehouses—Machine Shops, . . . . .	200 “
Drill sheds, etc., . . . . .	200 “

## CHIMNEYS AND HEATING APPARATUS.

SEC. 20. All chimneys hereafter erected shall be built from the ground, of brick, stone, or other fire-proof non-heat-conducting materials, and shall be built plumb, or nearly so, so as to be self-sustaining: PROVIDED, *However*, that brick flues may be securely built into the brick work of the walls of the building to which they are hung, when the walls are not less than twelve inches thick; and PROVIDED, ALSO, that, upon special permission first obtained from the Inspector, other forms of support may be used with such special safeguards as he may require, and provided, also that the matter of construction of chimneys in small wooden buildings, other than dwelling houses, not more than one story and a half in height, shall be left to the decision of the Inspector of Buildings, but must be constructed in accordance with his instructions and to his satisfaction.

SEC. 21. All brick chimney-flues shall be built of hard burned brick and be smoothly plastered inside with mortar from top to bottom, during the course of construction, and also outside below the roofing after having been examined and approved by the Inspector of Buildings; except that exposed portions of said chimneys may be left unplastered upon the outside. Said chimneys shall be topped out with brick or stone, laid in cement, and the topping out shall not have more than two inches projection, unless the bricks are covered by a cap of

stone or other non-combustible material in one piece, properly secured, and approved by the Inspector; and in no case shall a nail be driven into the masonry of any flue.

SEC. 22. No smoke-pipe in any building with wooden or combustible floors or ceilings shall hereafter enter any flue except at a distance not less than twelve inches from said floor or ceiling; and in all cases where smoke-pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by a soapstone ring having a thickness radial to said pipe of not less than two inches, and extending through said partition, and in cases where smoke-pipes pass through wood work of any kind in such near proximity to the brick work of the flue that the space between said wood work and flue is inaccessible, said pipe shall be guarded by a soapstone ring or thimble, or its equivalent, having a thickness of at least two inches, and extending from the outer face of said wood work to a point at least two inches within the brick work of the flue, in which it shall be firmly set.

SEC. 23. All hearths shall be supported upon trimmer arches of brick or stone, or upon bars of iron supporting a bed of brick work and shall be at least twelve inches longer than the width of the fire-place openings and at least eighteen inches wide in front of the chimney breast. Wooden centering supporting a trimmer arch shall be removed before plastering.

SEC. 24. Brick work back of all grates, fireplaces and ranges shall be not less than eight inches thick, and when it adjoins a wooden or stud partition shall have at least two four-inch walls, with at least a two-inch air space between. No wood work shall be secured to the brick work of any flue. Open fire-places shall have fire-proof foundations.

SEC. 25. *a*, No furnace or range set in masonry shall hereafter be placed, or its location changed in any building, without a permit from the Inspector of Buildings, who shall prescribe such regulation for the setting or placing thereof as in his judgment the public safety may require.

*b*, The top of every heating furnace or steam boiler shall be kept at least one foot below the lowest part of the ceiling or floor next above it and such protective covering shall be placed on such ceiling as the Inspector may require.

- c*, All register boxes shall be set in soapstone or similar borders, not less than two inches in width and said boxes back of such border shall be surrounded by an open space of not less than one inch in all directions, and when required by the Inspector the timbers and flooring surrounding the boxes shall be protected by sheet metal as he may direct.
- d*, All elevator wells and light shafts, unless built of brick, must be filled in flush between the wooden studs with fire-proof materials, or lined with metal or plastered on metallic lathing, as may be directed by the Inspector, and all wood work inside of such wells or shafts, be lined with tin plate lock-jointed.
- e*, Where floor beams rest on partition caps or on girders, wall girts or wooden sills, fill in between such beams, from the caps, girders, girts or sills to the lining floor above, solid with brick and mortar or other fire-proof material.
- f*, When floor beams in frame buildings rest on ledger boards, fire-stop thoroughly at each floor, with brick and mortar resting on bridging pieces cut in between the studs, or, where practicable, on the ends of lining floor.
- g*, In brick buildings the space between the furrings on the outside walls or brick partitions should be filled flush with mortar for a space of five inches in width above and below the floor beams of each story.
- h*, Where basement or other flights of stairs are enclosed by partitions of brick or wood, the spaces between the studs or wall furrings must be so fire-stopped with brick or mortar as to effectually prevent any fire from passing up between such studs or furring back of the stair stringers.
- i*, All flights of stairs between two floors must have two smoke stops built between the stringers and properly constructed.
- j*, No pipes for conveying hot air or steam must be placed nearer than one inch to any wood work unless protected to the satisfaction of the Inspector by suitable guards or casings of incombustible material.
- k*, No wooden flue or air duct of any description can be used for heating or ventilating purposes, except cold air inlets to heating apparatus.

- l, A space of at least one inch to be left between all wood work and the chimneys, also around all hot-air, steam and hot-water pipes; these spaces around chimneys and pipes, where they pass through floors, to be stopped with metal or other fire-proof material, smoke-tight. Steam and hot-water pipes to have metal sleeves and collars.
- m, All channels and pockets for gas, water and soil-pipes to be made smoke-tight at each floor.
- n, The space around all metal or brick ventilating ducts must be fire-stopped at each floor with metal or other fire-proof material, as approved by the Inspector.
- o, Where a building is occupied above the first floor for tenements or a lodging house, and the lower story is occupied for stores, or other purposes not connected with the upper floors, the stairways leading to such upper floors must be enclosed with brick walls or with wooden partitions filled solid with brick laid in mortar, or other fire-proof material, and plastered on both sides on metallic lathing, and all doors in such partition covered with tin plate, lock-jointed.

The provisions of paragraphs d, e, f, h, i, k, m, n, shall not apply to any wooden dwelling house when occupied by only one family and which is situated more than twenty-five feet from any other building.

SEC. 26. No bay window, balcony or other prejection, except cornices, shall be built upon the front wall of any building so as to project over the line of the street, except upon written permit of the Selectmen.

## SAFEGUARDS DURING BUILDING OPERATIONS

SEC. 27. Whenever any person is about to erect or alter the exterior walls of a building, within five feet of the line of a street, he shall cause the portion of the site of the building bordering upon the street to be enclosed by a proper fence not less than four feet high, and at least five feet from the line of such building; and the fence shall be made as much higher as the Inspector of Buildings shall direct, and the same shall be maintained until all liability to accident from falling material

ceases ; he shall also maintain a proper walk satisfactory to the Inspector, around said fence, as long as the sidewalk is obstructed, and he shall maintain proper lights, if so required by the Inspector, at both ends of such enclosed space from sunset to sunrise. In erecting any building, no person shall place, deposit or suffer to remain in any street or highway any lumber or other building material, rubbish, or remains of any old building, for a longer period than may be necessary for the work which may be going on ; and in case such material, rubbish, or remains of an old building, shall necessarily remain after dark, a sufficient light shall be placed over or near the same, and kept from sunset to sunrise. All rubbish from the erecting or repairing of any building, or the removal of an old building shall be carried away by the person so erecting or repairing or removing such building, at such time as the Superintendent of Streets may direct ; and in case of neglect or refusal so to do, it shall be removed by the Superintendent of Streets, at the expense of such person. Any person violating any provision of this section shall be liable to a penalty of five dollars.

SEC. 28. Proper plans shall be prepared under direction of the Selectmen showing a proper numbering of buildings on all streets of the Town and the Inspector shall send to the owner or person having control of every new building a written notice stating the number assigned by the Selectmen to such building, and directing that the said number be affixed or inscribed in a proper place on said building, and all other numbers, if any, removed within one week from the receipt of notice. Whenever a building fronting on a street is found not having a number, or having a wrong number affixed or inscribed on it, then Inspector shall send a similar notice to the owner or person having control of it. Any owner or person in control of such building refusing or neglecting to comply with the directions contained in any such notice shall be liable to a fine of not more than twenty dollars.

SEC. 29. All questions as to the intent and meaning of the by-laws relating to the construction of buildings shall be decided by the Inspector, provided that any person dissatisfied with or aggrieved by any requirement or decision of the

Inspector may appeal to the Selectmen and their decision, after a hearing at which the Inspector shall be given an opportunity to be heard, shall be final.

SEC. 30. In these by-laws the following terms shall have the meanings respectively assigned to them : —

“ Alteration ” means any change or addition.

“ Cellar ” means a basement or lower story of which one-half or more of the height from the floor to the ceiling is below the level of the land adjoining.

“ Foundation ” means that portion of a wall below the level of the street curb, and where the wall is not on a street, that portion of the wall below the level of the highest ground next to the wall; but if under party or partition walls, may be constructed by the Inspector to mean that portion below the cellar floor.

“ Chimney ” shall apply to any permanent or fixed flues or passages built into any building for conveying away the products of combustion from furnaces, stoves, boilers, ranges or fire-places.

“ Inspector ” means the Inspector of Buildings of the Town of Arlington.

“ Party wall ” means every wall used, or built in order to be used, as a separation of two or more buildings.

“ Partition wall ” means any interior wall of masonry in a building.

“ External wall ” means every outer wall or vertical enclosure of a building other than a party wall.

“ Repairs ” means the reconstruction or renewal of any existing part of a building or of its fixtures or appurtenances, by which the strength or fire-risk is not affected or modified, and not made in the opinion of the Inspector for the purpose of converting the building in whole or in part to a new use.

“ Tenement house ” means a building which, or any portion of which, is occupied, or intended to be occupied, as a dwelling by more than three families living independently of one another and doing their cooking upon the premises; or by more than two families above the second floor, so living and cooking

“ Thickness ” of a wall means the minimum of thickness of such wall.

SEC. 31. Whoever violates any of the provisions of these by-laws shall be liable to a penalty of not more than one hundred dollars unless another penalty is specifically provided herein.

SEC. 32. The provisions of these by-laws shall not apply to buildings and structures owned or occupied by the United States or by the State of Massachusetts, nor to bridges.

## FIRE LIMITS.

All buildings hereinafter built or enlarged, fronting on the following street described lines, shall be built of brick, stone

or other incombustible material. Beginning at the north-easterly corner of Swan and Pleasant streets, thence running north-easterly to the south-easterly corner of Pleasant street and Massachusetts avenue; thence south-easterly on the southerly line of Massachusetts avenue, to a point opposite the Soldiers' Monument. Beginning again at a point in the northerly line of Broadway opposite the Soldiers' Monument and running north-westerly along the north-easterly lines of Broadway and Massachusetts avenue to Central street.

## REPORT OF THE SELECTMEN.

---

The Selectmen submit the following report for the year ending December 31, 1902 : —

Mr. Timothy J. Donahue was appointed Assistant Engineer of the Fire Department.

Mr. Lucian C. Tyler was appointed Inspector of Buildings.

Mr. Charles F. Lusk was appointed Constable under Chap. 25, Sec. 87, Revised Laws.

All other appointments were the same as last year.

For the detail work accomplished by these officials, we refer you to their reports to the Selectmen.

A trench was dug in the sidewalk on the westerly side of Massachusetts avenue from Appleton street to Park avenue, and a small drain pipe was laid. The trench was then filled with large stones, then with finer and crushed stones, and then covered with earth. The purpose of this trench is to take off the water in winter which comes from the ground for nearly the whole distance and makes a sheet of ice on the street in places to the rails of the car-track. The ice remained as long as cold weather lasted and made it dangerous to travel. The trench answered its purpose very well. There is a similar place at the junction of Paul Revere Road and Massachusetts Avenue which should be taken care of.

The bond of the Treasurer and Collector for \$20,000 was given by the United States Fidelity and Guaranty Company and was approved March 22nd.

The largest amount outstanding at any one time, of money borrowed in anticipation of taxes of the year 1902, was \$85,000. This has all been paid. The only outstanding note on this.

account at the close of the year is a note of \$20,000 dated Dec. 16 and given for six months.

The Treasurer has been handicapped in his work during the year by a lack of clerical assistance and still more by the use of his books by the experts employed by the Committee of Five. This of course could not very well be helped.

The street numbering has been revised to some extent and about 475 notices were sent out to this effect.

We recommend an increase in the salary of the Sealer of Weights and Measures.

The work of the Health Department has been done by the Highway Department. We think it advisable to collect paper and such combustible material separately from ashes, and that a specially constructed wagon be used therefor. Four hundred dollars have been received from the sale of offal and should be placed to the credit of the Health Department.

The purchase and transfer of additional playground for Locke School has been consummated.

### STREET WATERING.

The streets have been watered in the same manner as last year. The cost to the abutters was 2 1-3 cents per front foot.

### STREET SIGNS.

A number of signs have been repainted and new ones placed.

### COAL.

All departments using coal will be put to extra expense the coming year on account of the high price of that article.

## BOARD OF SURVEY.

Fourteen petitions have been received for the approval of plans contemplating the laying out and construction of streets and seventeen hearings given on the same. Lines and grades were established on thirteen streets. The Board also in accordance with Sec. 3, Chapter 249, Acts 1897, established lines and grades on four other streets after giving six hearings. See Town Engineer's report for detail. No appropriation was made by the Town for this department, but all expenses were to be charged to incidentals.

One hundred and thirty dollars and thirty-five cents has been expended for engineering.

## CRESCENT HILL AVENUE.

Four petitions were received by the Selectmen asking the Board to lay out certain streets on Crescent Hill as Town ways and bring the same in regular form before the Town for acceptance.

Action on Crescent Hill avenue appeared to be the most urgent and after two well attended hearings this street was laid out as a Town way under the Betterment Act, from Park place to a point 200 feet beyond Montague street.

December 1, 1902, it was accepted by the Town as laid out by the Selectmen and \$2,500 voted to construct the same.

## IRVING STREET EXTENSION.

The extension of Irving street which was authorized November 18, 1901, by an appropriation of \$2,100 was carried out. The cost for construction alone was \$1,170.64; for damages awarded \$1,220; total, \$2,390.64. The assessments for betterments amounted to \$1,260, nearly all of which has been paid.

## ALMSHOUSE.

During the year eleven inmates have been cared for. Of these five were admitted, two sent to Danvers Insane Asylum, one died and two were discharged.

At present (December 31) there are five males and one female cared for.

The number of tramps lodged and fed during the year is 341 males and one female.

Mr. and Mrs. John B. Tay have been in charge and rendered the same faithful services. Asphalt floor has been laid in one of the rooms.

On January 9 fires occurred in the stable and shed. The loss on the buildings was \$1,054. The loss to the Highway Department was \$620. Insurance to cover the loss was received to the amount of \$474.

As the stable and outbuildings are used almost entirely by the Highway Department, one would recommend that all expenditures for keeping the same in repair in the future be charged to the Highway appropriation.

## POOR OUTSIDE THE ALMSHOUSE.

The calls here are always many and must be met with sympathetic and reasonable liberality. The past year has been exceptional in the high price of provisions and fuel and thus added much to expenditures.

Partial support has been given to 108 residents, not including those aided here but charged to other municipalities.

Five persons having a settlement in Arlington but residing elsewhere have been assisted.

Full support has been given to fifteen in insane hospitals and one in Feeble-Minded School.

## STREET LIGHTS.

As authorized by the Town a new contract was made with the Somerville Electric Light Company. The contract was for five years and went into effect May 1, 1902. The Company agrees to furnish 104 or more arc lights for \$73 each per year, and 189 or more incandescent lights of 32 candle power for \$23.50 each per year.

All arc lights to be of the alternating enclosed type with electrical energy of 422 Watts on the average. Four new arcs and twenty new incandescents have been installed, making the total number at present as above. All arcs have been changed to those of the enclosed pattern. The service is very satisfactory. Notwithstanding the number of lights installed is all the appropriation allows, we frequently have requests for additional lights, some of which are very urgent but cannot be provided because of no funds for this purpose.

Mr. Reuben LeBaron has continued in charge of the apparatus for testing the current.

## INSPECTOR OF BUILDINGS.

May 17 the Selectmen appointed an Inspector of Buildings as authorized by vote of the Town.

Eighty-five permits have been granted during the year, twelve of which were issued previous to the Inspector's appointment. The duties of this office are such and so important that none but competent and salaried appointees can render service reasonably demanded by the Town. The value of buildings and alterations inspected is estimated at \$165,800. The construction of these buildings is no doubt more substantial and the work of a higher grade because of efficient enforcement of our building laws.

The inspection is very helpful to the assessors in placing value, and must be of interest to parties desiring to purchase.

We recommend the continuance of a salaried officer. For details see Inspector's report.

### SURFACE DRAINS.

The work laid out three years ago for storm drains has been completed and the original appropriation therefor expended, together with an overdraft of \$199.49.

Storm drains have been constructed the past year in Kensington park, Appleton street and Florence avenue.

For detail see report of Superintendent of Streets.

The relief afforded by these drains to surface water in times of storm and of melting snow and ice has been what was anticipated and the expenditure fully justified.

### TOWN HOUSE.

This building is in good order, with the exception of the rooms mentioned in our report for 1901. We would recommend that the rooms be repaired at an expense not to exceed \$80, so that the main offices shall have a respectable appearance.

EDWIN S. FARMER,  
GEORGE I. DOE,  
WALTER CROSBY,  
*Selectmen.*

# LIST OF JURORS.

LIST OF JURORS OF THE TOWN OF ARLINGTON, REVISED BY THE  
SELECTMEN, JANUARY, 1903.

Allen, Abbott, Farmer.  
Allen, Vinal, Grocer.  
Allen, Frank C., Salesman.

Bailey, Jas. A., Retired.  
Barker, Simeon, Carpenter.  
Bartlett, Alfred H., Wholesale Druggist.  
Bradley, Wm. H., Polisher.  
Bradley, Leander D., Hardware.  
Bennett, John N., Carpenter.  
Bitzer, Jacob, Piano Case Maker.  
Bott, Frank, Wholesale Grocer.  
Brittain, Frederick V., Salesman.  
Brooks, Geo. M., Cashier.  
Butler, Wm. H., Commission Merchant.  
Butcher, Edw. T., Machinist.

## REPORT OF THE CHIEF OF POLICE.

---

*To the Honorable Board of Selectmen of the Town of Arlington :*

GENTLEMEN :— I have the honor to submit herewith the annual report of the conditions and doings of the Police Department for the year ending December 31, 1902.

### ROSTER.

#### CHIEF.

Alonzo S. Harriman, appointed Chief May 1, 1894.

#### PATROLMEN.

Garrett Barry,	appointed	November, 1876..
Daniel M. Hooley,	“	May 1, 1887.
Andrew Irwin,	“	April 1, 1889..
John Duffy,	“	July 20, 1891.
James E. Whitten,	“	March 30, 1896..
Charles H. Woods,	“	March 30, 1896..
Fred E. Smith,	“	April 1, 1899.
Robert H. Fall,	“	July 8, 1901.

The Chief and two patrolmen are on duty in the day time ; during the night six patrolmen are on duty..

Appropriation . . . . .	\$8,982 50
Receipts . . . . .	5 00
Expenditures . . . . .	8,983 19

For a detailed statement of expenditures see report of Town Treasurer.

The expenses of the Department have been kept to a minimum.. No expenses when it could be avoided. No special officers were on duty the past summer only for the night before the 4th of July and the day of July 4th, as the appropriation would not allow it.

## ARRESTS.

Whole number of arrests for the year	155
Males	149
Females	6
Adults	132
Minors	23
Residents	75
Non-residents	80
Foreign Born	63
American Born	92

The offences for which arrests have been made are as follows :

Arson	1
Assault	10
Common drunkard	2
Capias	2
Default	3
Deserter	1
Defacing private property	1
Disturbing public peace	18
Drunkenness	60
False pretence	2
Insane	3
Larceny	11
Malicious mischief	1
Manslaughter	1
Non-support	2
Stealing a ride	1
Trespass	20
Tramp	2
Vagrant	1
Violation game law	2

Violation Town by-laws . . . . .	7
Violation liquor law . . . . .	3
Walking upon railroad tracks . . . . .	1
	<hr/>
Total . . . . .	155

## LODGERS.

Whole number of lodgers . . . . .	380
Males . . . . .	379
Females . . . . .	1
Adults . . . . .	378
Minors . . . . .	2
White . . . . .	378
Colored . . . . .	2
Foreign born . . . . .	187
American born . . . . .	193

213 less than the year 1901.

## MISCELLANEOUS DUTIES PERFORMED.

Accidents reported . . . . .	31
Buildings found open and secured . . . . .	64
Cases investigated . . . . .	61
Contagious diseases reported . . . . .	111
Dead bodies cared for . . . . .	5
Dead animals found . . . . .	3
Defective streets and sidewalks . . . . .	11
Defective water pipes . . . . .	8
Defective wires, electric and telephone . . . . .	18
Defective electric lights reported . . . . .	1,060
Dogs killed . . . . .	16
Fire alarms . . . . .	31
Fires extinguished without alarm . . . . .	3

## CHIEF OF POLICE.

43

Lanterns hung in dangerous places . . . . .	26
Lost children cared for . . . . .	19
Sick and injured persons cared for . . . . .	11
Stray teams cared for . . . . .	10
Street obstructions removed . . . . .	8
Search warrants served . . . . .	2
Amount of property reported stolen . . . . .	\$530 00
Amount of property recovered . . . . .	372 00
Amount of property reported lost . . . . .	120 50
Amount of property reported found . . . . .	120 00

## COURT RECORD.

Number of days in attendance at Third District Court	158
Number of persons paying fines . . . . .	66
Committed for non-payment of fines . . . . .	15
Discharges . . . . .	31
Placed on file . . . . .	9
Probation . . . . .	3
State Farm . . . . .	7
Insane Hospital . . . . .	5
To Grand Jury . . . . .	6
Turned over to other officers . . . . .	7
House of Correction . . . . .	3
Sherburne Prison . . . . .	1
To keep the peace . . . . .	1
Continued . . . . .	1

## RECOMMENDATION.

I again recommend that an increase of one officer be made to the force. An officer should be on duty in the station during

all hours of the night, have full charge of the night force, be in readiness to receive all messages, either by telephone or otherwise, and have general charge from 6 P. M. until relieved in the morning by the Chief.

### PATROL WAGON.

About six months ago a combination ambulance and patrol wagon was tendered to me for the use of the department, to be used for an ambulance only. It has been called into service quite a number of times in accident cases, also in taking sick and injured persons to the hospital. It is said to be one of the best wagons in the State, and, as I understand, is to be given to the department, providing that a horse is furnished by the Town to be in readiness at all times for a patrol wagon and ambulance, also to convey the prisoners to the Court, etc.

### CONCLUSION.

In concluding this report, I desire to thank your Honorable Board and all others who have kindly assisted me in the performance of my duties. Also, I would thank the members of the department for the prompt and efficient manner in which they have discharged their duties.

Respectfully submitted,

ALONZO S. HARRIMAN,  
*Chief of Police.*

# REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

---

*To the Honorable Board of Selectmen: —*

GENTLEMEN: — I respectfully submit to you my annual report of the Fire Department, for the year ending December 31, 1902; also offering a few suggestions which I deem will be of importance to the department and Town.

The department has, by its efficiency and promptness, averted some heavy fire losses, three in particular which I will mention: The Poor Farm property, the Hodgdon Estate on Massachusetts Avenue, and the Swan Block, on Massachusetts Avenue. These three were the makings of serious conflagrations.

## FIRES AND ALARMS.

The department has answered 29 bell and 21 still or telephone calls, as follows: —

### BELL ALARMS.

January 1. Box 36, 12.30 A. M.

Fruit Store. Oil stove explosion. No damage.

January 7. Box 36, 9.15 A. M.

Naptha barrel. Rear Finance Block. No damage.

January 9. Box 43, 7.55 P. M.

Poor Farm property. Value on buildings, \$3,700. Insurance of buildings, \$2,700. Value on contents, \$5,000. Insurance on contents, \$3,360. Loss on buildings, \$1,054. Insurance paid on buildings, \$354. Loss on contents, \$620. Insurance paid on contents, \$120.

February 10. Box 54, 6.02 P. M.

M. M. Adams, dwelling house. Lamp explosion. Value on buildings, \$1,500. Insurance on buildings, \$2,000. Loss on buildings, \$15.00. Value of contents, \$500. Loss of contents, \$5.00.

February 12. Box 54, 9.59 P. M.

Waiting Room, Boston & Lowell R. R. Oil rags caught from stove. Value of buildings, \$4,000. Insurance on building, \$4,000. Loss on buildings, \$5.00. Value of contents, \$2,000. No insurance on contents.

February 13. Box 54, 7.09 P. M.

W. D. Rockwood, dwelling house. Upset lamp. Value on buildings, \$3,000. Insurance on buildings, \$3,000. No loss on building. Value of contents, \$2,500. Insurance on contents, \$1,000. Loss on contents, \$78.75.

March 11. Box 54, 9.20 A. M.

John Connors. Chimney fire. No loss.

March 16. Box 26, 7.20 P. M.

Lewis Avenue. House owned by A. P. Gage. Lamp explosion. Value of buildings, \$3,200. Insurance on building, \$3,000. No loss on building. Value of contents, \$4,000. Insurance on contents, \$3,000. Loss on contents, \$15.50.

March 22. Box 21, 6.15 P. M.

House of David Scanlan. Match dropped in wood box. Value of building, \$2,500. Insurance on building, \$2,000. Loss on building, \$22.00. Value of contents, \$1,900. Insurance on contents, \$1,900. Insurance on contents, \$500. No loss on contents.

April 9. Box 41, 8.45 A. M.

House of Daniel McCarthy. Chimney fire.

April 13. Box 52, 8.23 P. M.

Dwelling, rear Crescent Hill, Estate of J. P. Wyman. Value of building, \$750. Insurance on building, \$500. Loss on building, \$350.

April 29. Box 43, 12.18 P. M.

Boston Chrome Company. Value on building, \$6,000. Insurance on building, \$4,800. Loss on building, \$50. Value of contents, \$9,000. Insurance on contents, \$9,000. No loss on contents.

April 30. Box 36, 1.10 A. M.

Estate R. L. Hodgdon, Massachusetts Avenue. Value of building, \$1,000. Insurance on building, \$800. Loss on building, \$475. Value of contents, \$850. Insurance on contents, \$575. Loss on contents, \$288.

May 11. Box 23, 8.38 P. M.

Fence of G. D. Moore, Broadway. No loss.

May 22. Box 16, 7.04 P. M.

Barn at Mrs. Louisa Cook's, 280 Massachusetts Avenue. Value of building, \$500. Insurance on building, \$300. Loss on building, \$3. Value of contents, \$100. No insurance on contents.

May 30. Box 52, 1 37 P. M.

Barn, rear Crescent Hill. Estate J. P. Wyman. Value of buildings, \$50. Insurance on buildings, \$300. Loss on buildings, \$225.

June 9. Box 16, 8.55 P. M.

Barn at John J. Lyons, 183 Broadway. Value of building, \$500. Insurance on building, \$400. Loss on building, \$400. Value of contents, \$1,200. Insurance on contents, \$1,000. Loss on contents, \$462.

July 4. Box 162, 12.46 A. M.

Play house. Estate J. P. Wyman. No loss.

July 4. Box 41, 2.10 A. M.

Barn of T. J. Hurley, Massachusetts Avenue. Value of building, \$50. Insurance on building, \$300. Loss on building, \$200. Value of contents, \$550. No insurance on contents.

July 4. Box 14, 3.10 A. M.

Hen house, Henderson Bros. No loss.

July 4. Box 15, 4 A. M.

Barn. Estate J. P. Wyman, Massachusetts Avenue. Value of building, \$200. No insurance.

August 30. Box 27, 11.56 A. M.

Fowle's Arlington Mills. No loss.

October 9. Box 36, 9.11 P. M.

Swan Block, W. W. Robertson's store. Value of building, \$16,000. Insurance on building, \$15,000. No loss on building. Value of contents, \$2,000. Insurance on contents, \$800. Loss on contents, \$30.

November 16. Box 43, 5.30 P. M.

J. B. Davie's house. Lamp upset. No loss.

November 19. Box 13, 12.21 P. M.

Patrick Cashman. Chimney fire. No loss.

November 24. Box 13, 9.46 P. M.

Shed owned by Helen P. Lewis, Teel street. Value of building, \$600. Insurance on building, \$500. Loss on building, \$12.

November 15. Box 15, 5.58 P. M.

Daniel Lyon's hay stack. Loss \$25.00.

December 5. Box 512, 8.44 P. M.

Boston Elevated Railway car house. Value of buildings, \$55,000. Insurance on building, \$49,000. Loss on building, \$15. Value of contents, \$200,000. Insurance on contents, \$160,000. No loss on contents.

December 5. Box 512, 9.52 P. M.

Needless.

## STILL ALARMS.

February 14. 5.20 P. M.  
Lumber pile. Jere Maloney, off Brattle street.

February 15. 3.15 P. M.  
Grass fire, Massachusetts avenue, near Grove.

February 15. 4.15 P. M.  
Grass fire. J. Russell estate, Medford street.

February 16. 6.50 P. M.  
Grass fire. Summer street.

February 23. 9.50 P. M.  
Old Cutter School. Drying plaster.

March 2. 7.20 P. M.  
Hay stack. E. S. Farmer.

March 27. 5.40 P. M.  
Grass fire. Forest street.

March 27. 6.47 P. M.  
Grass fire. Park avenue.

April 2. 3.30 P. M.  
Grass fire. Mrs. N. M. Farmer's.

April 7. 1.45 P. M.  
Grass fire. Joseph H. Eaton.

April 13. 5.10 P. M.  
Grass fire. Menotomy Rocks Park.

April 19. 3.15 P. M.  
Grass fire. Crescent Hill.

May 6. 7 P. M.  
Car house. B. & E. carhouse.

May 28. 7.05 P. M.  
Chimney fire.

July 5. 4 P. M.  
Re-kindling of fire.

	November 12. 10.40 A. M.
Hot ashes.	
	November 24. 9.46 P. M.
Shed.	
	December 9. 4.25 P. M.
Robbins Spring Water Company.	Thawing pipe.

None of these fires were beyond the building in which they originated.

### MEMBERSHIP.

The membership of the department is the same as in my last report. Mr. Frank P. Winn did not receive re-appointment by your Board, and the vacancy was filled by Capt. Timothy J. Donahue, who had had long service in the department. Mr. George W. W. Sears is Clerk of the Board. Two members have been discharged from the department for missing three consecutive alarms. Our Board adopted this rule: "That any member missing three successive alarms may be cause for discharge." While this is overlooked in some members who have had a good previous record, this rule applies to those who wish to only answer the roll-call, and captains not reporting such members will receive severe censure.

### APPARATUS.

Very few repairs have been made on the apparatus during the past year. Hose 1 should have a wagon for exercise, as I do not consider it economy to exercise in the hose wagons.

### BUILDINGS.

No money has been expended on the buildings, except for a few minor repairs. Extensive repairs should be made in the near future on Hose 2 building to make it a convenient and comfortable house.

### HOSE.

We have 6,600 feet of hose. One thousand feet of new was purchased this year, and the most of the balance is in very fair condition. Your committee recommended to the Town the expenditure of \$500 for hose and the purchase of an Eastern Deluge Set. Our Board, after getting figures from several hose manufacturers, found they could make better terms by purchasing 1,000 feet, which was actually needed, so 1,000 feet was purchased for \$580. An Eastman Set was also purchased which I think will be indispensable to the Town in case of heavy fire. The cost of repairing some of the old hose has been quite expensive, and we have been obliged to condemn some hose this year.

### HORSES.

The department has nine horses. The pair of horses at Hose 1 house are very old, having been in the department fifteen or sixteen years, and are liable at any time to drop out. Some little sickness has prevailed among the horses this year. They have consumed 912 bushels of grain, 39,471 lbs. of hay, 2,979 lbs. of straw, and 40 lbs. of salt, making the cost of total consumption \$868.56, an average of \$1.85 per horse a week. Owing to the high prices of feed, I think this is a very good showing.

### FIRE ALARMS.

This branch of the department has been under the supervision of R. W. LeBaron, and has given us excellent results. The details of the same will be found in his report.

### RELIEF ASSOCIATION.

The association is in good standing. We have been fortunate in losing no members by death, although the expense for sickness gradually increases.

## SUGGESTIONS.

For better fire protection, I would suggest that the high water service be extended farther down the Avenue, say as far as the Wm. T. Wood Ice Tool Factory, and down Medford Street to better protect the Catholic Church and St. Joseph's School, also that it be extended over Pleasant Street as far as Wellington or Addison Street. I would suggest that those people having telephones in their residence or place of business, in case of fire, would call up the central fire station, No. 64-3, stating the nearest box, as there is a box at this station which will ring in any box number, and with arrangements made with Mr. Clark of the Telephone Exchange, we have the right of way over all other business.

When people understand this thoroughly, it will save much valuable time in giving an alarm. There should be a few more boxes placed on the outskirts of the Town as soon as convenient, on Forest Street in particular. A permanent man placed in Hose 2 house would be of benefit to the department, as three hours out of each day there is only one man in this house, and as the chemical engine is a very valuable piece of apparatus, it is essential that it should reach the fire in the shortest time possible, with safety. I think some effort should be made to decrease our rate of insurance. The Town is expending quite a sum of money on the department and should get some rebate on its insurance.

## APPROPRIATIONS.

To meet the expenses for the coming year, I would recommend the sum of \$9,600.

## CONCLUSION.

Before closing my report, I would acknowledge the many favors received at the hands of the Selectmen and all officers

connected with the Town House, for which they will please accept my sincere thanks.

To my assistants, I desire to express my obligations for the ready manner in which they have assisted me in the discharge of duty.

To the Captains and members, my sincere thanks for their prompt manner in the performance of all duties.

I wish to express my personal thanks to the permanent men for the promptness they have displayed in answering all alarms, and for the deep interest shown in all matters pertaining to the Fire Department.

Respectfully submitted,

CHARLES GOTT.

# REPORT OF THE INSPECTOR OF WIRES.

---

ARLINGTON, January, 1903.

*To the Honorable Board of Selectmen : —*

GENTLEMEN : — I herewith respectfully submit my third annual report as Inspector of Wires and Superintendent of Fire Alarms for the year ending December 31, 1902. : —

## POLES, LOCATIONS AND ATTACHMENTS.

The following number of pole locations were granted, poles set and attachments made during the ensuing year :

## UNDERGROUND AND AERIAL WIRES.

The New England Telephone & Telegraph Company have completed the removing of all aerial cables on Massachusetts avenue, the last section to be taken down being between Park avenue and the Lexington line. These cables have been placed in the underground conduits with branch cables leading out at intersecting streets to the pole lines from which the wires are distributed as required. The removing of all aerial cables has also disposed of a large amount of the single wires and pole fixtures required in the past. A new class of construction was instituted the past summer by the Telephone Company in the cabling of duplex wire for streets where there are trees to pass through or where a considerable number of telephone subscribers reside. This system has been installed on Addison, Wellington and Lake streets and makes a neat class of construction besides allowing the use of many more wires without being as unsightly as was the old class of construction under these conditions. A new line of poles was built by the Somerville Electric Light Company on the easterly side of Lake street from Massachusetts avenue to Cross street. These poles are of sufficient height to carry the light wires above the trees which will prevent burning. These new poles are occupied jointly by the Electric Light Company and the New England Telephone & Telegraph Company, also by the Town wires. The street and house lighting wires that passed through Pleasant street to supply the Town of Belmont have been removed from this street, which makes four high potential wires less to contend with in regard to burning of trees, etc. The replacement of dangerous and unsightly poles throughout the Town has been carried on as fast as possible by all companies. A considerable number of the square hard pine poles on Massachusetts avenue have been found to be in a dangerous

condition and have, or are to be replaced at an early date. The painting of poles has been continued, which with the requirement that steps be placed on all poles instead of using spurs, will make a marked improvement in time. The improvements in all branches of electrical construction at the present time are many, and I am pleased to state that the various electrical companies owning wires on our streets are striving to keep things up to date.

### INTERIOR WIRING OF BUILDINGS.

This class of work is on the increase and requires the most careful attention from an inspection standpoint.

The number of inspections made were 283, which is an increase of 67 over the year 1901.

Number of buildings in which wires were inspected,	127
Number of new buildings wired,	34
Number of inspections made,	283
Number of incandescent lights wired for,	1,792
Number of fan motors wired for,	5
Number of power motors wired for,	5
Number of electric flatirons wired for of 500 to 680 Watts,	6
Total horse-power of motors installed,	50 $\frac{7}{8}$

Fifty-one permits were issued by this office to the Somerville Electric Light Company to attach service wires to buildings for a total of 1,302 incandescent lamps and one 50 h. p. motor which were placed in use.

I would respectfully recommend that an appropriation be made for the purchasing of *voltmeters* and *ammeters* for this department. These instruments are very much needed to intelligently perform the duties of an Electrical Inspector.

## FIRE ALARM TELEGRAPH.

At the adjourned Town meeting in April an appropriation of thirty-five hundred dollars was made for the extension and improvement of the fire alarm system. Seventeen hundred and fifty dollars to be raised by the tax levy of the ensuing year, and a like amount in the year 1903. This appropriation called for the following improvements : —

For the purchasing and placing of a 2,000 lb. bell, with electric striking apparatus in the Arlington Heights section of the Town.

For the building of a bell tower in the Henderson street district, equipped with bell formerly used on the old Cutter School.

For the purchasing of a four circuit repeater and other electrical apparatus for the fire alarm headquarters.

For the dividing of the alarm system into four circuits.

Extension of underground wires and four additional street signal boxes.

These improvements were all made with several in addition which we were able to make in closing contracts for new apparatus. Five street signal boxes were installed instead of four ; also a Universal Repeating Box and Switchboard Cabinet was placed in the Central Fire Station on Broadway. This box is equipped with 36 break wheels numbered the same as all street boxes ; also for the Forest Fire, Police, No School, and Out of Town signals. This is one of the most valuable electrical instruments in the fire alarm system. Alarms can be sent out from this box for a fire in any section of the Town. Valuable time can be saved by telephone subscribers in case of fire by calling the Central Telephone Office and giving the exact location of the fire. This would be repeated to all fire stations by the operators and an alarm will be sounded from the Repeating Box, giving the number of the nearest street box.

## LOCATION OF NEW SIGNAL BOXES.

No. 31, Kensington park, near Brantwood road.

No. 162, Massachusetts avenue, between Wyman and Palmer streets.

No. 56, Appleton street, near Oakland avenue.

No. 71, Massachusetts avenue, near Hibbert street.

No. 512, Massachusetts avenue, Boston Elevated Railway Car House.

Box 512 was paid for in part by the Boston Elevated and Lexington Street Railway Companies, arrangements having been made with them to this effect. About 7,000 feet of new wire was used to install these boxes.

The new bell purchased for Arlington Heights weighs 2,028 pounds, and was put in commission May 22nd. This bell is located on the old Locke School building, now owned by the Peirce & Winn Company. A steel tower fifty feet in height was placed on land owned by the Squire Estate near Teel street, and was equipped with the bell formerly used on the old Cutter School building. This bell was placed in commission June 7th. The electric striker for this bell is the one formerly used at the Heights on the Park Avenue Church bell. A four circuit non-interfering repeater was placed in the headquarters' room in Town Hall, with repeater switch board, terminal switch board and oak cabinet, also thirty additional Type B. T. storage batteries. The repeater is the finest piece of electrical machinery in the fire alarm system, alarms being received by the same from any circuit which are automatically transmitted to all other circuits at the same time. In case of trouble on any one circuit this section is automatically cut out and does not interfere with the working of other circuits. A fifth independent circuit is connected to this instrument which has no connection with the outside circuits. On this circuit are placed the air

whistle and other apparatus in the Town Hall building, which enables an alarm to be given from the whistle, providing the whole outside fire alarm system is out of commission. Provision has also been made in the connections of this repeater for the operating of a pen register and time stamp, which will keep a printed record of all alarms and trouble that may occur, giving the exact time and date.

The alarm system was divided into five working circuits on August 9th, the system being out of a commission about twenty minutes while cutting over. A new switch board cabinet was placed in the Central Fire Station on Broadway, on which are mounted the Universal Repeating Box, Gongs, Fire Alarm Electric Light Switch, Electric Stall Door Openers and various electric buttons.

Eight thousand three hundred and fifty additional feet of rubber covered fire alarm wire was placed in the underground conduits on Massachusetts avenue between Mill and Brattle streets and Franklin and Palmer streets. The fifteen inch gong formerly used in the Henderson street district before the tower bell was placed in commission, was taken down, refinished and placed in Hose No. 2 House. The ten inch gong in this house being transferred to Hose No. 1 House.

Large printed cards were issued by this department for the first time, showing the location of street signal boxes, and we think from the demand for same that they are approved of by the citizens.

The fire lines on Lake street were rebuilt using 4,800 feet of new wire and twenty-five cross-arms. The boxes on this street are now on a loop, the old belt line of wire being removed from Massachusetts avenue to Pleasant street.

There has been no trouble or breaks in the wires during the past year. The Electric Air Pump at Town Hall broke a gear wheel on May 30th which was replaced at a cost of fifteen dollars, this being the only breakdown in machinery.

# REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, MASS., Dec. 31, 1902.

*To the Honorable Board of Selectmen: —*

GENTLEMEN:—I hereby submit my report for the year ending December 31, 1902. Eighty-five permits have been issued during the year. Of these I have issued for

Dwelling houses	.	.	.	39 permits
Outbuildings	.	.	.	17 “
Alterations	.	.	.	17 “
				—
Total number of permits	.	.	.	73

There have been cancelled five permits on dwelling houses, the grantees being unable to complete the work. The other permits were issued by the Selectmen previous to my appointment.

The estimated cost of buildings and alterations completed or nearly so that have been under any inspection is as follows:—

Dwelling houses	.	.	.	\$138,400
Outbuildings	.	.	.	12,775
Alterations	.	.	.	14,625
				—
Total	.	.	.	\$165,800

The total number of inspections made have been 334. These inspections included foundations, fire stops, chimneys and general construction. When I was first appointed, some out of town contractors who evidently did not know of our building laws, were disposed to put in work which would violate the law, but when their attention was called to the matters, they cheerfully rectified all imperfections at once. For a detail of inspection, I refer you to my book of record.

Respectfully submitted,

LUCIAN C. TYLER,

*Inspector of Buildings.*

## REPORT OF TOWN COUNSEL.

---

December 31, 1902.

*To the Selectmen of Arlington: —*

During the past year the following actions have been disposed of: —

Edgar vs. Arlington, for damages, bicycle accident on Medford street, has been settled for \$50.00.

Bond vs. Arlington, for damages arising from alleged defect on Lake street, was tried before a jury and the verdict was in favor of the Town.

The following actions are now pending: —

Partridge vs. Arlington, for damages for altering grade at Claremont avenue.

Locke vs. Arlington, for damages, bicycle accident Massachusetts avenue.

Susanna C. Cook vs. Arlington, for damages for altering grade of Broadway. This action was brought in March of the present year.

The Town was represented before Legislative Committees in the following matters: —

Diseases dangerous to the public health, Matter of supervision by Gas and Electric Light Commissioners, Spot Pond Brook, Refunding Park assessments, Metropolitan Water assessments.

The by-laws of the Town relating to the non-allowance of discounts on taxes and the changes in Town offices have been approved by the Superior Court.

An indictment and trial has been had under the by-law relating to piggeries, and the validity of the by-law sustained in the Superior Court. This matter has gone to the Supreme Court on the defendant's exceptions where the question of the validity of the by-law will be finally determined.

In the suit on the Treasurer's bonds, an auditor was appointed in the summer, but owing to the illness of counsel the actual trial of the case has been delayed. There seems to be no reason now why the case should not be pressed forward for speedy trial. The preparation of the case has required considerable time and its trial may be lengthy. Efforts are being made to eliminate as many items as possible which are not in dispute so that the trial in Court may be shortened.

In addition to the above matters the ordinary work relating to the transaction of the Town's business has been attended to.

WILLIAM H. H. TUTTLE,  
*Town Counsel.*

## REPORT OF TOWN PHYSICIAN.

---

*To the Board of Selectmen : —*

GENTLEMEN : — The following is respectfully submitted as a report of the work done in this department from January 1, 1901, to December 31, 1902 : —

Number of calls made on outside poor,	385
Number of calls at office,	256
Number of visits to Almshouse,	112
Number of free vaccinations,	537

There has been a slight increase in the amount of sickness among the Town's poor, due to several extraneous reasons.

At the Almshouse the usual number of chronic cases were cared for, with few of an acute nature.

The large number of free vaccinations was done by order of the Board of Health.

The need of a hospital for the care of infectious diseases occurring among the Town's poor is still a much needed necessity.

DR. CHAS. A. KEEGAN,  
*Town Physician.*

## REPORT OF THE INSPECTOR OF MILK.

---

*To the Honorable Board of Selectmen, Town of Arlington: —*

The undersigned respectfully submits the annual report for the year 1902.

Fifty licenses have been issued to milkmen and storekeepers and the proceeds to the amount of \$25 paid into the treasury. I have examined a great many samples the past year and every test was perfectly satisfactory.

Respectfully,

CHARLES F. LUSK,

*Inspector of Milk.*

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

---

*To the Honorable Board of Selectmen, Town of Arlington: —*

GENTLEMEN:—I have visited and adjusted the scales and tested the weights at thirty-nine stores and factories and received in fees \$35.60, and have your Treasurer's receipt for the same.

The whole number of scales tested	.	.	119
“ “ measures, wood and tin	.	.	174
“ “ weights . . . . .	.	.	404
“ “ milk jars . . . . .	.	.	7,491
“ “ jars condemned . . . . .	.	.	289

Respectfully submitted,

CHARLES F. LUSK,  
*Sealer of Weights and Measures.*

## REPORT OF INSPECTOR OF PROVISIONS AND SLAUGHTERING.

---

*To the Honorable Board of Selectmen: —*

I have the honor to submit to you the following report for the year 1902: —

The provision stores have been kept neat and in good condition, and provisions have been good quality; have not received any complaint during the year.

I have inspected the following number of animals slaughtered during the year 1902: Two thousand, eight hundred and twenty veal, seventeen hogs, five beef.

The slaughter house and building have been kept very neat and clean; have not received any complaints. They have not been able to slaughter any during the month of December on account of the cattle disease.

Respectfully,

FRANK P. WINN,  
*Inspector.*

# REPORT OF THE INSPECTOR OF ANIMALS.

---

*To the Honorable Board of Selectmen: —*

GENTLEMEN:—I have the honor herewith to submit my annual report as Inspector of Animals for the year ending December 1, 1902.

During the year there have been fourteen horses found to be diseased with glanders and farcy, which were immediately destroyed. There have been two cases of tuberculosis in cows, and three cases of hog cholera. Two cows and a calf, which had been brought into the State from New Hampshire, were quarantined and tested by order of the State Cattle Bureau.

In making my regular fall inspection, I have inspected two hundred and fifty (250) cows, five hundred and sixty-six (566) hogs, and one (1) sheep for tuberculosis and other contagious diseases. The owners were in all cases given the regular certificate of inspection. I also at this time inspected eighty-four (84) stables wherein these animals were stabled, and reports were in each case made out and sent to the State Bureau.

Just after this inspection had been completed, I was again ordered by the State Bureau to make another inspection, because of a serious outbreak of foot and mouth disease in cattle. This resulted in the finding of one herd of thirteen (13) cows infected with the disease. This entire herd was destroyed by the State Bureau and the stable disinfected by them.

In all cases where contagious diseases have been found, the stables have been thoroughly disinfected before other animals were allowed to occupy the same.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.,

*Inspector of Animals.*

# REPORT OF THE TOWN ENGINEER.

---

ARLINGTON, Jan. 21, 1903.

*To the Honorable Board of Selectmen:—*

Herewith I respectfully submit a report for the year ending December 27, 1902, on the work done and expense incurred by the Department under my charge.

Many estimates of cost of various work and preliminary plans have been made during the year as required by the several Departments of the Town and all lines and grades have been given for construction work on highways, sewers, water mains, sidewalks, storm drains and miscellaneous work. All plans showing the location of storm drains, sewer assessments, water and gas mains and records of street grades and takings of private lands have been made and filed. All the changes and additions made during the year affecting plans and records previously filed and coming under the supervision of this Department are being prepared to date.

The classified division of time for the engineering office is as follows:—

Highways,	\$377 31
Sidewalks,	52 29
Storm drains,	56 86
Sewers,	530 29
Inspection and superintendence on sewer construction and mainten- ance,	396 55
Water Department,	336 49
Cemetery Department,	158 44
Particular Sewers,	328 85

Fire Alarm,	\$10 30	
Public Schools,	4 56	
Board of Health,	2 64	
Incidentals,	649 17	
	<hr/>	\$2,903 75

The incidental expenditures are sub-divided as follows : —

Board of Survey : Surveys and plans of proposed new street lines and grades as directed, and the examination of all plans submitted to the Board for approval,	\$130 35
Street Numbering : Revising the entire numbering system, making fifty-five new plans of streets, locating and plotting all building on both new and old plans, in accordance with the by-law approved April 22, 1901,	304 32
Town Lines : Relocating and setting new bounds on Massachusetts Avenue, Hibbard Street and Westminster Avenue, at the Lexington line,	21 63
Surveys and plans for conveyance of a portion of the Almshouse lot to the Trustees of Symmes Hospital, including location of right of way	36 68
Indexing and arranging of plans and records in Town Clerk's office,	15 61
Copying plans of property from Registry at East Cambridge,	33 54
Surveys, plans and photographs and attendance at court on cases pending,	13 24
Plans, studies, estimates for various committees, including plans and profiles of Tanager street and Crescent Hill avenue, and Jason street School District	93 80
	<hr/>
	\$649 17

## STORM DRAINS.

Drains for the removal of surface water were laid in Kensington park from Pleasant street to Kensington road, also in Appleton street from Oakland avenue to Florence avenue, and across Massachusetts avenue, opposite entrance to Boston & Maine Railroad and at Hobbs court. Catch-basins were placed at suitable points to receive water from the street gutters and were provided with hoods over the outlets to prevent debris from passing over into the main pipes. In the case of Kensington park much ledge was encountered which added considerably to the cost of the work. The total length of storm drains now in use in the Town which have been built under systematic and improved methods is 5.5 miles.

The line of Forest street at Old Bow street has been changed by the County Commissioners to agree with the lines of the work of separation of grades by the Boston & Maine Railroad. The Commissioners have also established new lines for Bow street to connect with the new street built at the time of the separation of grades, making thereby a street forty feet in width from Forest street to Lowell street. These new lines have been permanently defined by stone bounds. Lines for location of poles have been given the Somerville Electric Light Company on Lake street, from Massachusetts avenue to Cross street and Bow street, from Forest street to Lowell street. Also lines of accepted streets have been given to property owners when requested on accepted streets.

## BOARD OF SURVEY.

Under the direction of the Board, surveys and plans were made of Tanager street, Park circle, Woodland street and Bartlett avenue, from Gray street to Woodland street, showing

new lines and grades. Plans and profiles of the following streets which were received with petitions for location from the owners of abutting property were examined and reported.

	From	To	Distance
Gloucester St.	Mt Vernon St.	Highland Ave.	730 ft.
Windemere Ave.	Bartlett Ave.	H. J. Locke's land	350 "
Orchard Terrace	Medford St.	Webcowet Road	375 "
Gardner St.	Broadway	Fremont St.	1,000 "
Rangeley Ave.	Mystic St.	Glen Ave.	625 "
Glen Ave.	Mystic St	Walnut Ave	500 "
Summer St.	Pine St.	Lansdowne Road	550 "
Lansdowne Road	Summer St.	McManus land	775 "
Rockland Ave.	McManus land, southerly		700 "
Millett St.	Lansdowne Road	Brattle Park	275 "
Willow Ct.	Mass. Ave , northerly		170 "
Arno'd St.	Dundee Road	Hibbert St.	750 "
Williams St.	Arnold St , northerly		782 "
Total,			<hr/> 7,582 "

A survey, plan and profile was made of Crescent Hill avenue from the Lexington line to Park place. This street was accepted by the Town December 1, 1902, and an appropriation of \$2,500 voted for construction.

### WATER DEPARTMENT.

Lines have been given for the extensions of the Water Works System and all new gates, specials and hydrants have been located and plotted on the plans of the Department. The service boxes or shut-off gates for buildings have all been located and are being recorded. New and complete plans should be compiled showing boundaries and location of the Water Works property at East Lexington.

### CEMETERIES.

The portion of Mount Pleasant Cemetery which was graded in 1901 has been completed by the building of the new avenues.

A contract was made by the Board of Cemetery Trustees with Michael Kelly for furnishing the material, excavating, etc.

The following are the quantities of the work done under this contract, the Water Department having first laid about 800 feet of six inch main pipe in the avenues for future use in the care of the cemetery.

298 cubic yards	Blue gravel.
26    "    "	Screened gravel.
38    "    "	Light macadam.
111   "    "	Sub-grading.
17    "    "	Brick work in catch-basins.
745   "    "	Tar concrete for gutters.
453 lineal feet, 8-inch, 12-inch and 18-inch pipe laid for catch-basins.	

All surplus excavated material was deposited on Meadow Brook Park for filling.

## SEWERS.

All new construction this year was done by day labor with the exception of Gray street which was built under contract with H. A. Hanscom & Company, on account of the large quantity of ledge to be excavated.

The methods employed in caring for the sewerage system are the same as last year. The sewers have been thoroughly cleaned and found to be in good condition.

The following table will show details of construction by streets in 1902 :

TABLE SHOWING COST OF SEWERS BY STREETS, 1902.

Size.	Length.	Cost of		Total Cost.	Amount of Assessments.	Cost per foot.	Average Cut.	Character of Soil.
		Labor.	Material.					
6	187	\$141 91	\$50 82	\$192 73	\$170 70	\$1 03	6.5 ft.	Ledge and gravel.

## PARTICULAR SEWERS.

The labor and materials on Particular Sewers have been furnished by the Sewer Department as in previous years. The cost of the work this year is less per foot than any year since the work began in 1896.

## LIST OF PARTICULAR SEWER CONNECTIONS TO JAN. 1, 1903.

	Buildings Connected.	Number of Connections.	Length	Average Cost per foot.
1896	116	114	8,341	.68
1897	132	122	7,633	.69
1898	110	115	7,397	.61
1899	128	125	7,178	.58
1900	89	90	5,228	.61
1901	97	94	6,467	.53
1902	96	91	5,437	.51
Totals,	768	751	47,681	
Total cost of Particular Sewers to date . . .				\$32,579 58
Total receipts for Particular Sewers . . .				32,344 77
Balance . . . . .				\$ 234 81
Amounts due the Town from unsettled accounts,				\$247 75

The Engineering Department is now well equipped with the necessary instruments for handling the engineering work of the Town in an economical manner. A part, however, of the instruments were purchased by the Sewer Department for use on sewer construction and should be transferred by an appropriation to the Engineering Department, as they are now used on general Town work for all departments.

The new vault which has been provided in the basement of the Town Hall has relieved the crowded condition of the old vaults and allows much needed space for the accommodation of the plans and records not in daily use.

Respectively submitted,

ROBERT W. POND,  
*Town Engineer.*

## REPORT OF SEWER COMMISSIONERS.

---

The Sewer Commissioners submit the following statement as showing the condition of the Sewer Department at the end of the year 1902, the details of the work for the year will be found in the report of the Town Engineer.

### SEWER DEPARTMENT STATEMENT JAN. 1, 1903.

	Cr.	Dr.
Total assessments levied to Jan. 1, 1903 . . . . .		\$128,594 90
Assessments abated . . . . .	\$1,036 89	
Assessments levied on cemeteries and Town property and deemed not collectable . . . . .	2,784 95	
Assessments levied on church prop- erty, etc., deemed uncollect- able . . . . .	1,404 99	
Assessments levied on sewers built by Metropolitan Sewer Com- mission and to be paid the Commonwealth . . . . .	4,261 03	
Appropriation for Henderson street district sewers . . . . .		10,500 00
Bond issue 1896 for sewer con- struction . . . . .		100,000 00
<i>Amounts carried forward,</i>	<hr/> \$9,487,86	<hr/> \$239,094 90

<i>Amounts brought forward,</i>	\$9,487 86	\$239,094 90
Sale of main sewer to Commonwealth of Massachusetts, less collectable assessments . . .		42,400 13
Amount expended for sewer construction and maintenance (including Henderson street district sewers) as per Town Treasurer's balance, Jan. 1, 1903 . . . . .	267,212 34	
	<hr/>	<hr/>
	\$276,700 20	\$281,495 03
		276,700 20
		<hr/>
Balance . . . . .		\$4,794 83
Stock and materials on hand for new construction . . . . .		776 58
Amounts due from other departments and individuals . . . .		275 88
		<hr/>
Balance for new construction		\$5,847 29
Tools, instruments, storehouse, horses, teams and equipment		\$3,246 70
Estimated value of sewer assessment plans . . . . .		8,500 00
		<hr/>
		\$17,593 99

We desire to call the attention of the Town to the fact that nearly all the instruments now in general use by the Engineering Department were bought from the funds of the Sewer Department, at a cost of \$557.46, for sewer construction purposes; also that the assessments on public property, including

schools, Town buildings, parks and cemeteries, amounting to \$2,785.95 represent an amount of expenditures that have materially reduced the funds available for new construction. We ask that an appropriation to cover these amounts be made at the annual Town meeting to reimburse the department; by so doing the work can be continued without further appropriations for a period of at least two years. We again recommend that \$500 be allowed annually for the care and maintenance of existing sewers.

Respectfully submitted,

EDWARD S. FESSENDEN,  
WINFIELD S. DURGIN,  
WARREN W. RAWSON,  
*Sewer Commissioners.*

## REPORT OF THE BOARD OF HEALTH.

---

For the year ending December 31, 1902, the general health of the Town has been exceptionally good.

The entire number of cases of contagious diseases reported to the Board of Health was 123.

Of this number 103 were measles, 3 diphtheria, 4 scarlet fever, 6 typhoid fever and 7 small-pox.

Of the seven cases of small-pox, four were probably infected in Boston, Cambridge and Somerville, and the remaining three, all in the same family, took the disease from one of the four above named.

In all cases the patients were at once removed to the Somerville Small-pox Hospital, and the remaining members of the family thrice vaccinated, and quarantined for two weeks.

The second case occurred in the thickly settled district of Lewis avenue, and it seemed best to vaccinate all people in that vicinity who had not been recently vaccinated. The vaccination was done by Dr. Keegan.

This included practically all residents of the section bounded by Warren, Franklin, Hamlet and Medford streets.

Cases three, four, five and six were in one house on Teel street.

With the exception of the first case on Teel street, which was practically well when discovered, all were removed to the Somerville Small-pox Hospital as soon as the diagnosis could be definitely made.

A woman was found on Henderson street in the pustular stage of small-pox, she having escaped from a quarantined

house in Cambridge. The Cambridge Board of Health immediately removed the patient to Cambridge.

All the residents of the Teel and Henderson street district, who had not recently been vaccinated, were at once vaccinated by Doctors Keegan and Hooker, by request of the Board of Health. No new cases developed.

All these cases above mentioned had settlements in other towns and municipalities, and it is expected that their officials will meet the expenses incurred in the care of patients, and quarantine of other members of the several families.

While such extensive vaccination caused considerable expense, it seemed best to take every precaution to prevent the spread of this dread disease in Town.

The practicability of such radical measures may be seen, for with such an opportunity of exposure, no other cases developed, the only spread of the disease being among members of the same family.

The Medical Inspector has made daily visits to the various schools, and the following is his report.

The total number of children examined during the year 1902 was 1,212, of which number 109 were sent home for the following causes : —

Pediculi,	46	Chicken-pox,	3
Vaccination,	18	Favus,	2
Sore Throat,	19	Ivy poisoning,	2
Measles,	4	Stye,	3
Ringworm,	4	Erysipelas,	1
Pink Eye,	3	Whooping-cough,	1

During the fall term 270 children were examined for vaccination, of whom only 18 were found unvaccinated. The latter were afterwards vaccinated and duly inspected.

In a number of suspected cases of whooping-cough the children have been requested to remain at home. These cases are not included in above list.

Several requests have been made to parents to have children's eyes tested for glasses, which requests have been complied with, with good results

Upon request of the Board of Health, Mr. Harold L. Frost kindly submitted specimens of varieties of weeds, taken from Spy Pond, to Professor G. E. Stone of the Massachusetts Agricultural College.

Professor Stone states that the vegetable growth seen on and close to the shores of the pond is a species of Algae, whose growth is favored by the lowering of the water of the pond, thereby permitting the material to dry.

The remedy proposed by Professor Stone is to sand the entire shore.

The other growth found in the deeper water is of a decided weedy type, and can only be removed by an exhaustive and complete system of dredging.

Because of the increasing growth of the weeds in the deeper waters of the pond, and its unpleasant appearance on the surface of the water during the summer season, we earnestly recommend that the Town make a greater effort to exterminate this growth by a more extensive system of dredging during the coming summer than has been carried on in the past.

## PLUMBING INSPECTIONS.

During the year ending December 31, 1902, one hundred and ten plumbing permits were applied for and duly issued. These permits covered a large amount of plumbing. Under some of said permits a portion of the plumbing was done in violation of our Town regulations relating thereto. Defects complained of

were remedied, but in some cases after considerable contention had resulted therefrom.

Increase in cost of plumbing the past year has caused much controversy by contractors slighting work to avoid expense in the execution of their contracts.

Enforcement in our Town of the new by-laws relating to the construction of buildings facilitates the inspection of plumbing.

Signed,

EDWARD S. FESSENDEN,  
EDWIN P. STICKNEY, M. D ,  
EDWIN MILLS,

*Board of Health.*

## REPORT OF PARK COMMISSIONERS.

---

The maintenance of the park areas in charge of the Park Commissioners is about all the work which has been done during the past year.

At Menotomy Rocks Park a caretaker has been employed throughout the summer season as has been customary in years past. Under the direction of Mr. Harold Frost the trees which were most badly infested with the gypsy moth were burlapped and during the season that the caterpillar is most active these were watched and the caterpillars removed by the caretaker. During each year a considerable number of the trees in this Park die and have to be removed and it is almost impossible to grow new ones to take their places. In the opinion of the Board and the experts whom they have consulted, this is due largely to the loss of nourishment due to removing the leaves which drop in the fall. At the present time these are removed by the neighboring farmers to be used as covering, without expense to the Town. The reason for allowing this is that if the leaves remain on the ground they are liable to take fire and cause the destruction of the trees. The nourishment thus lost must be furnished in some way and in the opinion of the Board this could be done by allowing the leaves to remain and rot, but in order to do this safely it would be necessary to have the Park policed for a much longer time each year in order to extinguish any fire which might be started, necessitating a considerable increase in the appropriation for maintenance, but it seems to the Board that the money expended for this purpose

is a good investment as it will tend to preserve the trees and the beautiful appearance of the Park.

At Meadow Park very little filling has been deposited during the year. Early in the season by agreement between the Selectmen, the Board of Health and the Park Commissioners, the ashes collected near the center of the Town were dumped on the private land lying between the park land and Mystic street, near Chestnut street, to fill up a low area which was becoming a nuisance detrimental to the public health. As soon as the appropriation was made at the annual meeting for the maintenance of the parks, two men were employed to remove brown tail moth nests from the trees in Meadow Park which were badly infested, but very little could be done as the worms began to leave the nests about the time the appropriation was made.

At Russell Park it was found that the walks had been badly gullied and washed, and these gullies were filled in and the walks regraded with blue gravel.

The triangular grass plots on Medford street near Chestnut and Warren streets have been taken care of and the grass cut as in previous years.

The circular area around the standpipe on Arlington Heights has had nothing done to it by the Park Board during the year.

### GYPSY AND BROWN TAIL MOTHS.

The trees in both Menotomy Rocks Park and Meadow Park are badly infested with the gypsy and brown tail moths, as are also the trees along the highways and in private land, and unless something is done to stop the work of the moths the trees will undoubtedly be seriously injured. It seems to the Board that we cannot expect help from outside but that if this work is done at all it must be done directly by the Town, and

we would recommend if it is desired to preserve the trees that an appropriation be made at once to destroy the moths at the earliest possible moment.

During the year Messrs. Olmstead Bros., landscape architects, have completed the work of preparing a design for the construction of Meadow Park, and have delivered to us three sets of plans, one a general plan, another a grading plan, and a third planting plan. They have been paid in full and the plans are on file with the Commissioners.

Respectfully submitted,

HENRY D. DODGE,  
FRANK W. HODGDON,  
THOMAS HOGAN,

*Park Commissioners.*

JAN. 31, 1903.

## REPORT OF TREE WARDEN FOR 1902.

---

In submitting my second annual report, I do not feel very well satisfied with the the condition that my department is in, as the Town, through the recommendation of the Committee of Twenty-one, refused to make an extra appropriation asked for by me, to cover the expenses for work which I thought necessary to be done in destroying the eggs of the gypsy moths in the parks and on private lands. I believe the citizens will have cause to regret their action, for I feel certain if something is not immediately done to stop their ravages, that very soon the whole Town will be infested, as they seem to multiply about three hundred fold every year. The trees on the highways, through the work done the past two years, were practically free from the brown tail and gypsy moths, but again this year, owing to the negligence of land owners, not destroying the pests, there are brown tail nests to be destroyed this year, and I find many more gypsy moth eggs on the highways than last year. The State Board of Agriculture do not seem inclined to do anything to bring the matter before the Legislature this year.

Up to this time, there has been no concerted action taken by the cities and towns in the infested district, each municipality seems to be doing something to stop the spreading of the pest, and I think Arlington should make a larger appropriation or do nothing. About \$425 was spent in destroying the nests of the brown tail moths, and \$50 on gypsy moths. The balance of the \$900 was spent for setting out and caring for trees on the highways.

Herewith find receipts and expenditures :

### RECEIPTS.

Appropriation,	\$900 00
For removing brown tail moth nests from private lands,	87 00
	<hr/>
	\$987 00

## REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

---

*To the Town of Arlington: —*

The Trustees of the Robbins Library submit their annual report.

A change has taken place in the composition of the Board since our last report by the election of Dr. Charles A. Keegan in the place of Mr. Matthew Rowe, who closed his connection with the Library in February, after nine years of faithful service; and by the election of Arthur J. Wellington, Esq., in place of Mr. Walter B. Farmer, who transferred his residence to Brookline. The presence of Mr. Wellington on the Board perpetuates the connection of his family with the management of the Library from the date of its organization in 1835 through four generations.

We again notice a falling off in the number of volumes taken, 43,914 for this year as against 47,369 last year. There is a slight falling off also in the number of books loaned from the Children's Room, 12,013 as against 12,188 last year. But the use of the reading room both on week days and on Sundays shows a gain. The public has made good use of the opportunity of selecting books directly from the shelves while the Library has not lost thereby a single volume.

We have continued to give exhibitions of photographs, etc., in addition to those hitherto reported.

### FEBRUARY AND MARCH.

The attention of the public should be drawn to the fine collection of portrait-engravings in the Art Gallery, which can be examined by adults by application to the Librarian who will furnish them a catalogue carefully prepared by Miss Caira Robbins.

Mr. Winfield Robbins has continued his generosity to the Library by the gift of seven volumes.

Mr. Henry Dexter, of N. Y. City, has presented the "National Cyclopedia of American Biography," twelve volumes.

Judge James P. Parmenter has presented "Universities and Their Sons," five volumes, a valuable gift.

Mr. Thomas W. Lawson has presented in a sumptuous volume, "Lawson's History of the America's Cup."

A welcome gift was received of two copies of "Two Graves ; or, the Blue and the Gray and other poems" by the author, Thomas Moore Kenny,—a former resident of Arlington.

Mr. D. P. Corey presented a "History of Malden."

The editors of the *Advocate* and *Enterprise* continue to send us files of their papers.

The Trustees call the attention of the public to the need of a change in the grade of the lawn surrounding the Library, in order to turn the water away from the building and make effective the repairs, which cannot wisely be delayed, upon the areas surrounding the basement windows.

## REPORT OF THE SCHOOL COMMITTEE.

---

December 31, 1902.

*To the Town of Arlington:—*

Your several schools have been characterized by excellent and efficient work the past year. No distinction is to be drawn between them, and so no special report is required of any of them. The matters contemplated at the beginning of the year have been attended to and the safety of the pupils has been provided for by placing in each building suitable fire extinguishers. The additional property for the enlargement of the Locke School yard has been acquired. The matter of fitting the new grounds for use as a playground will require the immediate attention of the Town.

In the Locke School one new room has been opened for the fifth grade, and Miss Gertrude Williams has been elected as the teacher. In the Cutter School a new room has been opened for the fourth grade, with Miss Caroline Young as the teacher. There is one room still vacant in the Cutter building, and this is the only vacant room in Town.

Two rooms have been furnished during the year, one, a new room at the Locke, the other a room at the Russell for the fifth and sixth grades.

Miss Newton has been granted a second year's leave of absence through the desire on the part of the Committee to have the High School, if possible, ultimately retain the benefit of her services. Miss Mary B. Lippincott is substituting for Miss Newton. Mr. M. W. Mather is substituting for Miss Cutler.

Miss Laura M. Sylvester, a teacher of the ninth grade, has resigned and Miss Cora S. Burleigh has been elected in her place.

In the Crosby School, Miss Louise M. Wooster and Miss Hattie A. Snell have resigned, Miss Ethel Fletcher has been elected in Miss Wooster's place, and Mrs. Esther G. Hatch transferred from the first grade to the second grade taking Miss Snell's place. Miss Carolyn H. Parker has been elected teacher of the first grade.

In the Russell School the following changes have occurred: Miss Lena H. Abbott has resigned as master's assistant, and Miss Eleanór B. Mitchell has been elected in her place. Miss Mabel C. Pond has been transferred from the third to the sixth grade to take the place of Miss Carrie M. Poor, resigned. Miss Grace Osborne has been elected as teacher of the third grade.

During part of 1901, and the larger part of 1902, it has been necessary to employ an assistant in the first grades of the Crosby and Locke Schools, on account of the large number of pupils.

The manual training teacher is now employed three days per week. The time of his employment must be extended.

In the early summer the Committee voted to increase to \$600 per year the salaries of all the grade teachers who had been in service more than two years, the increase to begin with the fall term.

The principals of the Crosby, Locke and Cutter Schools were voted an increase of salary of \$100 each, beginning with the April term. The present salaries of these principals are each \$850.

The Russell School is still under the principalship of the Superintendent. Full superintendency, as required by law, was given to Mr. Sutcliffe beginning with the fall term. His

entire services have been extraordinarily satisfactory, whether from the Committee's point of view or that of the teacher, parent and child. He still acts as Secretary of the Committee. In performing this work the Superintendent attends to the financial work of the Committee in all its details. This financial work is a burden on him to such an extent that we believe it should not be borne much longer. His other, larger, and more important duties are a sufficient tax upon the energies of one person. It was hoped that in the adjustment and differentiation of the Town's work, the financial work of the Committee, beyond the necessary approval of bills by the Board or its sub-committees, would be given to the person who would be selected to do other like work for the Town.

A very extraordinary and unexpected expenditure has been made for fuel the current year. The usual expenditure in this respect has more than doubled, and has prevented the Committee from purchasing the usual year's supply, lasting till the end of the school year. It is fair to add here that all the janitors have performed their duties with the utmost fidelity in their efforts to hold in check the heating expenses.

Very little sickness has been manifested in the schools and no schools have been closed for that cause.

The grammar school buildings of the Town, which now include the first eight grades, are all located along the central line (a northwest and southeast line) of the Town. The distances at all points from the sides of the Town to this central line of schools are not so great as to seriously inconvenience any pupils of nine or ten years of age or upwards. The proposition of the Committee unanimously entertained by them, was and is that outlying school buildings of three or four rooms each should be built as occasion might require on either side of this line for the accommodation near home of the pupils of the first four grades. These buildings rightly placed would give the needed relief for

the expansion of the other grades in the grammar school buildings. It is hardly conceivable that within the life of any of the proposed outlying buildings substitutions of eight-room buildings will be required. In case the future growth of the Town shall make it imperative to have a large building on either side of the Town, it by no means follows that the primary buildings should be abandoned. They should continue to serve the school population until their abandonment shall be required by reason of an insufficient number of pupils. It is believed to be a matter of good judgment that children of the first four years should be schooled apart from the other grades, and this wholly aside from the question of nearness of the school to the young child. If the matter of location of buildings and distribution of pupils were to be settled *de novo*, the common judgment would undoubtedly be against the gathering in one building or in one playground of hundreds of pupils comprising all the school ages, except so far as economy and lack of space might be controlling factors.

The plan of the Committee contemplated inexpensive but attractive wooden buildings, which the Committee thought would, with proper architectural skill and proper painting, be more in harmony with the surroundings in a residential district. The artistic aspect must be left to the taste of the Building Committees and the final judgment of the Town.

Education is not a matter of buildings or building materials. The teacher is the all important agent, and the individual, and not the class or grade, is the true school unit. Teaching is not like mechanical work where the material is all alike and the machinery to work it into shape is all alike. The teacher must have the time to assist at the right points the sometimes called dull pupils, and the sometimes called bright pupils must be allowed to go ahead with work which will properly exercise their faculties. Most pupils can do profitable and

even good work, with only a very little wisely-directed individual help. More attention to the individual and helpfulness for him, more opportunity to progress according to ability, and more opportunity for essential school work in school hours, will vastly improve the individual and the school.

The “effort” mark on the child’s report-card should be among the first, if not the first to attract the parents’ attention and approval. Except in the rarest cases the child who works will “win out” in the mastery of his subjects. It is very difficult however for the child to give attention to a matter where certain preliminary processes are in reality unknown to him, while a good boy or girl may speedily become troublesome from a lack of sufficient subject matter to work upon.

WILLIAM H. H. TUTTLE,  
*Chairman of School Committee.*

## REPORT OF SUPERINTENDENT OF STREETS.

---

*To the Honorable Board of Selectmen:—*

GENTLEMEN:—I submit to you my annual report for the year ending December 31, 1902.

The character of the work done on the streets the past year has been principally re-surfacing worn out macadamized streets and graveling worn and dirt roads. This with care of sidewalks, storm drains, cleaning gutters and scraping muddy streets has constituted the work of the season.

The following statement will show the amount paid under the highway appropriation:

Appropriation, Town Grant	.	.	\$21,183	95
Credits	.	.	4,775	31
				<hr/>
				\$25,959 26
Expended	.	.	\$26,270	56
Exceeded appropriation	.	.	311	30
				<hr/>
				\$26,270 56

See Town Treasurer's report for detailed statement.

An account of the expenditures on the different streets will be found in the following table:

## REPAIRS AND MATERIALS USED ON THE FOLLOWING STREETS.

## EXTENSION OF IRVING STREET.

## EXPENDED.

Labor of men and horses . . . . .	\$625 69
Crushed stone, stone-dust . . . . .	100 00
Pipe, tools, bends, supervision, etc. . . . .	188 50
Gravel, cement, brick, stone-cutting . . . . .	205 61
Roller and miscellaneous . . . . .	105 84
	<hr/>
	\$1,225 64
Less credits . . . . .	55 00
	<hr/>
	\$1,170 64

## PAVED GUTTERS.

There has been 2,028 yards of gutters paved at an expense of \$1,255.02 or a fraction less than sixty-two cents per yard. I consider money expended in paving gutters well spent, owing to the great saving to streets in time of heavy rains.

CARE OF SNOW.

As usual, the care of snow has required quite an expense in breaking out walks, keeping gutters open, crosswalks swept, and sanding icy walks which is now paid out of the general appropriation. There should be an appropriation for the care of snow.

	\$3,889 04
Exceeded appropriation . . . .	589 04
	<hr/>
	\$3,889 04

Offal, as usual, was teamed to Mr. W. W. Rawson, and by order of the Board of Health the greater part of ashes collected was teamed to private grounds between Mystic and Cemetery streets.

## MACHINERY, TOOLS, ETC.

The different pieces of apparatus used in the building and repairs of streets are in as good condition as can be expected after the many years they have been in use, and by small expense can be made to last a few years longer. The crusher is the most worn of any and will soon have to be replaced by a new one.

The carts will need but slight repairs. There should be two horses bought for next season as the department is now one short and one other getting past his labor.

In closing I wish to thank the Selectmen for their support and assistance; the heads of other departments for their prompt report of any obstacle and defects in the streets, also the men in my department for the faithful performance of all work assigned them.

Respectfully submitted,

S. E. KIMBALL,  
*Superintendent of Streets.*

# REPORT OF WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31, 1902.

The pipe systems have been extended as required as shown on the detailed statements which follow.

## PIPE EXTENSIONS AND RENEWALS.

In all there have been laid 56 feet of 8-inch, 4,556 feet of 6-inch and 11 feet of 4-inch pipe, a total of 4,623 feet of main pipe. Twelve hydrants and ten gates were set.

There have been added this year seventy-eight services, forty-four connected with the high, and thirty-four with the low service. Five sewer-flushing services have been added, and two abandoned, making a total of sixty now in use.

The following tables give the extensions in detail : —

### *To extend the High Service.*

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Bow street.....	1,063	6	2	2
Dundee road.....	56	8	..	..
Arnold street.....	115	6	..	1
Williams street.....	575	6	2	1
West street.....	152	6	1	1

In all fifty-six feet of 8-inch and 1,905 feet of 6-inch pipe, five hydrants and five gates.

*To extend the Low-Service.*

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Fairmont avenue.....	1,133	6	3	2
Fairmont avenue.....	11	4	..	..
Gardner street.....	883	6	2	1
Lafayette street.....	335	6	1	1
Orchard terrace.....	300	6	1	1

In all 2,651 feet of 6-inch and 11 feet of 4-inch pipe, seven hydrants and five gates. Six hydrants have been abandoned.

## PRESENT PIPE SYSTEMS.

*Length of Main Pipe in use January 1, 1903.*

## LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe.....	12	9,014		
“ “ “ .....	8	1,347		
“ “ “ .....	6	12,938		
“ “ “ .....	4	20,144		
Total.....		43,443	63	38
Iron pipe.....	12	6,101		
“ “ .....	10	3,926		
“ “ .....	8	8,611		
“ “ .....	6	18,226		
“ “ .....	4	11,852		
Total.....		48,716	95	99
Total both kinds.....		92,159 17.45 miles.	158	137

## HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe .....	12	16,503		
“ “ .....	10	17,180		
“ “ ....	8	12,600		
“ “ .....	6	42,239		
“ “ .....	4	524		
Total.....	.....	89,046 16.86 miles.	181	145

Total of both services: 34.31 miles of pipe, 339 hydrants and 282 gates. In addition there are 3,436 feet of smaller pipes, 2-inch to 1 1-4 inch which are laid in places where hydrants were not needed and the amount of water required was small.

## QUANTITY OF WATER.

The average daily consumption of water on the high service, in gallons, for the months of the year 1902 was:—

January, 261,000	July, 370,000
February, 255,000	August, 324,000
March, 249,000	September, 353,000
April, 265,000	October, 338,000
May, 322,000	November, 243,000
June, 405,000	December, 256,000

Daily average for the year, 304,000

For the 586 services this gives an average consumption of 519 gallons per service per day. The consumption in 1901 was 624 gallons per service, the decrease in 1902 being about 0.9 per cent.

## RESERVOIR.

The reservoir and reservoir lot have received the usual attention. The sum of \$175.08 has been expended during the

year in fencing, cleaning, weeding and lowering spillway. It is recommended that the reservoir lot and the stand-pipe lot be placed in charge of the Park Commissioners, and that a sufficient annual appropriation be made to keep them in good condition.

WATER METERS.

Water meters still continue in successful use for field irrigation, green-houses, hot-beds and wash-houses. Twenty-five have been added and four discontinued during the year, and ninety-four are now in use.

USES AND INCOME.

The following table, prepared by the Water Registrar, shows the number of fixtures supplied and gives the total income for 1902.

	Low.	High.
Number of services.....	1,120	580
Houses paying \$25.....	155	131
First faucets.....	1,306	613
Additional faucets. ....	1,562	1,376
First bath-tubs.....	558	458
Additional bath-tubs.....	18	13
First water-closets.....	850	528
Additional water-closets.....	257	173
Kitchen sink vaults.....	82	4
Hose.....	431	337
Horses.....	256	66
Cows .....	48	39
Meters .....	73	21
First hydrants; no income.....	158	181
Drinking fountains; no income .....	4	1
Stand-pipes for street watering; no income.....	15	6
Income, 1902.....	\$35,321.07	

## STOCK.

There are on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for carrying on the works, 792 feet of 12-inch, 600 feet of 10-inch, 2,820 feet of 6-inch, and 3,000 feet of service pipe. The total value including horses and wagons, etc., is \$6,276.51.

## RECOMMENDATIONS.

We make the following recommendations : —

That all the cement-lined pipes on the low service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is high. That the water pipes be extended according to the established rules. That all lands in and about the Great Meadows not absolutely needed for a reserve water supply be sold.

Respectfully submitted,

GEORGE W. LANE,

PETER SCHWAMB,

GEORGE P. WINN,

*Water Commissioners.*

# REPORT OF THE SUPERINTENDENT OF THE WATER WORKS.

---

*To the Arlington Water Commissioners: —*

GENTLEMEN :— My report for the year ending December 31, 1902, is hereby respectfully submitted.

## EXTENSION OF MAIN PIPE.

Four thousand six hundred and twenty-three feet of pipe have been laid, twelve hydrants and ten valves set at a cost of \$4,539.06.

Location.	Cost.
Bow street . . . .	\$1,478 46
Dundee road . . . .	70 87
Williams street . . . .	562 65
Arnold street . . . .	117 60
West street . . . .	212 07
Fairmont street . . . .	831 30
Gardner street . . . .	669 23
Lafayette street . . . .	283 66
Orchard terrace . . . .	313 22
	<hr/>
	\$4,539 06

## SERVICE PIPES.

Seventy-eight services have been added during the year at an average cost of \$13.59.

## REPAIRS ON SERVICES.

Fifty-nine leaky services have been repaired, thirty-one on the high and twenty-eight on the low service system.

## HYDRANTS AND GATES.

Three hundred and thirty-nine hydrants and two hundred and eighty-two gates are in use and in good condition. One leaky and two broken hydrants have been removed and replaced with new hydrants.

## LEAKS IN MAIN PIPE.

Sixteen leaks have been repaired in the main pipes, eleven in the high and five in the low service systems.

## STANDPIPE LOT.

The standpipe lot has been cared for the same as last year. The Metropolitan Water Board paying \$25.00 as their share of the expense.

## THE GREAT MEADOWS.

Have been drained and the main brook cleaned and deepened from the junction of Fessenden brook to the Slocum mill pond. The water from the Fessenden and Monroe brooks is running at the present time through the meadows and passing around the reservoir instead of emptying into it.

## RECOMMENDATIONS.

Again I would recominond that the renewal of the cement pipe on Massachusetts avenue be continued from Winter

street to below Henderson street to connect with the 6-in. cast iron pipe laid there some years ago, and that at least a 6-in. pipe be laid in Winter street, as the present pipe is inadequate for the protection of property on that street in case of a serious fire; also that the remaining cement-lined pipe be renewed as soon as possible; that the Metropolitan Water Board be requested to lay a force main from the end of their present pipe at the junction of Massachusetts avenue and Brattle street direct to the standpipe. I believe that the constant pulsation of the pump is the cause of so many leaks in the house services on the high system.

Respectfully submitted,

THOS. RODEN.

EXTRACTS FROM RULES OF WATER WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely :

DWELLING HOUSES.

Occupied by one family, for the first faucet . . . . .	\$6 00
When a first faucet is used in connection with lawn hose . . . . .	5 00
For each additional faucet, to be used by the same family . . . . .	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be \$1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family.	4 00
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house :	
Whenever one service-pipe supplies <i>four</i> or more tenements, the rates shall be paid by the owner, and there shall be a discount of ten per cent : <i>provided, however</i> , that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub . . . . .	5 00

For each additional bath-tub . . . . .	\$3 00
For bath-tubs convenient to faucets, but not connected, the rate will be \$3.00 per year.	
For the first water-closet . . . . .	5 00
For each additional water-closet . . . . .	3 00
For hopper water-closets. . . . .	8 00
For vaults flushed with kitchen sink water in case such vaults are not used in connection with a water-closet, the rate will be \$2.00 per year.	
When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family . . . . .	4 00
Where two faucets are used one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: <i>provided</i> , that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than . . . . .	25 00
If lawn hose is used the maximum rate is . . . . .	24 00

## BOARDING HOUSES.

For the first faucet . . . . .	\$10 00
Each additional faucet . . . . .	2 00
Water-closet or bath-tub. when used by boarders . . . . .	10 00
Each additional bath-tub or water-closet . . . . .	3 00

## STORES, OCCUPIED AS OFFICE, SHOP, OR SIMILAR PURPOSE.

First faucet . . . . .	\$6 00 to \$20 00
For each additional faucet . . . . .	2 50
For water-closet or urinal . . . . .	6 00

# MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water . . . . . \$6 00 to \$25 00

## HOTELS.

For each bed for boarders and lodgers . . . \$3 00  
 For each bath-tub in a hotel . . . 10 00  
 For each water-closet in a hotel . . . 10 00

## PUBLIC BATHS.

For one tub in a public bath-house . . . \$10 00  
 For each additional bath-tub . . . 5 00  
 For one water-closet in a public bath-house . . 10 00  
 For each additional water-closet . . . 3 00

## STABLES.

Private Stables. For the first horse . . . \$5 00  
 “ For each additional horse . . . 3 00  
 “ For one cow . . . 2 00  
 “ For each additional cow . . . 1 00  
 Livery club, and boarding stables. For each horse . 3 00  
 Car and omnibus stables. For each horse . . 2 00  
 Truck and cart stables. For each horse . . . 2 00  
*Provided*, that in no case shall any stable be charged less than . . . . . 5 00

The rates for stables include water for washing carriages without hose ; when hose is used \$3.00 additional.

## HOSE.

The following regulations are uniform throughout the Metropolitan District for 1903 : —

The use of water through hand hose, on premises where the water supply is *not* metered, shall be restricted to two hours in each day between the hours of five and eight A. M. and five and eight P. M.

The hose must be used with a nozzle not exceeding three-sixteenths of an inch in diameter, and while so used must be held in the hand of a person on the premises of the water taker

For hose used in this manner, when supplied from the house service, the charge will be \$4.00 per year. If a separate service is used the charge will be \$6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

### STEAM BOILERS.

For each boiler in use not over twelve hours a day,  
for each horse power . . . . . \$6 00

### METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows :

Up to . . . . .	40,000 cubic feet per year, 15 cents per 100 cubic feet.
From 40,000 to . . . . .	80,000 " " " " 13 " " 100 " "
From 80,000 to . . . . .	1,000,000 " " " " 12 " " 100 " "
Over . . . . .	1,000,000 " " " " 10 " " 100 " "

The following meter rents will be collected each year in addition to the above charges : — For a 5-8 in. meter, \$2.00 ; a 3-4 in. meter, \$3.00 ; a 1 in. meter, \$4.00 ; a 1 1-2 inch meter, \$8.00

The minimum charge for metered water, including the meter rent, will be \$15.00. In case more than one meter is used by a water taker the minimum charge for water will be \$15.00 for each meter, including the meter rent. In case of meters used on hose connections the charge will be the meter rent plus that for water used. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that water takers read their meters occasionally to satisfy themselves whether or not they are working, and that they immediately send notice of any irregularity to the Water Board.

Bills for metered water will be made out January 1st and July 1st.

### BUILDING PURPOSES.

The minimum charge for water for building purposes is \$3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

### ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year :

For a jet of 1-16 of an inch	.	.	.	.	.	\$3 00
“ “ 1-8 “ “	.	.	.	.	.	5 00
“ “ 1-4 “ “	.	.	.	.	.	8 00

To be cut off at discretion of the Superintendent.

*Rebates* will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the

house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is twenty-five cents for each operation.

In case one service supplies several tenants, the owner must give notice to the Water Registrar *at once* when tenements are vacated and also when the tenements are again occupied in order to have any rebate allowed. *All notices must be written and must be sent to the Water Registrar.*

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the Town shall require.

### PIPE EXTENSIONS.

Vote of Town, passed April 14, 1896.

Voted:—That the Water Commissioners shall, before laying main water pipes in any street or way, require the party or parties asking for same to deposit with the Town Treasurer the sum of thirty cents for each lineal foot of pipe to be laid, less an amount equal to the established water rates for five years on the fixtures supplied at the time of laying the pipe, the said sum to be held by said Treasurer in trust for a term of five years and at the end of said term paid into the Town treasury to the credit of the water works, unless the rates actually collected during the said five years on account of fixtures supplied directly from said pipe exceed the amount originally estimated and deducted from said sum of thirty cents per lineal foot, in which case said excess shall be repaid to the depositor to the extent of the original deposit and the balance, if any, paid into the Town treasury as aforesaid, excepting otherwise ordered by the Town.

## LIMITS OF HIGH AND LOW SERVICE DISTRICTS.

According to an understanding with the Metropolitan Water and Sewerage Board the dividing line between the high and low systems has been made to conform as nearly as possible to contour 60 above Boston City Base. The low service district is bounded by the following streets which are to be supplied from the low service on both sides; the low service is, however, to be extended to the depth of one house-lot only on the high sides of the bounding streets:—Beginning at Mystic Lake, Fairview avenue to Mystic street; Mystic street to Summer street; Summer Street to Grove street; Grove street to Massachusetts avenue, including Grove street place and Dudley street as far as Brattle street; Massachusetts avenue to Academy street; Academy street to Maple street; Maple street to Pleasant street; Pleasant street to the Belmont Line, including Pelham terrace.

It is understood that either the high or the low service may be used on Massachusetts avenue between Brattle street and Grove street, also that for purposes of fire protection the high service may be extended into the low service district.

# WATER WORKS.

## TREASURER'S REPORT.

\*Appointed to fill vacancy.

# BY-LAWS OF THE TOWN OF ARLINGTON.

[Compiled by the Committee of Five as authorized by vote of the  
Town November 24, 1902.]

---

## ARTICLE I.

### NOTIFICATION OF TOWN MEETINGS.

Every Town meeting shall be notified by posting a copy of the warrant calling the same, on the doors of the Town Hall, seven days, at least, before the day appointed for said meeting; and a printed notice containing the substance of the warrant shall be left at every dwelling house in the Town. Also notice of time of the meeting or of the date of its adjournment shall be published in the local papers.

## ARTICLE II.

### RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

SECTION 1. No final vote shall be re-considered except upon notice, for that purpose, made by one of the majority acting thereon, within fifteen minutes after such vote has been passed; and no article in the warrant shall be again taken into consideration after it has been disposed of, unless ordered by a vote of two-thirds of the voters present.

SEC. 2. No person shall speak more than twice upon any question, without first obtaining leave of the meeting, except for the correction of an error, or to make an explanation; and not until others who have not spoken upon the question shall speak, if they desire to.

SEC. 3. All questions submitted for the consideration of the Town, involving the expenditure of money, shall be in writing, and all other motions shall be reduced to writing, if required by the presiding officer.

SEC. 4. Every person speaking shall address the Chair, standing and uncovered.

SEC. 5. No vote, fixing the period for closing a ballot, shall be re-considered after such ballot shall have commenced;

but it may be in order to extend the period without such re-consideration.

SEC. 6. When a question is under debate, motions shall be received, to adjourn, to lie on the table, the previous question, to postpone indefinitely, to postpone to a time certain, to commit, or to amend. Which several motions shall have precedence in the order in which they are arranged. The first four shall be decided without debate.

SEC. 7. The duties of the presiding officer, not specially provided for by law, or by the foregoing rules, shall be determined by the rules of practice, contained in Cushing's Manual, so far as they are adapted to the condition and powers of the Town.

SEC. 8. On all questions submitted for the consideration of the Town involving the expenditure of money, the ballot and check list shall be used when requested by twelve or more legal voters present at the meeting.

## ARTICLE III.

### FINANCIAL YEAR.

The financial year of the Town shall begin with the first day of January in each year, and end with the thirty-first day of December, following.

## ARTICLE IV.

### ANNUAL TOWN MEETING.

The Annual Town Meeting shall be on the first Monday of March, in each year, and all reports of Town Officers shall be made at that time.

## ARTICLE V.

### REPORTS OF COMMITTEES.

No action shall be had at any Town meeting on the report of any Committee previously chosen, unless the same shall be specially notified in the warrant for calling said meeting.

## ARTICLE VI.

## MEETINGS OF TOWN OFFICERS.

The Selectmen, Overseers of the Poor, Surveyors of Highways, Treasurer, and Clerk, shall meet for the transaction of the business of their respective departments, at their rooms in the Town Hall, on the last Monday evening of each month.

## ARTICLE VII.

## POWER OF THE SELECTMEN TO BORROW MONEY.

The Selectmen may authorize the Treasurer to borrow money temporarily, on the credit of the Town, in anticipation of the collection of the taxes, should the same be necessary, and to give Town notes for the same, signed by him as Town Treasurer; said notes to be countersigned by the Selectmen.

## ARTICLE VIII.

## COLLECTION OF TAXES.

SECTION 1. The assessment of all taxes shall be completed, and a list of the same delivered to the Collector on or before the first day of August, and all tax bills shall be delivered on or before the twentieth day of August of each year.

SEC. 2. All single poll taxes shall be paid in fourteen days after demand. Interest shall be charged on all unpaid taxes after November first of the year in which they are assessed.

SEC. 3. The Collector shall collect all taxes, including street watering and apportioned sewer assessments, levied in any year, before June first of the following year.

SEC. 4. The Collector shall hold no other Town office.

## ARTICLE IX.

## PUBLIC WAYS.

SECTION 1. All persons intending to erect, repair or take down any building, on land abutting on any way which this

Town is obliged to keep in repair, and who desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall, ten days at least before so placing any building material or rubbish, give notice, in writing, to the Selectmen, of such wish, and thereupon the Selectmen may grant a permit to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands, and the security of the public allows such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building material or rubbish.

SEC. 2. Whoever shall use any portion of any way which the Town of Arlington is obliged to keep in repair, without the permit, in writing, of the Selectmen, as above provided, or having obtained such permit, shall fail to comply with the conditions thereof, shall forfeit and pay the sum of ten dollars for each offence, and shall also reimburse the Town for all damages and expenses which the Town may be compelled to pay by reason of the way being encumbered.

SEC. 3. Whoever shall move, or assist in moving, any building more than ten feet high, over any way in this Town, which this Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained, or, having obtained such permit, shall not comply with the restrictions and provisions thereof, shall forfeit and pay the sum of twenty dollars for every such offence.

SEC. 4. Whoever shall suffer horses, goats, or grazing beasts, or swine to run at large in this Town, or to feed by the roadside, either with or without a keeper, shall forfeit and pay the sum of five dollars for every such offence.

SEC. 5. Whoever shall drive or draw any coach, cart, or wheel-barrow, handcart, velocipede, bicycle, or any carriages of burden or pleasure (excepting children's carriages drawn by hand, or children's velocipedes), upon any sidewalk, in the Town, or permit any horse, cattle, swine, sheep or goats, under

his or her care, to go upon any sidewalk in the Town, so as to interfere with the convenient use of the same by all passengers, shall forfeit and pay a sum of not less than two dollars, or more than twenty dollars for every such offence.

SEC. 6. Whoever shall behave himself in a rude or disorderly manner, or use any indecent, profane, or insulting language, in any public place in the Town, or near any dwelling house, or other building therein, or be, or remain upon any sidewalk, or upon any doorstep, portico, or other projection of any house or other building, not his own, to the annoyance or disturbance of any person, or by any noise, or other means, wantonly and designedly frighten any horse in any street, or other public place in the Town, or shall throw stones, snowballs, sticks or other missiles, or kick at foot ball, or play at any game in which a ball is used, or fly any kite in the public ways in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 7. Whoever shall stand in any public way in such a manner as to obstruct a free passage for passengers, or shall make any bonfires in any public way or place in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 8. Whoever posts, affixes, or in any way attaches any poster, handbill, notice, advertisement or placard to or upon any post, wall, fence, building or structure not his own, without permission of the owner or proprietor of such post, wall, fence, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 9. Whoever paints, draws, or stamps any letter, notice, figure, advertisement, or marks upon or into any wall, fence, post, tree, building or structure not his own, without the permission of the owner of such wall, fence, post, tree, building or structure, or without said permission mars, defaces, or disfigures in any way such wall, fence, post, tree, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 10. Whoever shall place or cause to be placed upon any of the public ways of the Town, or shall place or cause to

be placed upon any public way, footpath or sidewalk within the Town, any lumber, iron, coal, trunks, bales, boxes, crates, casks, barrels, packages or other things, or shall otherwise obstruct such way by placing things therein, for more than fifteen minutes after being notified by a Constable, Police Officer, or the Selectmen, shall forfeit and pay for each offence, not less than two dollars, and not more than five dollars.

SEC. 11. Whenever complaint shall be made to the Selectmen that coasting on any street or sidewalk in the Town, has become dangerous to the public safety, they may post up a notice in some conspicuous place on the side or corner of any such street or sidewalk, forbidding all persons to coast upon the same; and if any person shall be found coasting upon the same after such notice, he shall forfeit and pay not less than one dollar, and not more than five dollars.

SEC. 12. No person shall tie or fasten any horse to, or have the same standing by any ornamental or shade tree in or near any of the streets, lanes or places of this Town, so near as to injure any unprotected tree, or wrongfully injure or abuse such tree in any manner; and whoever violates the provisions of this section, shall forfeit and pay not less than one dollar, and not more than ten dollars.

## ARTICLE X.

### PUBLIC HEALTH.

SECTION 1. No person shall drive, or cause to be driven, any cart or wagon containing night-soil or offal, or any cart or wagon used for that purpose, through any public way in the Town, between the hours of six A. M. and nine P. M., except an odorless tank, nor permit any such wagon or cart to stand, between said hours, in any street, lane or alley in said Town.

SEC. 2. No person shall keep any swine within a distance of fifty feet of any public way or place, or within a distance of one hundred feet of any dwelling house not his own, or within a distance of twenty-five feet of his own dwelling house. No person shall, after January 1, 1902, keep within the limits of the Town, more than five swine, exclusive of offspring less than four months old of said five swine. Whoever violates any of

the provisions of this section shall be punished by fine not exceeding twenty dollars for each offence.

SEC. 3. No person shall put or suffer to accumulate on his premises, any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or noxious stench or effluvia shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the ponds, streams or brooks of the Town, or shall allow the contents of any vault or house drain, or the refuse of manufacturing or slaughtering process to drain into such ponds, streams or brooks.

SEC. 4. No person, without the license of the Board of Selectmen, shall throw into, or leave in, or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the Town, any dead animal, dirt, manure, oyster, clam or lobster shells, ashes, cinders, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatever.

SEC. 5. No vehicle used for collecting or conveying swill or house offal, shall be drawn over, or allowed to stand upon any sidewalks in this Town.

## ARTICLE XI.

### TRUANTS AND ABSENTEES.

SECTION 1. Any child between the ages of seven and fifteen years, who shall absent himself from the public school to which he is assigned, three times, within the period of one month, without sufficient excuse from his parent or guardian, shall, in each case, be deemed to be an habitual truant.

SEC. 2. Any child convicted of offending under the preceding by-law, shall be committed to the Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, for such time not exceeding two years, as the Court or Justice having, by law, jurisdiction may determine.

SEC. 3. The said Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, is hereby provided as the place for the confinement, discipline and instruction of habitual truants.

SEC. 4. It shall be the duty of every truant officer, before making any complaint for offences under these by-laws, to notify the offending child and his parent or guardian of the offence committed, and of the penalty thereof, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, in his discretion, forbear to prosecute, so long as such pledges are faithfully observed and kept.

SEC. 5. All children between the ages of seven and fifteen years, wandering about in the streets and public places of this Town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be punished by a fine not exceeding twenty dollars, or by commitment to any institution of instruction, house of reformation, or suitable situation, provided for the purpose under the authority of the tenth section of chapter 48th of the Public Statutes.

## ARTICLE XII.

No person shall bathe or swim in Spy Pond, or in any public or exposed place in the Town, without wearing a proper covering to the body.

## ARTICLE XIII.

SECTION 1. No person shall blast any rock or other substance with gunpowder, or other explosive material, at any place within fifty rods of any public way or building, without a written permit from the Board of Selectmen, specifying the terms and conditions on which such permit is granted.

SEC. 4. No person shall, except in the performance of some legal duty, discharge any firearms upon or across any public park, play ground, street or way, within the limits of the town, except by permission of the Board of Selectmen.

SEC. 5. No person shall be a dealer in, or keep a shop for the purchase, sale or barter of junk, old metals, or second hand articles, unless licensed by the Selectmen.

SEC. 6. No wagon shall be used for the collection of junk, metals, rags, or second hand articles, unless licensed by the Selectmen. Every such wagon shall bear conspicuously the

owner's name and the number of the license, on the outside and on each side. Every license shall designate the person employed to drive such vehicle. Such driver shall not be changed without the consent of the Selectmen.

SEC. 7. It shall be the duty of the Town Clerk to keep a record of the name and residence of every peddler licensed by the Town.

SEC. 8. No person shall permit any team under his care or control to stand across any public highway or street in such a manner as to obstruct the travel over the same, and no person shall stop with any team in any public street at the side of or near to another team as to obstruct public travel, and no person shall stop with any team or carriage upon or across any cross-walk in any street or highway in the Town.

Any person who shall violate any provisions of these by-laws, or who shall refuse or neglect to obey any order of the Board of Health, duly issued under these by-laws, and directed to him and properly served on him, shall, in cases not otherwise provided for, forfeit and pay for each offense a fine not exceeding twenty dollars. (Note. This paragraph comprises the whole of Article XIII. as approved November 11, 1882.)

#### ARTICLE XIV.

Prosecutions for offences under these by-laws may be made by any Constable or Police Officer of the Town, and all fines shall be paid into the Town Treasury.

#### ARTICLE XV.

Upon the approval of the foregoing by-laws by the Superior Court, all by-laws heretofore existing, except the by-laws relating to the Public Library, the Cemeteries and the Fire Department, shall be annulled and repealed. (Note. This Article was approved November 11, 1882.)

#### ARTICLE XVI.

SECTION 1. Beginning with the year 1903, only one Auditor shall be elected. It shall be the duty of the Auditor, in addition to the duties imposed on him by law, to make state-

ments to the Selectmen, at regular intervals during a financial year, of the conditions of the several departments of the Town; to inspect all bills presented against the Town, see that they have the approval of the board or committee contracting the same, and are in proper form, indicate the account to which they are chargeable, and if there are available funds, shall transmit the same with his certificate to the Treasurer, and draw a warrant authorizing payment thereof; to examine the books of the Treasurer, Collector, Water Board, Sewer Department, and all departments holding funds or trust funds for the benefit of the Town and report at the next annual Town Meeting in detail, under their respective heads, all the receipts and expenditures by the Town for the previous year. Said report shall be printed by the Selectmen with the annual reports of the Town Officers before the annual meeting. Said Auditor shall receive for his services such compensation as the Town shall determine. The term of the present Auditors shall terminate with the annual Town Meeting of 1903.

No money, except State and County taxes and principal and interest of Town notes, shall be paid from the Town treasury without a warrant therefor, signed by the Auditor.

All promissory notes of the Town shall be signed by the Treasurer and countersigned by the Selectmen.

On the first secular day of each month, and as often as the amount in his hands reaches five hundred dollars (\$500) or upwards the Collector shall pay over to the Treasurer of the Town all taxes by him collected, and shall on or before the first secular day of January in each year, make up his annual account, and render the same to the Selectmen.

The Treasurer shall, on the first secular day of January, annually render to the Selectmen, in writing, a full account of all his receipts and disbursements for the financial year last past.

At the conclusion of any Town Meeting the Town Clerk shall send to the Auditor a certificate stating the amounts of the several appropriations made by the Town.

## ARTICLE XVII.

The Treasurer shall hold no other Town office.

# BY-LAWS RELATING TO THE CONSTRUCTION OF BUILDINGS IN THE TOWN OF ARLINGTON.

[Approved by the Superior Court, April 22, 1901.]

---

SECTION 1. An Inspector of Buildings shall be appointed annually by the Selectmen during the month of March, and he shall continue to hold his office until his successor has been appointed and qualified. He shall not be interested in any contract or engagement for furnishing labor or materials or plans for the construction or alteration of any building in the Town. Until such time as the Town makes an appropriation for the salary of such Inspector, the Board of Selectmen shall perform the duties of the office.

SEC. 2. The Inspector shall have free access to and examine all buildings in course of construction, alteration and repair and see that all by-laws of the Town in relation thereto are complied with, and when necessary, shall take proper measures to secure such compliance. He shall make an annual report of his work to the Selectmen, with such recommendations as he may deem best. Upon hearing that any building is in a dangerous or unsafe condition, he shall examine it and if he deems it necessary, shall notify the owner, agent, or other party interested therein, to make it safe and secure, and if they do not comply with his notice, he shall notify the Selectmen of the facts. He shall from time to time examine all buildings used or proposed to be used for public assemblages or for school or manufacturing purposes, to see if the State requirements as to such buildings are complied with, and in case of any non-compliance he shall at once notify the State Inspector of Factories and Public Buildings. He shall perform such other duties as may be prescribed by these by-laws.

SEC. 3. No building except sheds, outhouses and farm buildings, other than dwellings, shall hereafter be erected in the Town of Arlington, and no addition to or alteration chang-

ing the character of any such building shall be made, unless the person intending to erect or make such alterations in such buildings shall, seven days at least before he proceeds to build or erect the same, or lay the foundation thereof, or to make the said alterations, or to do any act for carrying into execution his intention to do such things, file with the Inspector of Buildings notice in writing of his intention, with such plans and specifications or a full written description of the structure to be erected, in such form as may be approved by the Inspector.

SEC. 4. The Inspector shall give a permit for the erection of, addition to, or alteration above described, of any building after he has carefully inspected the plans, specifications, or descriptions thereof, and ascertained that it has sufficient strength, and that means of ingress and egress and of preventing spread of fire are sufficient, and that it otherwise conforms to the by-laws of the Town.

SEC. 5. The foundations of all buildings for dwelling, business or manufacturing purposes, shall be walls of masonry and piers of masonry or iron, and above a distance of twelve inches below the surface of the adjoining ground the walls shall be laid in mortar. All such wooden buildings not more than one story in height may, with the approval of the Inspector, be built wholly on piers or posts; and such wooden buildings not exceeding three stories in height may be so built, with the approval in writing of the Selectmen. The foundation of all such permanent buildings must rest on solid ground or levelled surfaces of solid rock, or on piles, concrete, or other solid substructure. Such foundation other than solid rock must be not less than four feet below the adjacent surface of the ground exposed to frost. All such wooden buildings shall be framed and constructed in a manner satisfactory to the Inspector, posts and girts in the exterior walls to be not less than 4x6 inches in size, and studding shall not be more than sixteen inches apart.

### EXTERNAL WALLS.

SEC. 6. External walls of brick dwelling-houses hereafter to be erected in this Town, if not more than twelve feet in height above the foundation walls, shall be not less than

eight inches thick for their entire height; if two stories, and not more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the second floor, and not less than eight inches thick for the remaining height; and if three stories, and more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the third floor, and not less than eight inches thick for the remaining height.

SEC. 7. The external walls of all brick buildings, other than dwelling houses, to be hereafter erected in this Town, if not more than forty feet in height above the foundation walls, shall be not less than sixteen inches thick to the top of the upper floor, and not less than twelve inches thick for the remaining height; and if more than forty feet in height and not exceeding sixty feet in height, they shall be not less than twenty inches thick to the top of the second floor, and not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height. PROVIDED, *However*, that the external walls of brick buildings, not exceeding twenty-five feet in height, and covering an area not exceeding two thousand square feet, to be used for stables or light mechanical purposes, may be twelve inches thick.

SEC. 8. No buildings, except a manufactory, railway station, stable, church, school-house, hotel, or hall for public assemblies, shall hereafter be erected, and no existing building shall hereafter be altered or added to, so that they have a frontage of more than fifty feet, without one or more partition walls of brick or some other fire resisting material, extending from the bottom of the cellar, or from a foundation wall to the under side of the roof boarding, which shall be laid and be imbedded in mortar upon said wall. Such walls shall be not more than thirty feet apart throughout the length of the building. If said wall is built of brick, it shall be not less than eight inches thick for its entire height. No existing building having a frontage or more than fifty feet, shall be converted to a use not excepted by this section, without at least one partition wall, constructed as described in this section: PROVIDED, *However*, that any single dwelling house, intended for one family, may be extended more than fifty feet in one direction without such partition wall.

SEC. 9. All buildings hereafter erected which are to be used in whole or in part for business or manufacturing purposes, or as places for public meetings, shall be constructed of brick or stone, and have slate, metal or composition roof-covering and metal gutters, unless permission is otherwise given by the board of Selectmen.

SEC. 10. All buildings hereafter erected to be used as tenement houses, in excess of thirty feet in width, shall have brick partition walls on which floor-beams shall rest, not less than twelve inches thick for their entire height, and extending to the under side of the roof-boardings, which shall be laid and be imbedded in mortar upon said wall. Said walls shall be not more than twenty-five feet apart. All dwelling houses shall have a fire-proof partition wall between each set of up and down tenements.

SEC. 11. No wooden building to be used for a dwelling house shall exceed forty-five feet in height, and no portion of the external side-walls of any wooden building shall be placed at a less distance than five feet from the line of the lot upon which the building is to be located, or within ten feet of another wooden building, except where a brick external wall is substituted for a wooden wall, and of a thickness prescribed for external walls of brick buildings. The brick walls above required shall be built twelve inches above roof-boardings and covered with stone or iron.

SEC. 12. Party walls and all partition walls of brick, in all buildings other than dwelling houses hereafter to be erected in this Town with external walls not exceeding forty feet in height, shall be not less than sixteen inches thick to the top of the second floor, and not less than twelve inches thick for the remaining height, and, in buildings having external walls exceeding forty feet in height, said walls shall be not less than twenty inches thick to the top of the second floor, not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height.

SEC. 13. No opening or doorway shall be cut through or formed in a party or partition wall of any building, without a permit from the Inspector of Buildings, and every such doorway shall have its top, bottom and sides of stone, brick or iron, and

shall be closed by two doors, or sets of doors of wood, covered with metal, with an air space between them of at least four inches, and said doors shall be hung in wooden frames entirely covered with metal, or to iron hinges in brick or stone rabbets.

## PIERS AND COLUMNS.

SEC. 14. All piers shall be built of the best quality of good, well-burnt, hard brick, laid in cement and sand mortar and well wet when laid in warm weather. Brick piers under lintels, girders or columns of brick buildings shall have a cap iron at least two inches thick, the full size of the pier. Brick piers and buttresses shall be bonded with through courses, levelled and bedded, each course, and where their foundations rest upon piles, a sufficient number shall be driven to insure a proper support.

SEC. 15. Every pier, column, pillar or post resting on the earth shall have a base course of stone or concrete and if supporting walls of masonry, shall have for a footing course a broad leveller of granite or ledge stone, not less than twelve inches wider on all sides than the bottom area of said piers, columns, pillars or posts, and not less than twelve inches thick.

SEC. 16. Every metal column in a brick building shall rest on an iron plate of not less thickness than two inches. Wooden columns supporting girders and floors in such buildings shall rest on inch and a half iron plates with sockets to receive the foot of the columns. Metal columns placed one on the top of another shall have a plate at the top of each column, with projections on both sides to fit into cap and base of columns, to prevent slipping; and all columns shall have holes bored when and where directed by the Inspector, into and through the shell at right angles to the shaft, so as to show the thickness of shell. All bearing parts of columns and plates shall be turned or planed to true surfaces.

SEC. 17. No roof water from any building shall be allowed to flow over the sidewalk fronting it.

SEC. 18. All brick walls shall be built with proper bond, satisfactory to the Inspector, and all intersections of walls shall

be tied together with wrought iron straps every ten feet in height. Floor beams shall be anchored to brick walls on which they rest, and to each other, so as to form continuous ties across the building at least every ten feet.

SEC. 19. All floors shall be constructed to carry safely the following weights per square foot :

Dwellings	. . . . .	40 lbs.
Mercantile and Public Buildings,	. . . . .	100 “
Storehouses — Machine Shops,	. . . . .	200 “
Drill sheds, etc.,	. . . . .	200 “

## CHIMNEYS AND HEATING APPARATUS.

SEC. 20. All chimneys hereafter erected shall be built from the ground, of brick, stone, or other fire-proof non-heat-conducting materials, and shall be built plumb, or nearly so, so as to be self-sustaining ; PROVIDED, *However*, that brick flues may be securely built into the brick work of the walls of the building to which they are hung, when the walls are not less than twelve inches thick ; and PROVIDED, ALSO, that, upon special permission first obtained from the Inspector, other forms of support may be used with such special safeguards as he may require, and provided, also that the matter of construction of chimneys in small wooden buildings, other than dwelling houses, not more than one story and a half in height, shall be left to the decision of the Inspector of Buildings, but must be constructed in accordance with his instructions and to his satisfaction.

SEC. 21. All brick chimney-flues shall be built of hard burned brick and be smoothly plastered inside with mortar from top to bottom, during the course of construction, and also outside below the roofing after having been examined and approved by the Inspector of Buildings ; except that exposed portions of said chimneys may be left unplastered upon the outside. Said chimneys shall be topped out with brick or stone, laid in cement, and the topping out shall not have more than two inches projection, unless the bricks are covered by a cap of

stone or other non-combustible material in one piece, properly secured and approved by the Inspector; and in no case shall a nail be driven into the masonry of any flue.

SEC. 22. No smoke-pipe in any building with wooden or combustible floors or ceilings shall hereafter enter any flue except at a distance not less than twelve inches from said floor or ceiling; and in all cases where smoke-pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not they shall be guarded by a soapstone ring having a thickness radial to said pipe of not less than two inches, and extending through said partition, and in cases where smoke-pipes pass through wood work of any kind in such near proximity to the brick work of the flue that the space between said wood work and flue is inaccessible, said pipe shall be guarded by a soapstone ring or thimble, or its equivalent, having a thickness of at least two inches, and extending from the outer face of said wood work to a point at least two inches within the brick work of the flue, in which it shall be firmly set.

SEC. 23. All hearths shall be supported upon trimmer arches of brick or stone, or upon bars of iron supporting a bed of brick work and shall be at least twelve inches longer than the width of the fireplace openings and at least eighteen inches wide in front of the chimney breast. Wooden centering supporting a trimmer arch shall be removed before plastering.

SEC. 24. Brick work back of all grates, fireplaces and ranges shall be not less than eight inches thick, and when it adjoins a wooden or stud partition shall have at least two four-inch walls, with at least a two-inch air space between. No wood work shall be secured to the brick work of any flue. Open fire-places shall have fire-proof foundations.

SEC. 25. *a*, No furnace or range set in masonry shall hereafter be placed, or its location changed in any building, without a permit from the Inspector of Buildings, who shall prescribe such regulation for the setting or placing thereof as in his judgment the public safety may require.

*b*, The top of every heating furnace or steam boiler shall be kept at least one foot below the lowest part of the ceiling or floor next above it and such protective covering shall be placed on such ceiling as the Inspector may require.

- c*, All register boxes shall be set in soapstone or similar borders, not less than two inches in width and said boxes back of such border shall be surrounded by an open space of not less than one inch in all directions, and when required by the Inspector the timbers and flooring surrounding the boxes shall be protected by sheet metal as he may direct.
- d*, All elevator wells and light shafts, unless built of brick, must be filled in flush between the wooden studs with fire-proof materials, or lined with metal or plastered on metallic lathing, as may be directed by the Inspector, and all wood work inside of such wells or shafts, be lined with tin plate lock-jointed.
- e*, Where floor beams rest on partition caps or on girders, wall girts or wooden sills, fill in between such beams, from the caps, girders, girts or sills to the lining floor above, solid with brick and mortar or other fire-proof material.
- f*, When floor beams in frame buildings rest on ledger boards, fire-stop thoroughly at each floor, with brick and mortar resting on bridging pieces cut in between the studs, or, where practicable, on the ends of lining floor.
- g*, In brick buildings the space between the furrings on the outside walls or brick partitions should be filled flush with mortar for a space of five inches in width above and below the floor beams of each story.
- h*, Where basement or other flights of stairs are enclosed by partitions of brick or wood, the spaces between the studs or wall furrings must be so fire-stopped with brick or mortar as to effectually prevent any fire from passing up between such studs or furring back of the stair stringers.
- i*, All flights of stairs between two floors must have two smoke stops built between the stringers and properly constructed.
- j*, No pipes for conveying hot air or steam must be placed nearer than one inch to any wood work unless protected to the satisfaction of the Inspector by suitable guards or casings of incombustible material.
- k*, No wooden flue or air duct of any description can be used for heating or ventilating purposes, except cold air inlets to heating apparatus.

- l, A space of at least one inch to be left between all wood work and the chimneys, also around all hot-air, steam and hot-water pipes; these spaces around chimneys and pipes, where they pass through floors, to be stopped with metal or other fire-proof material, smoke-tight. Steam and hot-water pipes to have metal sleeves and collars.
- m, All channels and pockets for gas, water and soil-pipes to be made smoke-tight at each floor.
- n, The space around all metal or brick ventilating ducts must be fire-stopped at each floor with metal or other fire-proof material, as approved by the Inspector.
- o, Where a building is occupied above the first floor for tenements or a lodging house, and the lower story is occupied for stores, or other purposes not connected with the upper floors, the stairways leading to such upper floors must be enclosed with brick walls or with wooden partitions filled solid with brick laid in mortar, or other fire-proof material, and plastered on both sides on metallic lathing, and all doors in such partition covered with tin plate, lock-jointed.

The provisions of paragraphs d, e, f, h, i, k, m, n, shall not apply to any wooden dwelling house when occupied by only one family and which is situated more than twenty-five feet from any other building.

SEC. 26. No bay window, balcony or other projection, except cornices, shall be built upon the front wall of any building so as to project over the line of the street, except upon written permit of the Selectmen.

## SAFEGUARDS DURING BUILDING OPERATIONS

SEC. 27. Whenever any person is about to erect or alter the exterior walls of a building, within five feet of the line of a street, he shall cause the portion of the site of the building bordering upon the street to be enclosed by a proper fence not less than four feet high, and at least five feet from the line of such building; and the fence shall be made as much higher as the Inspector of Buildings shall direct, and the same shall be maintained until all liability to accident from falling material

ceases ; he shall also maintain a proper walk satisfactory to the Inspector, around said fence, as long as the sidewalk is obstructed, and he shall maintain proper lights, if so required by the Inspector at both ends of such enclosed space from sunset to sunrise. In erecting any building, no person shall place, deposit or suffer to remain in any street or highway any lumber or other building material, rubbish, or remains of any old building, for a longer period than may be necessary for the work which may be going on ; and in case such material, rubbish, or remains of an old building, shall necessarily remain after dark, a sufficient light shall be placed over or near the same, and kept from sunset to sunrise. All rubbish from the erecting or repairing of any building, or the removal of an old building shall be carried away by the person so erecting or repairing or removing such building, at such time as the Superintendent of Streets may direct ; and in case of neglect or refusal so to do, it shall be removed by the Superintendent of Streets, at the expense of such person. Any person violating any provision of this section shall be liable to a penalty of five dollars.

SEC. 28. Proper plans shall be prepared under direction of the Selectmen showing a proper numbering of buildings on all streets of the Town and the Inspector shall send to the owner or person having control of every new building a written notice stating the number assigned by the Selectmen to such building, and directing that the said number be affixed or inscribed, in a proper place on said building, and all other numbers, if any, removed within one week from the receipt of notice. Whenever a building fronting on a street is found not having a number, or having a wrong number affixed or inscribed on it, then Inspector shall send a similar notice to the owner or person having control of it. Any owner or person in control of such building refusing or neglecting to comply with the directions contained in any such notice shall be liable to a fine of not more than twenty dollars.

SEC. 29. All questions as to the intent and meaning of the by-laws relating to the construction of buildings shall be decided by the Inspector, provided that any person dissatisfied with or aggrieved by any requirement or decision of the

Inspector may appeal to the Selectmen and their decision, after a hearing at which the Inspector shall be given an opportunity to be heard, shall be final.

SEC. 30. In these by-laws the following terms shall have the meanings respectively assigned to them : —

“ Alteration ” means any change or addition.

“ Cellar ” means a basement or lower story of which one-half or more of the height from the floor to the ceiling is below the level of the land adjoining.

“ Foundation ” means that portion of a wall below the level of the street curb, and where the wall is not on a street, that portion of the wall below the level of the highest ground next to the wall; but if under party or partition walls, may be constructed by the Inspector to mean that portion below the cellar floor.

“ Chimney ” shall apply to any permanent or fixed flues or passages built into any building for conveying away the products of combustion from furnaces, stoves, boilers, ranges or fire-places.

“ Inspector ” means the Inspector of Buildings of the Town of Arlington.

“ Party wall ” means every wall used, or built in order to be used, as a separation of two or more buildings.

“ Partition wall ” means any interior wall of masonry in a building.

“ External wall ” means every outer wall or vertical enclosure of a building other than a party wall.

“ Repairs ” means the reconstruction or renewal of any existing part of a building or of its fixtures or appurtenances, by which the strength or fire-risk is not affected or modified, and not made in the opinion of the Inspector for the purpose of converting the building in whole or in part to a new use.

“ Tenement house ” means a building which, or any portion of which, is occupied, or intended to be occupied, as a dwelling by more than three families living independently of one another and doing their cooking upon the premises; or by more than two families above the second floor, so living and cooking.

“ Thickness ” of a wall means the minimum of thickness of such wall.

SEC. 30. Whoever violates any of the provisions of these by-laws shall be liable to a penalty of not more than one hundred dollars unless another penalty is specifically provided herein.

SEC. 32. The provisions of these by-laws shall not apply to buildings and structures owned or occupied by the United States or by the State of Massachusetts, nor to bridges.

## FIRE LIMITS.

All buildings hereinafter built or enlarged, fronting on the following street described lines, shall be built of brick, stone

or other incombustible material. Beginning at the north-easterly corner of Swan and Pleasant streets, thence running north-easterly to the south-easterly corner of Pleasant street and Massachusetts avenue; thence south-easterly on the south-erly line of Massachusetts avenue, to a point opposite the Soldiers' Monument. Beginning again at a point in the northerly line of Broadway opposite the Soldiers' Monument and running north-westerly along the north-easterly lines of Broadway and Massachusetts avenue to Central street.

## REPORT OF THE SELECTMEN.

---

The Selectmen submit the following report for the year ending December 31, 1903 : —

Mr. Frank C. Allen was appointed Registrar of Voters for three years from May 1, 1903.

Mr. Chas. F. Lusk was appointed Janitor of Town Hall for one year from April 1, 1903 ; also Constable under Chap. 25, Sec. 87, Revised Laws.

No appointment was made as Superintendent of Streets. All other appointments were the same as last year.

For the detail work accomplished by these officials, we refer you to their reports to the Selectmen.

Bonds of the Treasurer, the Collector of Taxes and the Town Clerk were approved as follows : — That of the Treasurer, dated March 6, 1903, for \$20,000, the American Surety Company of New York, surety, was approved March 14, 1902. That of the Collector, dated March 3, 1903, for \$10,000, the United States Fidelity Company, surety, approved March 9, 1903. That of the Town Clerk, dated March 5, 1903, for \$1,500, the American Surety Company of New York, surety, approved April 4, 1903. These bonds cover in full the duties and responsibilities of these officials as indicated by the Town By-Laws and the Revised Laws.

### STREET WATERING.

The streets have been watered in the same manner as last year. The cost to the abutters was two cents per front foot, or one-third cent less than the year before.

## COAL CONTRACTS.

After receiving bids, the contract for supplying the several departments with coal was awarded to Peirce & Winn Co., at the following prices : —

Best quality Lackawanna free burning coal, delivered at places designated, \$6.25 per net ton.

Georges' Creek Cumberland coal, delivered at places designated, \$5.25 per net ton.

## BOARD OF SURVEY.

Four petitions have been received for the approval of plans contemplating the laying out and construction of streets, and five hearings were given on the same; two of said petitions were granted, namely, those referring to Aerial street and Brattle street.

## PARK CIRCLE.

February 18, 1903, the Selectmen voted to lay out Park Circle as a Town way, and the same was accepted by vote of the Town, March 30, 1903.

## GRAY STREET EXTENSION.

A petition was received June 15, 1903, signed by O. W. Whittemore and others asking the Board of Selectmen to lay out as a Town way that part of Gray street extending from the northerly end of that part of Gray street which commences at Pleasant street to Oakland avenue, said layout to be under the provisions of law authorizing the assessment of betterments. A hearing was given on this petition July 11, 1903, which was fully attended. There was a division of sentiment, the majority appearing to disapprove of the layout at the present time on account of the present financial condition of the Town.

## FOREST STREET BRIDGE.

Late in the season the bridge on Forest street over Mill Brook broke through, and its condition necessitated complete renewal. This was done at a cost of about \$550, which was not included in the original appropriation for highways.

## BOW STREET.

Bow street has been constructed as ordered by the County Commissioners and in accordance with the relocation made by said Commissioners. The amount levied on the Town by said Commissioners to award abutters for damages incurred, was \$272, most of which has been paid.

## STREET SIGNS.

New signs have been placed on a number of streets and others have been replaced or repainted. The cost of the same was \$98.75.

## CRESCENT HILL AVENUE.

December 1, 1902, the Town appropriated \$2,500 for the construction of Crescent Hill avenue, the same to be done under the Betterment Act. This work has been completed at a net cost of \$3,004.88, as indicated by the report of the Superintendent of Streets. The work was done by the Highway Department and the amount expended over and above the appropriation was charged to said Department.

As authorized by the Betterment Act, the assessments levied amounted to \$2,329.51, and notices have been sent to parties assessed who have the privilege of apportioning the same into three equal annual payments.

The avenue, as constructed, is practically macadam and one of the best streets in Town. The cost was rather more than

was anticipated. This was because of increase in the wages of laborers, the unexpected hardness of rock blasted, the building of stone walls, grading lots and other work which was not included in the Engineer's original estimate. The street will not need repair for many years.

### HIGHWAYS.

Taking into account the extraordinary expenditures necessitated by the renewal of the bridge on Forest street, the repair of the bridge on Mystic street and the extra cost in the construction of Crescent Hill avenue, all of which were not anticipated, and the fact that there are on hand 3,500 tons of stone, valued at \$1,400 (not to mention other supplies on hand together with the unexpended balance), the original appropriation in March was not overdrawn. All the work anticipated when the original estimate was made up, however, was not done, for the reason that the sum asked for was reduced by \$3,000. The charge of extravagance in highway expenditures is unfounded. If it is expected to keep the streets in good condition larger appropriations must be made, and the longer necessary repairs are delayed the greater will be the cost.

### WAGES.

Dating from May 1, 1903, the wages of laborers on the highway was increased from twenty cents to twenty-two and two-ninths cents per hour. This action was followed by the Water and Sewer Department.

### ASSIGNMENT OF STREET LIGHTING CONTRACT.

As authorized by vote of the Town passed December 28, 1903, and in accordance therewith, the Selectmen in a written agree-

ment duly signed, gave their assent to the assignment by the Somerville Electric Light Company to the Edison Electric Illuminating Company of Boston of the existing street lighting contract between said Somerville Company and the Town of Arlington.

### TRUST FUNDS.

The following trust funds, which were formerly invested in the Town's notes payable on demand (one of said notes dating back to 1861), have been invested in the Town's notes given for six months in anticipation of the taxes of the municipal year of 1903 and dated December 31, 1903, the old notes having previously been paid and cancelled.

Poor Widow's Fund	.	.	\$ 613.11
Citizen's Soldier Fund	.	.	349.85
Wm. Cutter School Fund	.	.	5,354.00

### THE TOWN'S INSURANCE.

The Town's insurance has been placed on a somewhat different basis. The policies have all been changed from the specific to a more general form, and as is believed, to the advantage of the Town. All the buildings belonging to the Town were revalued by an expert appraiser and each department sent to the Board a revaluation of its effects aside from buildings. The insurance carried on this property at date is \$450,500, said sum being 90 per cent. of full valuations as required by the policy. These policies are somewhat in the nature of blanket policies, much of the property being secured wherever it happens to be, — anywhere in the State. The expiration of policies will be so distributed as to make the insurance renewal about the same each year, and thus have the annual burden more uniform. The insurance rate was \$1.35 for five years.

### SUIT AGAINST FORMER TREASURER AND HIS SURETIES.

May 27, 1903, the Board received a communication from James P. Parmenter, stating that he was authorized by the former Treasurer and his surities to offer the Town \$18,000, in settlement of this suit, and that the offer was open until July 1, 1903.

A special Town Meeting was called for June 11, 1903, to consider the matter, and at said Meeting the Town voted unanimously to authorize and direct the Selectmen to settle the suit in accordance with said offer.

To this effect proper papers were executed, and on the 13th day of June, on the receipt of said sum, the Selectmen signed the necessary releases and the pending suit was disposed of.

The \$18,000 has been used towards the reduction of the Town note of \$30,000, issued pending said suit. The amount now outstanding on this note is \$12,000.

### VACANCIES.

Vacancies existing on the Board of Fence Viewers occasioned by those elected by the Town failing to qualify, were filled in joint convention by the election of Lucian C. Tyler and Omar W. Whittemore.

### CLERK OF SELECTMEN.

We recommend a salary for Clerk of Selectmen and an appropriation for the same.

### LOCKE SCHOOL PLAYGROUND.

The lot purchased for additional playground for the Locke school has been partially graded but the work will not be finished until spring, after the present grading has sufficiently settled.

## TRANSFERS.

The deed transferring a part of the Almshouse lot to the Symmes Arlington Hospital, as authorized by vote of the Town passed April 15, 1903, was signed by the Selectmen January 17, 1903, and after being duly recorded at Cambridge, was placed on file with the Town Clerk.

The deed transferring the lot purchased of William T. Foster for school purposes, as authorized by vote of the Town February 11, 1903, has been received by the Selectmen, duly recorded at Cambridge, and placed on file with the Town Clerk.

## DIVISION OF TOWN OFFICES.

The offices of Town Clerk, Collector of Taxes and Treasurer have been divided, the duties of Auditor increased, and a new system of bookkeeping inaugurated.

We are not familiar with the full working of the change but from what we do know, our opinion is that it falls far short of the needs of the Town. Departments and the public are hindered because full and immediate information, when needed, is so much of the time inaccessible,—books, accounts and papers being locked up and officials themselves away. We have heard many complaints from people who come to pay bills and could find no one to pay them to.

The same condition exists that caused a large financial loss to the Town nearly three years ago and for which the Selectmen received much unjust criticism, namely, officials receiving money which they are not legally entitled to receive and for which they are not bonded.

We were told that the Boards could at any time ascertain how the appropriations for their Department stood. It has been seldom we could get the information desired.

## RECOMMENDATION.

We would recommend that some official legally qualified to receive moneys be paid enough salary to be in the office some portion of every day through the week and one or more evenings of each week.

## RECOMMENDATIONS ON BY-LAWS.

We would recommend first, that the By-Laws be printed not oftener than once in three years (unless some change or addition is made), as it seems to us to be a needless expense.

*Second.* That Article 7, relating to borrowing money, be amended so as to conform to the Revised Laws.

*Third.* That Section 2 of Article 10, relating to the keeping of swine, be restored to its original form or otherwise amended so as to conform to the recent decision of the Supreme Court.

*Fourth.* That Article 16, so far as it relates to the duties of the Auditor, be amended so as to conform to the decision of the Chief Justice of the Superior Court, recently rendered, in relation to a Winchester By-Law, that the duties of Auditor are given by the Statutes and no Town can add to or take away from them.

We recommend that two Auditors be chosen instead of one and that they perform only the duties imposed upon them by the Laws of the State. We recommend that the duties which Article 16 undertakes to impose on Auditors be performed by a competent person skilled in the matter of bookkeeping and in the keeping of municipal accounts, the new officer to be called Town Accountant, or by some other appropriate name.

## ENDORSEMENTS ON BONDS.

On the 11th of July the Selectmen received a request from the Town Treasurer, to have the bonds of the Collector en-

dorsed by the United States Fidelity & Guaranty Company, so that said Company should be liable for all money and property of the Town of Arlington which should come to his (the Collector's) hands. Also, a request that the bond of the Town Clerk be sent to him, in order that he might have the bond endorsed thereon, so that it would cover the Town Clerk in the position as Clerk of Departments as well as Town Clerk. In explanation of the above requests, the Treasurer stated that "at present both officials handle funds for which they are not legally responsible as Collector and Town Clerk." The Board made the following reply: "The Selectmen desire to say that the bonds of the Collector of Taxes and the Town Clerk cover moneys which said officials, as such, are legally authorized to collect, which moneys are indicated in the By-Laws of the Town and the Revised Laws of the State. The Board does not feel it to be within the province of the Selectmen to extend the authority and responsibility of these officers beyond the legal aspects of their office in the matter of handling the Town's money."

## TOWN HALL.

Appropriation in March, 1903 . . . .	\$1,500 00
"    " November, 1903 . . . .	500 00
	<hr/>
	\$2,000 00
Gross expenditures . . . .	\$1,951 53
Less rents from Hall . . . .	455 66
	<hr/>
Net expenses . . . .	1,495 87
	<hr/>
Balance . . . .	\$504 13

The changes in the Town Hall occasioned by the division of offices have been made under the direction of the Committee appointed for that purpose. Part of the Town Hall expenses,

however, include items that properly belong to the Improvement account, but which it seemed advisable to assume here.

Further repairs are needed and it may be well to paint the building on the outside. The recent terrible experience in Chicago brings forcibly to mind the fact that provisions for safe and ready exit from the Hall in case of fire and panic are inadequate. A suitable appropriation to meet this deficiency is therefore recommended.

Attention is called to the above figures which show that even with extraordinary expenses in this department the past year, had the receipts for letting the Hall been available for Town Hall maintenance, no extra appropriation in November would have been necessary.

Since the Town Hall appropriation pays for lighting, heating, caring for and maintaining the Hall, it would seem quite business-like if the rents were placed to the credit of said appropriation.

### TOWN HOUSE IMPROVEMENT.

The Committee consisting of the Selectmen and the Committee of Five appointed to carry out the vote of the Town passed March 9, 1903, appropriating \$2,400 for the "necessary alteration of Town offices to the end of more convenient and proper accommodations and to provide safes therefor," have attended to their duty and for details refer you to the report of the Auditor.

As the work progressed, it was found that further changes were called for and additional office furniture needed, not anticipated in the original estimate. The assumption of part of the expense by the Town Hall account enabled the additions to be made. The unexpended balance in the improvement account, therefore, is only apparent as there was practically an overdraft of \$200 or more.

## FIRE DEPARTMENT.

For the details relative to this department we refer you to the report of the Chief Engineer. The good reputation and efficiency of the department have been more than well preserved the past year, the calls being more than usual and the losses small. A striker has been put into the driver's house at the Heights. All the equipments appear to be in good condition.

## RECOMMENDATIONS.

We recommend that a horse and wagon be furnished for the use of the Chief; that 1,000 feet of new hose be purchased immediately; that the high service be extended as suggested by the Chief; and that a sufficient amount be appropriated to cover back pay of all the firemen.

We recommend that a fire alarm box be placed on the Heights near the Sanitarium, also that one be located on Bartlett avenue.

## STREET LIGHTING.

The street lighting has been satisfactory.

We now have 105 arc and 195 incandescent, — one arc and six incandescent having been installed the past year. A small appropriation for further addition will be needed.

## ALMSHOUSE.

During the year six inmates have been cared for. Of these one was admitted and one has died.

At present (December 31) there are four males and one female cared for.

The number of tramps lodged and fed during the year is 288, which is 60 less than the year before.

Mr. and Mrs. John B. Tay have been in charge.

The heater is in such condition as to need either thorough repair or replacing by a new and larger one. It is hardly sufficient to properly heat the building on cold days. The building needs painting.

#### FINANCIAL STATEMENT.

Appropriation by the Town . . . .	\$2,000 00
Expenditures (gross) . . . .	\$2,119 55
Less receipts :	
For board . . . \$353 24	
For sale of produce 31 10	
	<hr/>
	386 34
	<hr/>
Net expenditures for the year . . . .	1,733 34
	<hr/>
Balance unexpended . . . .	\$266 79

#### POOR OUTSIDE THE ALMSHOUSE.

The Overseers of the Poor have been called upon the past year to render the Town's aid to an extent greater than ever before. This was owing principally to the increased number of applicants and the continued need of those already on the list.

Nineteen families, containing fifty children, have been on the regular list.

Eighteen families, containing fifty children, have been on the occasional list.

Twenty-four persons, including sick, feeble-minded, epileptic and insane, have been on the Hospital list. Of the above the Town is reimbursed to the extent of one family on the regular, one family on the occasional and five persons on the hospital list.

One hundred fifty-five persons, not including reimbursements, have been partially or wholly supported all or a part of the year. This number seems large but the tendency is to increase rather than decrease.

The question — how best for a Town to render most effectual aid to its poor, — is an open one. Experts differ and towns vary as to ways and means. It is evident, however, that cold-blooded indifference, lavish generosity, auctioneering to the lowest bidder and inflexible cast-iron rules do not produce desirable results. It is evident also that intelligent and just discrimination as to the more and the less deserving and against the non-deserving requires full knowledge of the actual conditions of each case and this knowledge necessitates visits, interview and investigation.

It is the purpose of the Board to strengthen and improve the department where weak, in order that the aid rendered be not misplaced and that it be proper in kind and amount.

To this end the general subject of town aid has received special attention, the methods of adjacent cities and towns examined and results noted. Our own department has also been carefully looked into, more detailed records of the conditions and history in each case and more full and systematic financial accounts kept.

These accounts and records are quite essential for intelligent future comparisons.

As a rule the freedom permitted in filling orders appears to be open to no special criticism. In a few instances, however, the best judgment is not always used. It is customary in some places to confine this freedom to a specified list of supplies. It may be well to do this here, especially in certain cases.

Arlington has always been sympathetic and reasonable in providing for its poor. The custom of the Board has long been for each member to take a portion of the Town for the disbursement of aid, each taking the section in which he resides. One of the Board has also been appointed Committee on Outside Poor who attended to correspondence, etc., and had more general charge. The character of the work, however, is such now that something more is needed.

A good plan would be for the Secretary of the Board to act as an authorized agent to receive applications, give orders, — visit and investigate, as well as to keep the records and accounts, — in short, be the Executive Officer of the Board. This plan has been partially carried out the past year and further application of it is under consideration.

Suggestions are always in order and should be welcomed by all departments when prompted by the right spirit and made in the right manner. Indiscriminate criticism, however, or false and groundless accusations are entirely uncalled for and to be regretted. Such statements hardly tend to improve or elevate the public service.

#### THE INSANE.

On and after January 1, 1904, the State will assume the care, control, treatment and support of all persons committed as insane, and the expense to the towns will doubtless be in the form of a State tax. See Chapter 87, Revised Laws, Section 6.

## POOR WIDOWS' FUNDS.

There are apparently three of these funds, the income of which is available as indicated for the benefit of poor widows.

1. *Poor Widows Fund (so called), \$613.11.*

Mrs. Mary Cutter (wife of William) died March 9, 1836, and bequeathed by will \$200, as follows :

“ I give and bequeath unto the Selectmen of the Town of West Cambridge and their successors in said office the sum of two hundred dollars to be by them put out and secured in the name of the Treasurer of said Town on interest ; and the interest arising from said sum I will and order the Selectmen for the

time being annually to distribute among the poor widows of said Town (not otherwise helped by the Town) in the way and manner they may think most for the benefit of said poor widows."

The original sum has been increased by donations from J. S. Potter and others till it amounted to six hundred thirteen and 11-100 (\$613.11) dollars.

This fund is now invested in a Town note given in anticipation of taxes of 1903. The unexpended income is in the Town Treasury and subject to orders from the Selectmen as trustees for purposes indicated.

2. *The Pratt Poor Widows' Fund, \$5,000.*

Mr. Nathan Pratt died March 11, 1873, and bequeathed by will \$5,000, as follows :

"I give and bequeath to the Town of Arlington the sum of five thousand dollars for the Poor Widows' Fund." This fund is under control of "Trustees of Pratt Fund," but the income is subject to order of the Selectmen as trustees for purposes indicated.

3. *The Martha M. W. Russell Poor Widows' Fund, \$1,773.07.*

Mrs. Martha M. W. Russell died October 6, 1888, and bequeathed by will, as follows :

"I give and bequeath to the Trustees of the Poor Widows' Fund of the Town of Arlington the balance of principal and interest due on Bank Book No. 439 in the Arlington Five Cents Savings Bank in my name, the same to be added to the principal of said fund and the income therefrom to be devoted to the relief of the poor widows of Arlington."

The interest of this fund has never been disturbed until the present year when a portion was used. This fund is under the control of the Selectmen as Trustees, and the income available for purposes indicated.

The fund with unexpended income is in Arlington Five Cent Savings Bank.

## INCOME FROM THE SEVERAL POOR WIDOWS' FUNDS.

The available income from the several Poor Widows' Funds January 1, 1904, is as follows :—

Unexpended income of Poor Widows' Fund (in Town Treasury) . . . . .	\$162 46
Unexpended income of Martha M. W. Russell P. W. F. (in Savings Bank) . . . . .	529 46
	<hr/>
	\$691 92

The question has arisen — whether all of the Poor Widows' Funds are practically one and the same, and whether all the income is to be used under the same limitations.

## TOWN PRINTING.

The printing for the different departments is of such volume and character that it would seem advisable to have the same done under different arrangements from what has existed heretofore. Instead of the several departments acting independently in this matter, the printing should be combined and done possibly by contract thus saving expense.

## THE ANNUAL TOWN REPORTS.

The annual reports should be printed and ready for distribution at least two or three weeks before the annual Town Meeting. Citizens should have ample time to peruse the reports previous to Town action thereon and in season to insert articles in the Town warrant suggested by said perusal. This necessitates, of course, earlier preparation of official and departmental reports.

To this end, notices were sent out requesting the receipt of all reports by the Selectmen on or before the 16th of January. Quite a number were received at that date but some not till much later. For this reason the Selectmen were obliged to send their own report to the printer somewhat incomplete, not having seen or examined carefully the late reports and thus unable to make possible references or suggestions. All reports should be in before the Selectmen finish their own.

### ITEMS.

In some important instances the amount charged to certain items in the Auditor's report does not represent the exact expenditure therefor. Particularly is this the case in the highway account.

---

---

The total borrowings in anticipation of taxes of the year 1903 aggregate \$103,083.36.

Of this \$53,083.36 is still outstanding.

The amount of uncollected taxes levied for 1903 is \$54,965.22.

The total indebtedness of the Town December 31, 1903, including temporary loans, is \$715,647.40, which is \$33,618.20 less than a year ago.

The State and County Taxes for 1903 aggregate \$17,093.40 which is \$3,351.42 more than the year previons.

The Metropolitan Park, Sewer and Water taxes aggregate \$24,036.45 for 1903, which is \$873.20 more than in 1902.

The Assessors' valuation of Real and Personal Estate May 1, 1903, was \$9,820,719, which is an increase of \$277,177 over that of 1902.

The tax-rate the past year was \$21 on \$1,000 or \$1.70 more than for the year previous.

The borrowing capacity of the Town December 31, 1903, (as indicated by the Auditor) is \$66,057.53.

# LIST OF JURORS.

LIST OF JURORS OF THE TOWN OF ARLINGTON, REVISED BY THE  
SELECTMEN, JANUARY, 1904.

Adams, Thurber C., Bookbinder.  
Allen, Abbott, Farmer.  
Allen, Vinal, Grocer.

Bailey, Jas. A., Retired.  
Barker, John J., Brass Finisher.  
Barker, Simeon, Carpenter.  
Bartlett, Alfred H., Wholesale Druggist.  
Bradley, Wm. H., Polisher.  
Bradley, Leander D., Hardware.  
Bennett, John N., Carpenter.  
Bitzer, Jacob, Piano Case Maker.  
Bott, Frank, Wholesale Grocer.  
Brittain, Frederick V., Salesman.  
Brooks, Geo. M., Cashier.  
Butler, Wm H., Commission Merchant.  
Butcher, Edw. T., Machinist.  
Butterfield, Jos. H., Farmer.  
Bond, Everett P., Clerk.  
Bucknam, Herman F, Salesman.

Chaffin, Nathan L, Restaurant.  
Churchill, Elbert L., Coal Merchant.  
Clark, Geo, Stable Keeper.  
Connelly, John F., Salesman.  
Crosby, Roland S., Farmer.  
Crosby, Edgar, Farmer.  
Crosby, Charles F., Farmer.  
Carter, Charles H., Salesman.  
Colbert, Isaac J., Gateman.  
Colman, Jeremiah, Auctioneer.  
Colpritt, James H., Paper Hanger.  
Cook, William K., Salesman.  
Cutter, Edward H, Farmer.  
Cutter, Charles S., Farmer.

Dale, David T., Rope Maker.  
Damon, Frederick W., Manufacturing.  
Davis, Gorham H., Leather.  
Dewing, Eben F., Asst Cashier.  
Dodge, Henry D., Engraver.  
Doughty, Charles H., Lumber.  
Duffy, James E., Barber.  
Durgin, Winfield S., Ice Dealer.

Eaton, Joseph H , Produce.  
Everhardt, Phillip, Manufacturer.  
Eveleth, Harlan F., Bookkeeper.

Fessenden, Frank A., Custodian.  
Fifield, Wallace A., Clerk.  
Fitzpatrick, Wm. A., Clerk.  
Finley, John T., Machinist.  
Foster, Parker H., Printer.  
Foster, Wm. T., Metals.  
Fowle, Frederick E., Gentleman.  
Frost, Frederick O., Farmer.

Gearin, Wm. J., Motorman.  
Gage, J. Prescott, Real Estate.  
Gray, John. Bookkeeper.  
Grannan, Daniel W., Undertaker.  
Gregory, Harry T., Electrician.  
Green, Henry J. Teamster.  
Green, Thos. J., Grocer.

Hall, Geo. H., Carpet Cleaning.  
Hanna, James, Carpenter.  
Harding, Theodore P , Banker.  
Hardy, Charles A., (Moore Pl.) Clerk.  
Hendrick, Patrick T., Shoe Dealer.  
Hilliard, R. Walter, Insurance.  
Hogan, Thomas, Salesman.

## REPORT OF THE CHIEF OF POLICE.

---

*To the Honorable Board of Selectmen of the Town of Arlington :*

GENTLEMEN : — I have the honor to submit herewith the annual report of the conditions and doings of the Police Department for the year ending December 31, 1903.

### ROSTER.

#### CHIEF.

Alonzo S. Harriman, appointed Chief, May 1, 1894.

#### PATROLMEN.

Garrett Barry,	appointed	November, 1876.
Daniel M. Hooley,	“	May 1, 1887.
Andrew Irwin,	“	April 1, 1889.
John Duffy,	“	July 20, 1891.
James E. Whitten,	“	March 30, 1896.
Charles H. Woods,	“	March 30, 1896.
Fred E. Smith,	“	April 1, 1889.
Robert H. Fall,	“	July 8, 1901.

The Chief and two patrolmen are on duty in the day time ; during the night six patrolmen are on duty.

Appropriation	.	.	.	.	.	.	\$8,880 00
Expenditures	.	.	.	.	.	.	8,844 30

---

Unexpended	.	.	.	.	.	.	\$35 70
------------	---	---	---	---	---	---	---------

For a detailed statement of expenditures see report of Auditor.

The expenses of the department have been kept to a minimum. No expenses where it could be avoided.

## ARRESTS.

Whole number of arrests for the year	.	.	.	127
Males	.	.	.	117
Females	.	.	.	10
Adults	.	.	.	108
Minors	.	.	.	19
Residents	.	.	.	67
Non-residents	.	.	.	60
Foreign born	.	.	.	46
American born	.	.	.	81

The offences for which arrests have been made are as follows :

Assault . . . . .	9
Breaking and entering . . . . .	5
Common drunkard . . . . .	1
Default . . . . .	1
Disturbing the peace . . . . .	11
Drunkenness . . . . .	45
Escaped prisoner . . . . .	1
False pretence . . . . .	1
Forgery . . . . .	2
Gaming on Lord's Day . . . . .	2
Larceny . . . . .	9
Malicious mischief . . . . .	5
Non-support . . . . .	4
Perjure . . . . .	1
Rape . . . . .	1
Stubborn child . . . . .	1
Truancy . . . . .	2
Trespass . . . . .	14

## CHIEF OF POLICE.

55

Violation of Town by-laws . . . . .	2
Violation of liquor laws . . . . .	6
Walking upon railroad tracks . . . . .	4
	<hr/>
	127

## LODGERS.

Whole number of lodgers . . . . .	331
Male . . . . .	331
Female . . . . .	0
Adults . . . . .	330
Minors . . . . .	1
Foreign born . . . . .	146
American born . . . . .	185
White . . . . .	328
Colored . . . . .	3

49 less than the year 1902.

## MISCELLANEOUS DUTIES PERFORMED.

Accidents reported . . . . .	34
Buildings found open and secured . . . . .	29
Cases investigated . . . . .	64
Contagious diseases . . . . .	58
Dead bodies cared for . . . . .	1
Dead animals found . . . . .	3
Defective streets and sidewalks . . . . .	18
Defective water pipes . . . . .	5
Defective wires and telephone . . . . .	45
Defective street lights . . . . .	1341
Dogs killed . . . . .	19
Fire alarms . . . . .	38
Fires extinguished without alarm . . . . .	7
Lanterns hung in dangerous places . . . . .	13
Lost children cared for . . . . .	14
Notices for Board of Health . . . . .	58

Notices to delinquent dog owners . . . . .	220
Sick and injured persons cared for . . . . .	8
Street obstructions removed . . . . .	4
Search warrant served . . . . .	6
Stray teams cared for . . . . .	12

### PROPERTY REPORTED STOLEN AND RECOVERED.

Amount of property reported stolen . . . . .	\$638 75
Amount of property recovered . . . . .	547 25

### COURT RECORD.

Number of days in attendance at Third District Court	136
Number of persons paying fines . . . . .	45
Committed for non-payment of fines . . . . .	15
Discharged . . . . .	20
Default . . . . .	7
Placed on file . . . . .	10
Probation . . . . .	6
State Farm . . . . .	4
State board outside poor . . . . .	1
Turned over to other officers . . . . .	6
To The House of Good Shepard . . . . .	1
To The House of Correction . . . . .	5
To Grand Jury . . . . .	5
To the Reformatory . . . . .	1
To the Truant School . . . . .	1
Total . . . . .	<hr/> 127

### NO-LICENSE LAW.

During the past year, as in former years, a determined effort has been made to suppress the illegal sale of liquors.

Six cases of violations of the liquor law have been presented to the Court: Four (4) convictions, two (2) discharged. Three hundred dollars (\$300) were paid into the Court for liquor fines. This will be paid to the Town Treasurer.

### RECOMMENDATIONS.

I again recommend that an increase of one officer be made to the force. I find that it is actually necessary to have an officer in the station at all hours of the night. The many calls by telephone and otherwise, necessitate that an officer must be there to receive and answer such calls. On December 1, 1903, I made a change by taking one of the night officers from his route and detailing him for night duty in the station. Hours of duty from 7 P. M. until 7 A. M. Thus it leaves two officers to cover three routes. Therefore, I recommend an appointment of one more officer to fill the outside vacancy.

I also recommend, and hope, that a horse will be provided for the ambulance and general use of the department. The many calls for the ambulance the past year show that something must be done. At times it was almost impossible to procure a horse for immediate use. The ambulance has not only been used by the department but by many of the physicians of the Town in removing sick persons to the different hospitals.

### CONCLUSION.

In concluding this report, I desire to thank your Honorable Board and all others that have assisted me in the performance of my duties. Also, I would thank the members of the department for the prompt and efficient manner in which they discharged their duties.

Respectfully submitted,

ALONZO S. HARRIMAN.

*Chief of Police.*

# REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

---

*To the Honorable Board of Selectmen: —*

GENTLEMEN: — I respectfully submit my annual report of the Fire Department for the year ending December 31, 1903.

## ALARMS.

The department has answered 70 calls, 38 of these being bell, and 31 still alarms, one for assistance out of town, and one second alarm, making a larger number than heretofore, while our fire loss is small in comparison with the number of fires. This is owing principally to the promptness of the department in arriving at the fires while in their earliest stages. The alarms were as follows: —

January 14. Box 46, 3.37 A. M.

Head House, Thos. Hill, 42 Dudley street. Value building, \$50; loss, \$5. Value contents, \$50; no loss.

January 18. Box 54, 6.35 P. M.

Shed, rear Union Hall, Park avenue. Owned by Circle Associates. Value; \$50; loss, \$25. No insurance.

January 25. Box 47, 8.44 A. M.

Dry-House, Theo. Schwamb Co., 1171 Massachusetts avenue. No fire.

January 26. Still, 7.15 A. M.

Chimney, L. F. Perkins, 2 Eastern avenue.

January 27. Box 25, 10.40 A. M.

N. E. Consolidated Ice Company. No fire. Overheated smoke stack.

February 1. Still, 7.38 P. M.

J. F. Maloney, 17 Brattle street. Overheated stack. No loss.

February 9. Still, 9.38 A. M.

James Campbell, 290 Broadway. Stove tipped over. No fire.

February 21. Box 54, 7.30 P. M.

M. L. Severy, 236 Park avenue. Chimney.

March 4. 10 Blows, 1.15 A. M.

Fire in West Medford.

March 10. Box 24, 7.15 P. M.

Estate Daniel Daley, 65 Beacon street. No loss.

March 12. Still, 8.20 P. M.

J. A. Merrifield, 284 Broadway. Chimney.

March 13. Box 24, 9.52 P. M.

W. Robinson, corner Beacon and Coral streets. Outbuilding. Total loss.

April 16. Still, 2.55 A. M.

E. Major, 426 Massachusetts avenue. Incubator. No loss.

April 20. Box 23, 10.10 A. M.

Daniel Lyons, 43 Winter street. Hay stack.

April 21. Box 24, 2.05 A. M.

W. Robinson, corner Beacon and Coral streets. Barn. Total loss.

April 25. Box 26, 11.10 A. M.

Estate P. Kelley, Franklin street. Hay stack.

April 29. Box 47, 8 blows.

Forest fire, Forest street.

May 2. Box 17, 5 P. M.

Shed, Spy Pond Grove, Mrs. E. Steinkraus. Total loss. No insurance.

May 10. Box 28, 8 blows.

Forest fire, off Mystic street.

May 17. Still, 5.25 P. M.

Dump, Prescott street.

May 17. Still, 8.30 P. M.

Forest fire, rear stone crusher.

May 18. Box 56, 8 blows, 1.20 A. M.

Forest fire, rear stone crusher.

May 19, Still, 11.40 A. M.

Dump, Prescott street.

May 21. Still, 2.15 P. M.

Wood pile, Hobb's Pond.

May 21. Box 28, 2.45 P. M.

Forest fire, Estate A. Pierce, Oak St.

May 23. Still, 12.30 P. M.

Forest fire, Robbins road.

May 24. Still, 5.10 P. M.

Forest fire, Robbins road.

May 26. Still, 11.20 A. M.

Forest fire, Walnut street.

May 26. Still, 12.50 P. M.

Forest fire, Walnut street.

June 2. Still, 1.20 P. M.

Forest fire, Summer street. Cutter Bros.

June 4. Still, 11.10 A. M.

Forest fire, Crescent Hill.

June 6. Box 71, 1.56 P. M.

C. E. Simons, Arnold street. Dwelling. Value, \$300. Total loss. No insurance.

June 6. Box 39, 10.11 P. M.

Robbins House, 688 Massachusetts avenue. Value, \$6,000, insurance, \$6,000; loss, \$822.25.

June 9. Box 45, 4.25 P. M.

Wm. Finley, 9 Grove street. Dwelling. Value, \$3,000, insurance, \$1,700; loss, \$190. Contents. Value, \$1,500, insurance \$700; loss, \$44.

June 10. Still, 10.25 P. M.

Dump. Chestnut street.

June 14. Box 21, 8 A. M.

Wm. Sullivan, 51 Norcross street. Value of building \$3,000, insurance, \$2000; loss, \$5. Value of contents, \$1,500, insurance, \$800; no loss.

June 16. Still, 11.35 A. M.

A. Curtin, 1053 Massachusetts avenue. Chimney.

June 29. Box 4, 6.10 P. M.

Wm. E. Wood, 29 Jason street. Value, \$15,000, insurance, \$12,500; loss, \$860.

July 2. Still, 12.42 A. M.

Mystic street. Dump.

July 4. Still, 1.01 A. M.

M. Hallis, Thorndike street. Lumber pile, loss \$80; no insurance.

July 4. Still, 2.02 A. M.

D. Lyons, 43 Winter street. Hay stack.

July 4. Box 27, 3.27 P. M.

W. G. Greenleaf, 131 Mystic street. Value of building, \$2,800, insurance, \$2,600; loss, \$125. Value contents, \$750, insurance, \$500; no loss.

July 4. Still, 3 A. M.

G. Milligan, 61 Henderson street. Outbuilding. No loss.

July 5. Still, 9.30 P. M.

Thos. Tolson, Massachusetts avenue. No loss.

July 6. Box 32, 3.29 A. M.

Fire in Belmont.

July 15. Still, 4.35 P. M.

Geo. D. Moore, Moore court. Loss, \$25.

July 25. Box 46, 9.53 P. M.

Miss Delia McCue, 36 Dudley street. Chimney.

August 13. Box 4.

J. S. Gahm, Windermere street. Rubbish pile.

August 14. Box 4, 5 P. M.

A. E. Watkins, 48 Bartlett avenue. No fire.

August 20. Box 512, 4.15 A. M.

R. F. Herrick, Trustee, 11 and 13 Lowell street. Value of building, \$5,000, insurance, \$3,800; loss, \$76.05. Value contents, \$1,000, no insurance; no loss.

August 23. Still, 12.25 A. M.

Boston Chrome Co., Grove street. No fire.

August 27. Still, 8.15 P. M.

Edw. Taylor, 200 Summer street. Value building, \$1,000, insurance, \$800; loss, \$22. Value contents, \$400, insurance, \$288; loss, \$12.

## CHIEF ENGINEER OF FIRE DEPT.

September 5. Box 46, 4.42 P. M.

H. P. McManus, off Summer street. Value building, \$1,500, insurance, \$900; loss, \$60. Value contents, \$500, insurance, \$500; no loss.

September 6. Box 46, 1.02 A. M.

Wm. Burns, 32 Dudley street. Value building, \$300, insurance, \$250; total loss. Value contents, \$100, insurance, \$75; total loss.

September 21. Box 21, 8.08 P. M. Second alarm, 8.20 P. M.

Mrs. Dale, Decatur street. Rope walk. Value building, \$1,200, insurance \$1,000; total loss. Value contents, \$4,300, insurance, \$3,500; loss, \$1,621.25.

September 23. Box 15, 2.15 A. M.

Estate J. P. Squire, 18 Marathon street. Value building, \$5,000, insurance, \$4,500; loss, \$1,900. Value contents, \$4,200, insurance, \$4,200; loss, \$2,008.

October 3. Box 26, 2.16 A. M.

State of Massachusetts, 196 Medford street. Value building, \$1,200, insurance, \$1,000; loss, \$385.

October 24. Box 162, 3 P. M.

Test. Wood's Ice Tool Factory.

October 29. Still, 6.15 P. M.

11 Lowell street. L. Christensen. Oil stove explosion. No loss.

November 1. Still, 11 A. M.

Estate P. Kelley, Franklin street. Hay stack.

November 5. Still, 12.52 A. M.

Estate P. Kelley, Franklin street. Hay stack.

November 30. 2 P. M.

Grass fire, B. & M. R. R., Summer street.

December 12. Still, 8. 10 A. M.

Tar kettle, Robbins Spring barn. No loss.

December 16. Box 46, 1.05 P. M.

Grass. Estate Geo. Hill, off Brattle street.

December 17. Box 21, 12.38 P. M.

Mrs. Margaret Dale, Decatur street. Value building, \$3,500, insurance, \$2,500; loss, \$10.

December 18. Box 13, 5.50 P. M.

A. W. Ganong, 73 Henderson street. No loss.

Dec. 19. Still, 2.05 A. M.

Estate R. Dinsmore, 170 Summer street. Loss, \$10. No insurance.

December 19. Box 14, 2.43 A. M.

T. Tolson, Massachusetts avenue. Chimney.

### MEMBERSHIP.

The membership of the department remains the same as in my last report. Mr. J. Herbert Harwood resigned his position as spare driver about Nov. 1st, and the vacancy was filled by Patrick O'Brien, a call member of Truck 1.

### APPARATUS.

Hose 2 wagon has been furnished with a pole for a pair of horses. The other pieces of apparatus are in the same condition as last year. The Chemical Engine met with a serious accident on July 4th.

### HORSES.

The department has ten horses. Each piece of apparatus has a pair of horses with the exception of Hose 4. One new pair of horses has been purchased and placed in Hose 2. One old horse has been sold, and one has been transferred. The horses have consumed 951 bushels of grain, 45,968 lbs. of hay, and 3,816 lbs. of straw, making a total of \$942.85.

### FIRE ALARM.

The fire alarm, in the hands of the Superintendent, has been entirely satisfactory. The details of the same will be found in his report.

### BUILDINGS.

Hose 1 and 3 are in the same condition as last year. Very little has been expended on repairs. Hose 2 house has had

extensive repairs. Four new stalls and new stall fronts have been placed back of the apparatus. In order to make this change the whole lower floor was torn up. The plans were submitted by Prescott & Sidebottom to have this work done by contract, but we found by submitting the plans to the builders in Town and to two out of town, it was impossible to do this within the limit of our appropriation. We therefore had the work done by the day by a local builder, working in our own men for 97 days, which was a great advantage and saving to the Town. After taking up the old stable floor, the sills and floor timbers were found in such poor condition we did not consider them safe to remain in. So all new floor timbers, flooring and sills are entirely separate from the original plans and were not figured in at the time the plans were made. The lower floors of this house are now in first-class condition. Some changes should be made in the upper portion of this house to make it complete.

### HOSE.

It is very essential that new hose should be purchased immediately, from our experience at our late fires. This matter should be looked into very carefully.

### RELIEF ASSOCIATION.

The Firemen's Relief Association is in good condition. Through the generosity of our public-minded citizens we are able to add a little to our treasury each year.

### SUGGESTIONS.

I would renew my suggestion that the high water service be extended farther down the Avenue and Medford Street, and over Pleasant Street for better fire protection. I suggest that there be some better ventilation in Hose 3 house. I also suggest that a set of runners be purchased for the ladder truck.

## APPROPRIATION.

I would recommend the sum of \$9,700 for the general running expenses of the department.

## CONCLUSION.

I desire to thank your Board for the kindly help and assistance in the performance of my duties. My assistants, also, receive my thanks for favors and the able manner with which they have cheerfully performed their duty. To the Captains and members, I also express my sincere thanks for the promptness and efficient manner in which they have discharged their duties.

Respectfully submitted,

CHARLES GOTT,

*Chief of Fire Department.*

# REPORT OF INSPECTOR OF WIRES AND SUPERINTENDENT OF FIRE ALARMS.

---

ARLINGTON, January, 1904.

*To the Honorable Board of Selectmen: —*

GENTLEMEN: — I herewith respectfully present to you my fourth annual report as Inspector of Wires and Superintendent of Fire Alarms for the year ending December 31, 1903, with such recommendations as I consider are for the best interests of our citizens.

## INSPECTION OF WIRES.

The inspection of wires in buildings and on the highways as followed by this department in the past four years has been productive of good results and the citizens are getting work done which in every respect conforms to the rules of the National Board of Fire Underwriters governing this class of construction. Your Inspector has experienced considerable trouble in the past year in buildings where gas piping was installed in connection with the electric lighting system, by the contractors not properly fastening the pipes at outlets to provide a secure support for fixtures, also this class of piping has been placed in buildings after the wiring system had been inspected and the pipes were found to cross or otherwise connect with the electric light system. This being a very dangerous condition of affairs, changes were immediately ordered as soon as discovered. There is nothing to prevent a repetition of this which may in the future produce serious results. In the opinion of your Inspector a system of municipal gas inspection should be established at an early date for many reasons other than stated above to the end that all gas piping, fixtures, etc., for lighting, heating or other purposes shall be properly installed both from a standpoint of health and safety.

For total number of new electrical installations and additions to previous wiring systems in buildings for which permits were issued, would respectfully refer you to the following table:—

Total number of buildings in which wires, etc., were inspected . . . . .	135
Total number of incandescent lights wired for . . . . .	1,604
“ “ “ arc lights wired for . . . . .	3
“ “ “ fan motors wired for . . . . .	1
“ “ “ power “ “ “ . . . . .	4
“ “ “ horse power motors installed . . . . .	20 1-10
Generators installed of 7 and 12 kilowatt . . . . .	2
Generator switchboard installed . . . . .	1
Storage battery installed . . . . .	1
(capacity 60 amperes, 110 volts)	
Heating appliances, capacity in amperes . . . . .	77.50

Forty-eight permits were issued to the Somerville Electric Light Company for attachment of service wires to buildings for a total of 1,267 lights, and one 7 1-2 horse power motor.

### POLES AND WIRES.

Considerable work has been done the past year in the rebuilding of pole lines on the highways. The Somerville Electric Light Company have constructed new lines of poles on Russell street, Westminster avenue, Claremont avenue, North Union street and on Appleton street between Paul Revere Road and Park avenue. New locations were granted as follows:—

Pond Lane, three poles.

Florence avenue, three poles, between Hillside and Claremont avenues.

Acton street, two poles.

Paul Revere road, two poles, between Park avenue and Appleton street.

Eleven of the square hard pine poles were replaced on Massachusetts avenue, being badly decayed, and others will have to be replaced this coming spring.

A number of other poles were replaced in various sections of the Town where found to be in an unsafe condition. The New England Telephone & Telegraph Company of Massachusetts have done very little construction the past year except to replace a few poles. One hard pine pole was replaced by this Company on Pleasant street, opposite Kensington Park, which was ordered changed on account of being unsound. Changes were made in locations of several poles on Summer street by the above Company, to conform to new street lines as ordered by your Board. On July 24th the Atlantic Telegraph Company removed all of their poles on Chestnut street between Medford and Mystic street as ordered, taking a location on the New England Telephone & Telegraph Company's poles. This finished the question of consolidation of wires on this street, one line of poles taking the place of three. On Oct. 29 the Atlantic Telegraph Company took a location on seven telephone poles on Summer street, north of and near Mill street, and removed six of their poles, also the Somerville Electric Light Company took location on the same poles. This leaves but one line of poles on this street at that point, which is a great improvement. All new poles have been painted and provided with steps.

The Boston Elevated Railway Company have provided switches as required by this office on all feed wires of their system for the purpose of shutting off the current in case of fire. These switches have been so arranged that the trolley wires can be controlled in section without interfering with the operation of the cars. Plans have been furnished this office by the Railway Company showing location of these cut-off switches and the sections which they control. The class of construction maintained by this Company is of the highest standard and entirely satisfactory to this department.

After receiving the approval of your Board the Somerville Electric Light Company were ordered to change the location of four arc lights to new locations as follows : —

Pleasant street, near Maple street.

Massachusetts avenue, near Mt. Vernon street.

“ “ “ Brattle street.

Appleton street, corner Hillside avenue.

By making these changes three poles were dispensed with, besides bringing the Massachusetts avenue and Pleasant street lights into line with others properly located heretofore.

In view of the fact that the rights of the Somerville Electric Light Company in this Town having been purchased by the Edison Electric Illuminating Company of Boston, we are informed that very extensive changes may take place at an early date in the poles and wires owned by that Company. I am informed that it is the intention of the above Edison Company to install a set of high tension wires on our streets from the Somerville line to the Winchester line for the purpose of supplying current to the Woburn Electric Light plant owned by this Company, the source of supply for this current being the Edison station at South Boston, Mass.

As it is understood that these wires are to carry current at a potential of several thousand volts higher than any wires now in the Town, the greatest consideration should be given the question of location of these wires on our streets as they are a very dangerous element both to life and property. This question should be thoroughly looked into as to the best route for these wires to take, the class and size of poles to be used being thoroughly understood before anything is done in this line.

#### FIRE ALARM TELEGRAPH.

The results given by this system the past year is a good demonstration of the effectiveness and reliability of our fire

alarm system, this condition of affairs being brought about by the good judgment of our citizens in making liberal appropriations in the last few years for the general reconstruction and purchasing of up-to-date machinery required on a system of this kind in a town of the population of ours.

On July 3rd we experienced the first trouble in nearly three years by the breaking of a wire on Forest street, caused by the heavy limb of a tree on this street being broken. There have been two other breaks in the wires since that time caused by heavy wind storms. In all of the above cases only one circuit was out of commission at one time, instead of one-half of the system as would have been the case in the old condition of affairs before the installing of the repeater and the sectioning of the system into five working circuits. The Universal Repeating Box installed in the Central Fire Station in 1902 has proved to be a very valuable addition to the system. Sixteen out of the total of thirty-nine bell alarms having been sent out from this box for telephone calls during the past year. One new street signal box was placed in commission April 30th. This box is numbered 48, being located on Forest street north of the railroad track; 3,160 feet of wire and thirteen cross arms were used in building this line. Considerable rebuilding and overhauling of the aerial wires of the system has been done during the past season, including the replacing of old cross arms, box poles and bad wires. All underground wires were thoroughly inspected in the various manholes. Five hundred and fifty (550) ft. of underground wires were placed in the conduits between Hose No. 2 House and Brattle Street, which completed this class of construction from the Town Hall to this point. The total mileage of wires now in use in the system being 20.50 miles, as follows:—Aerial iron wire 13.75 miles, underground wires 6.75 miles.

The bell deck on the Central Fire Station was retinned, also painted, also the bell decks at Hose 2 and the Heights were

painted. Eighteen cells of Type B T. Storage Battery were added to the system to replace bad batteries and for extensions, making a total of 120 batteries in use.

On Sept. 28th, while inspecting the street signal boxes, it was found that the main springs were broken in four boxes and since that time two more have been found in that condition. This was a very curious piece of trouble, the cause of the breaking of these springs being an interesting question, no such occurrence ever before being known by the fire alarm manufacturers. These broken springs were immediately replaced and particular attention has been since given to detect any repetition of the same. The electric motor of air compressor in the Town Hall, which furnishes air for the fire whistle, broke several coils in the armature on three different occasions the past summer, which required the sending of the armature to Boston on each occasion to be repaired. Owing to the expense involved to make these repairs it was necessary to ask for \$100 additional appropriation at the November Town Meeting, which was granted. This air compressor has been in service for six years, giving good results, being a second-hand machine when purchased. It has reached the point where it has outlived its usefulness and should be replaced soon by a modern high speed water-jacketed compressor of greater capacity.

The hydraulic air compressor was thoroughly overhauled by this department the past summer and is now in better working condition than ever before. This machine is held in reserve in case of an accident to the electric compressor. Requests have been made to this department for additional fire alarm boxes in the following localities : Bartlett avenue, near Windermere avenue ; Broadway, near Marathon street ; Mass. avenue, between Lowell street and Park avenue ; Park avenue, near Prospect avenue. In our judgment these boxes are needed and should be installed from time to time as finances permit.

## RECOMMENDATIONS.

I would respectfully recommend the following additions to the fire alarm system for the ensuing year: That a signal box be placed on Park avenue, near the top of the Heights, as the nearest box to this locality is over one-quarter of a mile from this point, and as there has been considerable building in this section in the last few years, in addition to the fact that there is a large sanitorium for sick people in this district it is absolutely necessary that a most prompt alarm be given in case of fire as this section of the Town is very difficult to reach quickly by the fire department.

I would also recommend that the extension of underground wires be continued in small sections, as appropriations will permit.

Thanking your Honorable Board for the kind and courteous consideration shown me on all occasions, and the advice given, I remain,

Yours respectfully,

REUBEN W. LEBARON,  
*Inspector of Wires and Supt. of Fire Alarms.*

# REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, MASS., Dec. 31, 1903.

*To the Honorable Board of Selectmen :—*

GENTLEMEN :—I herewith submit my annual report for the year ending Dec. 31, 1903.

There have been issued during the year for dwelling houses . . . . .	24 permits
There have been issued during the year for out-buildings . . . . .	18 “
There have been issued during the year for alterations and additions . . . . .	23 “

---

Total number of permits issued during the year 1903, 65

The estimated cost of new houses . . . . .	\$127,100
“ “ “ “ “ outbuildings . . . . .	13,600
“ “ “ “ alterations and additions . . . . .	10,600

---

Total estimated cost . . . . . \$151,300

Total number of inspections made during the year, 329.

These include foundations, fire stops, chimneys and general construction. An injunction was placed on one building on account of a defective foundation, and later removed after a new foundation had been satisfactorily constructed. While there has not been an increase in the number of houses built this year, there is a marked improvement in the class of the houses, shown by more modern methods of construction.

Respectfully submitted,

LUCIAN C. TYLER,  
*Inspector of Buildings.*

## REPORT OF TOWN COUNSEL.

---

December 31, 1903.

*To the Selectmen:—*

During the current year the following cases have been disposed of:—

Sussanna C. Cook vs. Arlington, for damages for altering grade of Broadway, has been settled by the payment of \$350.00.

The action of the Town against the Treasurer and his sureties has been settled by the payment of \$18,000 in cash to the Town.

The following actions are now pending:—

Partridge vs. Arlington, for damages for altering grade of Claremont avenue.

Locke vs. Arlington, damages for bicycle accident, Massachusetts avenue.

Town of Weston vs. Arlington, action for care of small-pox patient, amount claimed \$582.62.

The Town was represented before Legislative Committees in the following matters:—

Bills relating to Small-pox, Alewife Brook, Metropolitan Water and Sewerage affairs, Spy Pond Boulevard, Gypsy and Brown-tail Moths.

The Supreme Court has decided that the Town cannot by by-law regulate the keeping of swine, the matter being under the control of the Board of Health and not the Town.

In the matter of the assignment of the electric lighting con-

tract, the rights of the Town have been preserved, under the clause relating to the payment for the company's property in Arlington at its structural value in case the Town establishes a plant, and under the terms, conditions and agreements contained in the permit for pole locations in Massachusetts avenue granted June 28, 1893.

In addition to the above matters the ordinary work relating to the transaction of the Town's business has been attended to.

WILLIAM H. H. TUTTLE,  
*Town Counsel.*

## REPORT OF TOWN PHYSICIAN.

---

December 31, 1903.

*To the Hon. Board of Selectmen:—*

GENTLEMEN:—The following is a respectfully submitted report of the work done by the Town Physician during the year ending Dec. 31, 1903:—

Number of visits to outside poor,	410
Number of office visits,	260
Number of free vaccinations,	34

Owing to the scarcity of fuel, etc., during the past winter, there was quite a little additional illness but fortunately not of a severe epidemic nature.

At the Almshouse about the usual number of visits were made in caring for the inmates, the difficulties mostly of a chronic nature.

The Town poor have been particularly free from contagious diseases during the past winter, nevertheless a hospital for the care of infectious diseases is still an immediate necessity.

Respectfully submitted,

CHARLES A. KEEGAN,

*Town Physician.*

## REPORT OF INSPECTOR OF MILK.

---

*To the Honorable Board of Selectmen:—*

I submit the following report as Inspector of Milk. I have issued forty-three milk and cream licenses for the year and taken in fees \$21.50, which amount has been paid to the Town Treasurer, and I have his receipts for the same. I have taken samples of milk at different times which I have tested and in all cases they have been up to the required standard.

Respectfully,

CHARLES F. LUSK,

*Inspector of Milk.*

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

---

*To the Honorable Board of Selectmen:—*

I submit the following report as Sealer of Weights and Measures, and I have inspected, sealed and tested the scales, wet and dry measures and weights in forty-four stores and other places of business, and received in fees \$35.18, for which I hold the Town Treasurer's receipt.

Whole number of scales tested	.	.	.	116
“ “ “ measures, wet and dry	.	.	.	162
“ “ “ weights	.	.	.	389
“ “ “ milk jars	.	.	.	9,649
“ “ “ “ “ condensed	.	.	.	242

Respectfully,

CHARLES F. LUSK,  
*Sealer of Weights and Measures.*

## REPORT OF INSPECTOR OF PROVISIONS AND SLAUGHTERING.

---

*To the Honorable Board of Selectmen :—*

I have the honor to submit to you the following report for the year 1903.

The provisions sold to the people of Arlington have been of good quality and no complaints have been received this year.

No license has been granted to any one to slaughter in Arlington, and no slaughtering has been done in Arlington this year to my knowledge.

Respectfully,

FRANK P. WINN, •

*Inspector.*

## REPORT OF THE INSPECTOR OF ANIMALS.

---

*To the Honorable Board of Selectmen of the Town of  
Arlington :—*

GENTLEMEN :—I have the honor to submit my annual report as Inspector of Animals for the year ending December 31, 1903.

During the year there have been twelve (12) horses found to be diseased with glanders and farcy. In making my regular fall inspection, I have inspected two hundred and two (202) cows and seven hundred and forty-five (745) hogs for tuberculosis and other contagious diseases. The owners were in all cases given the regular certificate of inspection. I also at this time inspected eighty-four (84) stables, wherein these animals were stabled, and reports were in each case made out and sent to the State Bureau.

In all cases where contagious diseases have been found the stables have been thoroughly disinfected before other animals were allowed to occupy the same. This work of disinfection of stables is now done by the State Bureau upon request of the Inspector, and is, I feel, a great improvement over the past, when owners were allowed to do it themselves.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.

*Inspector of Animals.*

# REPORT OF THE SUPERINTENDENT OF STREETS.

---

*To the Honorable Board of Selectmen:—*

GENTLEMEN:—I submit to you my annual report for the year ending December 31, 1903.

The following statement shows the amount appropriated and the earnings of the Highway Department, also amount paid for labor, stone, gravel, hay, grain, cement, repairs on tools, carts, etc., and shoeing.

Appropriation,	\$23,349 45	
Earnings of Department,	7,323 23	
	<hr/>	\$30,672 68

## EXPENDED.

Labor and teams,	\$18,463 73	
Stone for crusher,	2,536 28	
Feed, fuel, cement, etc.,	3,547 80	
Repairs and shoeing,	1,612 48	
Lumber, brick and pipe,	850 74	
Gravel, grates and grass seed,	566 74	
Concord wagon and snow plow,	199 70	
Tools, oil and machine supplies,	525 19	
Powder, exploders and express,	286 08	
Stone cutting and mason,	189 80	
Paving stone and iron rails,	420 16	
Veterinary and medicine,	52 25	
Engineers,	228 18	
	<hr/>	29,479 13
Unexpended,		<hr/> \$193 55

The following table will show the streets upon which the greater part of work has been done.

### REPAIRS AND MATERIALS USED ON THE FOLLOWING STREETS.

Streets.	Labor and Teams.	Crushed Stone.	Stone Dust.	Gravel.	Roller.	Total.
Bartlett avenue.....	\$287 50	\$196 00	\$29 00	\$37 00	\$6 00	\$539 50
Brantwood road.....	273 50	.....	58 00	45 00	.....	319 40
Bow street.....	690 75	.....	.....	.....	.....	690 75
Claremont avenue..	292 00	.....	.....	86 00	.....	292 00
Forest street .....	162 50	106 00	14 00	28 00	3 00	294 50
Irving street.....	86 50	72 00	12 00	8 00	2 00	167 50
Lewis avenue .....	127 40	98 00	15 00	12 00	4 00	355 40
Lowell street .....	1,863 00	1,770 00	46 00	154 00	23 00	3,521 80
Massachusetts avenue...	2,688 80	2,117 00	564 00	128 00	46 00	5,292 80
Medford street.....	277 50	595 00	67 00	27 00	10 00	887 10
Mystic street .....	272 80	375 00	36 00	84 00	6 00	673 60
Park avenue.....	278 00	58 00	176 00	183 00	2 00	489 20
Park circle .....	168 40	.....	.....	46 00	.....	168 40
River street. ....	165 50	35 00	.....	24 00	2 00	217 50
Summer street.....	295 00	.....	.....	309 00	2 00	323 00
Tufts street .....	52 50	41 00	.....	36 00	2 00	119 50

Cleaning streets.....	1,985 75	.....	.....	.....	.....	1,985 75
Cleaning catch basins ....	1,512 50	.....	.....	.....	.....	1,512 50

Superintendent of Streets, care of snow and patching streets is not included in above table.

In widening Bow Street, by order of County Commissioners, there was a high bank of gravel on the east side, enough to gravel the street and 112 double loads left, which was carted to Park Avenue. The material not fit for the streets was teamed to the Locke school grounds.

### FOREST STREET BRIDGE.

Quite late in the fall two teams broke through the covering, and in making repairs all the timbers were more or less decayed (which were hard pine), and as the waterway was too

narrow to take the flow of water at times, it was thought best to make a permanent job of it by relaying the side walls, making the channel two feet wider and raising the bridge one foot. The stones were laid in Portland cement and covered with second hand six-inch girder rails laid fifteen inches on centre across sidewalk, and nine inches in travelled part of the street, and the rails then covered with a foot in thickness of cement concrete composed of one part Portland cement, four parts crushed stone, and two parts sand, the total cost of which was \$543.68

## CRESCENT HILL AVENUE STATEMENT.

149 4-9 days labor at \$1.80,	\$269 00

Warren street.....	.....	.....	.....	.....	.....	.....	26 6-9 yds.

## STORM DRAINS.

Any one not familiar with the storm drain system, little realizes the expense in caring for same. There are 226 catch basins, most of which require cleaning twice a year, and some four or five times, and to keep them clean and make the system effective would take three men and a horse about every working day in the year. I do not report this as speaking disparagingly of the system, for I consider it the best money the Town ever spent on its streets. I speak just to show one of the many ways money is spent on the highways.

## HEALTH DEPARTMENT.

Appropriation,	\$4,000 00
----------------	------------

## EXPENDED.

Labor and teams,	\$3,520 68	
Charles Gott, repairs,	11 75	
R. W. Shattuck & Co.,	7 20	
W. O. Menchin,	6 00	
W. M. Peppard,	1 75	
Arlington Harness Co.,	16 55	
J. Q. Hamblin, Covers,	10 00	
	<hr/>	3,573 92
Unexpended,		<hr/> \$426 08

The collection of ashes and offal has been done by the Highway Department. The offal teamed to Mr. W. W. Rawson and ashes disposed of as usual except at the Heights they were teamed to Locke school grounds after Nov. 10.

## MACHINERY TOOLS, ETC.

The roller will require new front wheels as the old ones are worn thin and have begun to break. After consulting a machinist it was found, at a small expense, the sides of the crusher could be chiselled off and wider chills used and by rebabbiting bearings could be made to do good service a while longer. The carts will require slight repairs and painting. Some of the horses are getting old and need to be replaced with new ones.

Respectfully submitted,

S. E. KIMBALL,  
*Superintendent of Streets.*

## FINAL REPORT OF COMMITTEE OF FIVE.

---

### PERMANENT DEBT AND SINKING FUND.

The matter of the examination of the permanent debt and Sinking Fund of the Town which was referred to this Committee by vote of the Town on Nov. 24, 1902, and for the consideration of which they asked further time, in their report of March 25, 1903, has been taken up and carefully gone into.

After a conference with the Commissioners of the Sinking Fund, and after procuring a tabulated statement showing the amounts required annually to meet the demands of the claims against the Town as they mature; your Committee decided unanimously to recommend the appropriation annually of the sums needed to meet the legal requirements of the Sinking Fund. They would also recommend that in future care be taken in allotting serial loans, so that no extraordinary sum shall fall due in any one year as unfortunately occurs during the years 1904 and 1905.

We also recommend that all future borrowings be made on the basis of serial payments.

THE ESTABLISHING AND SUPERVISING IN THE  
YEAR 1903 OF A SYSTEM OF BOOKKEEPING  
AND AUDITING OF THE FINANCIAL  
ACCOUNTS OF ALL DEPARTMENTS  
OF THE TOWN.

The above work was taken up January 1, 1903, in connection with the division of offices adopted by the vote of the Town in its financial department. Mr. Thomas S. Spurr, expert accountant, was continued in charge thereof and we print his report herewith.

BOSTON, Jan. 30, 1904.

*To the Committee of Five, Howard W. Spurr, Chairman,  
Arlington, Mass.*

DEAR SIRS:—In accordance with the recommendation of your Committee at the beginning of the year 1903, which was confirmed by vote of your Town, I have caused to be opened a set of books on a somewhat different plan of accounting from that which has heretofore been in vogue. I have given my assistance to your officials when called upon, and have supervised the keeping of the accounts during the year. I have also had the books closed for the year 1903 and have seen them properly opened for 1904.

Your Auditor's report will give, it seems to me, an intelligent and comprehensive showing of the financial operations in the different departments, and will also show the financial condition of the Town at the close of 1903, so that it may be understood by all.

The Auditor has grasped the situation and has conducted the work in a manner which entitles him to the favorable comment

of the citizens. Although I consider my labors now at an end, I shall be pleased at any time to answer any questions or give any assistance of an advisory nature without charge.

Very truly yours,

(Signed) THOS. S. SPURR.

### PUBLIC PROPERTY ACCOUNT.

At an adjournment of the annual Town Meeting of March, 1903, the following vote was passed :

“ *Voted*, That the re-valuation of the public property account and its division into three parts: viz., real estate, personal property, and trust funds, be referred to a committee consisting of the chairman of the Board of Selectmen, the chairman of the Board of Assessors, the chairman of the Water Commissioners, the chairman of the Sewer Commissioners, and the Committee of Five with full powers.”

The appraisal in accordance with the above vote has been made, and appears in the printed Town Reports of this year as a part of the Treasurer's report.

### UNCOLLECTED TAXES.

At an adjournment of the annual Town Meeting of March, 1903, the following vote was passed :

“ *Voted*, That the unpaid taxes from 1896 to 1900, inclusive, be referred to the Assessors and the Committee of Five for the purpose of closing these accounts either by collection or abatement.”

We can report progress as follows :

On January 1, 1903, the uncollected taxes for the years 1896 to 1900, inclusive, as shown by the Collector's Warrant Book, amounted to \$7,940.91.

Up to and including January 29, 1904, collections and abatements as reported to your Committee by the Collector have been made as follows :

Years.	Abated.	Collected.
1896	\$ 3 48	\$ 68 99
1897	257 26	459 72
1898	891 78	420 78
1899	707 53	441 07
1900	1,216 71	663 56
	<hr/>	<hr/>
Total,	\$3,076 76	\$2,054 12

Grand total of both collected and abated, \$5,130.88.

These figures are substantially correct. There is still outstanding on the years 1897 to 1900, inclusive, nearly \$3,000 in taxes, a very large proportion of which is uncollectable and will have to be abated.

Up to the same time viz., January 29, 1904, the Assessors have abated taxes as follows :

Years.	Abated.
1901 . . . . .	\$878 70
1902 . . . . .	743 83
1903 . . . . .	1,331 18
	<hr/>
Abated 1901-3 . . . . .	\$2,953 71
“ 1896-1900 . . . . .	3,076 76
	<hr/>
Total abated to January 29, 1904 .	\$6,030 47
Less amount raised for abatements by Town Grant for 1903 . . .	1,500 00
	<hr/>
Amount to be raised by taxation .	\$4,530 47

At the same date, viz., January 29, 1904, the taxes outstanding were

For 1901	.	.	.	.	.	\$337 85
“ 1902	.	.	.	.	.	506 96
Total	.	.	.	.	.	<hr/> \$844 81

Real estate is liable for only \$54.00 of this \$844.81, leaving nearly \$800.00 of taxes for personal property and polls still outstanding on those two years.

In the opinion of your Committee it is for the Town's best interests for the Assessors and Collector to at once take up the subject of all the back taxes, and with the advice of the Town Counsel, to collect or abate them at the earliest possible moment in order that the shortage may be determined and made good.

The prompt collection or abatement of taxes, if faithfully followed up from year to year, will prevent or disclose any future defalcation in the Collector's department, and will give the Town a more uniform tax rate.

Your joint Committee (the Assessors and the Committee of Five) unanimously recommend that the Town take action instructing the Collector to collect all taxes assessed for Polls only before October 1st of the year in which the said Polls are assessed, and that the Collector be instructed to use all necessary legal means to that end.

#### ALTERATIONS IN TOWN OFFICES AND THE PURCHASE OF ADDITIONAL SAFES, DESKS, OFFICE FURNITURE, ETC.

Your Committee, together with the Selectmen, were appointed to attend to the above, and \$2,400 was voted by the Town to meet the expenses thereof.

In the Auditor's report will be found a detailed account of said expenses.

## SUMMARY.

Your Committee was first appointed in November, 1901, and it has held fifty-seven meetings.

As a result of its deliberations and recommendations to the Town, the following results have been accomplished : —

The financial books and accounts of the Town have been examined and audited for the years 1896 to 1902, inclusive.

By so doing, a basis was established for opening the books of the Town for 1903, which have been supervised, audited, and closed for that year, and properly opened for the year 1904.

*By vote of the Town.* The offices of Town Clerk, Treasurer and Collector have been separated, and are now held by three persons instead of by one as formerly.

An Auditor has been elected to keep the books of the Town and to perform other most important duties which safeguard the financial affairs of the Town, and which are duly set forth in the By-Laws of the Town under which he is elected and acts.

All taxes, including street watering, and apportioned sewer assessments levied in any year are to be collected before June 1st of the following year.

The Collector and Treasurer are bonded in a Surety Company at the expense of the Town.

The use of a rubber stamp by any official in giving a receipt for money paid to the Town has been forbidden.

The By-Laws of the Town have been revised and are printed in the Town Report for each year

A system of making out bills in duplicate form has been adopted for Taxes, Water Rates and Cemetery Dues.

The taxes, street watering assessments and water rates for 1903 were properly committed by the Assessors and Water

Commissioners to the Collector, and we recommend that the same form of commitment be continued in the future.

The responsibility of receiving and disbursing the Town's finances has been distinctly defined and separated the one from the other, in strong contrast to the old way of doing things in this respect.

The auditing of the financial books and accounts of the Town is now a matter of business and not a form, affording a check in an effective manner upon the exceeding of appropriations for the various departments, and a guard against financial irregularities in the future.

The financial departments of the Town are now fully and freely independent of any of the other departments, and in the opinion of your Committee no change should be allowed by the Town to be made in this respect. It is highly desirable that there be no division of responsibility for the conduct of these departments, and no question in regard to the same.

The foregoing sums up in part the work of your Committee and marks the turning point for the better in the conduct of the Town's financial affairs.

Your Committee have been greatly encouraged in the performance of their duties by the confidence of their fellow citizens so often and so forcibly expressed in Town Meeting at critical times during their term of service, by the general and growing interest taken in Town affairs, and by the fact that many of our citizens have been willing to give of their time and ability to the advancement of the Town's welfare. These facts, together with the words of encouragement given personally to members of your Committee from time to time by their fellow citizens, have made it possible to complete a task where the responsibilities were ever present, the difficulties many, and the opposition persistent.

## FUTURE PROSPECTS.

We regret to say that the immediate future, viz., 1904 and 1905, affords but little encouragement for those who are expecting a low tax rate.

Arlington will become a desirable place of residence from the standpoint of the tax payer when more of her citizens who have succeeded in their chosen professions and business, become willing to give of their time and the service of which they are capable to the Town's welfare. Until this is the case Arlington's tax rate will continue at a high figure.

In making up the schedule of the tax levy for this year it will be necessary to take into consideration the following items :

Suspense Account . . . . .	\$12,000 00
Legal Requirements of the Sinking Fund . . . . .	20,381 00
Serial Loans falling due . . . . .	13,850 00
Town Grant . . . . .	9,372 90

## TAX ABATEMENTS.

Deficit to January 1st, 1904 . . . . .	\$1,675 45
Abatements made in January, 1904 . . . . .	2,708 74
Deficit in Corporation Tax . . . . .	2,328 34
	<hr/>
	\$62,316 43

In the report of the Auditor, there appear unexpended and unappropriated balances to the amount of \$12,000.

We recommend the covering of these balances into the Suspense Account, thereby wiping out the balance of the defalcation there represented.

Our recommendation in regard to the Sinking Fund requirements appears in the first part of this report, and is that the law be complied with.

The Serial Loans falling due, and the Town Grant already made, must be provided for.

The deficit caused by the tax abatements and overestimate of the amount of the corporation tax, should also be taken care of in this year's tax levy.

The amount which it will be necessary to further abate on back taxes, is a sufficient sum to leave open for future consideration.

By vote of the Town, the receipts from sewer assessments are to be used for the payment of any sums due to the Commonwealth of Massachusetts for assessments collected on the line of the Metropolitan Sewer and for the reduction of the notes in the Sewer loan account as they become due.

As the loans now outstanding practically equal the amount of assessments due, it will be necessary to make some provision for money for the use of this department.

We recommend that the Town make an appropriation for the general care and maintenance of sewers; and if any extraordinary sum be required for new construction, that authority be given the Board in charge, to apply to the Legislature for permission to borrow for this purpose on the basis of serial payments; and that all moneys received for assessments on account of such construction, be used toward the payment of this loan.

### AUDITOR.

The work in the Auditor's department has been greater than was anticipated by your Committee when the salary was fixed for that office.

The Auditor has been obliged, during the past year, to employ clerical assistance which he has paid for to the amount of \$200.

We recommend that he be reimbursed to that amount, namely, \$200.

Respectfully submitted,

HOWARD W. SPURR,  
GEORGE G. ALLEN,  
CHARLES T. SCANNELL,  
WILLIAM N. WINN,  
HORATIO A. PHINNEY.

# REPORT OF THE TOWN ENGINEER.

---

ARLINGTON, MASS., Jan. 16, 1904.

*To the Honorable Board of Selectmen: —*

Herewith I respectfully submit the fourth annual report concerning the work of the Engineering Department for the year ending December 31, 1903.

There is no appropriation for the Department, consequently the expense is charged each week to the Department for which work is done, and is classified for the year as follows: —

Highways: Comprising lines and grades, plans, profiles, estimates, locations, records and all engineering for the Department,	\$229 93
Sidewalks: Comprising lines, grades and measurements of edgestone and concrete and brick sidewalks,	28 95
Water Department: Comprising lines for new mains and locations and records of gates, hydrants, specials and service boxes,	150 20
Sewers: Comprising surveys, plans, estimates, profiles, lines, grades, records and all engineering data including making of assessment plans of 1902 construction,	806 80
Superintendence and Inspection on Sewer construction,	336 70
Superintendence and Inspection on Particular Sewers,	227 40
Superintendence and Inspection on Maintenance,	120 30
Cemetery Department: Comprising lines, grades, surveys and plans and staking out lots,	69 69
Symmes Hospital Lot: Comprising plans and profiles and laying out of proposed Right of Way from Summer street,	27 18

Board of Survey : Comprising surveys, plans and profiles and work in connection with streets laid out by the Board of Survey,	42 00
Parmenter School : Lines for new building,	5 25
Library : Levels, grades and plans for proposed regrading,	6 56
Fire Alarm : Plans and locations,	10 50
Town House Improvement : Plans,	3 05
Tree Warden : Lines for locations of new trees,	4 38
Incidentals or Miscellaneous, \$284.69 subdivided as follows :	
Street Numbering : Locating and plotting buildings and completing the revising of plans in accordance with the Town by-laws,	43 81
Surveys and plans for conveyance of Symmes Hospital land, Foster school lot and Locke school playground,	48 89
Indexing and Filing Plans : Card Index of Town and Selectmen's Records and copying Records for Commonwealth,	51 64
Copying plans and abstracts of Deeds from Registry at East Cambridge,	10 16
Description and Titles of real estate for Tax Collector,	38 72
Locations of telephone and electric light poles,	9 47
Plans, studies, estimates, photographs and data for various Boards and Committees, including surveys for stone bounds on Irving street, Bartlett avenue, Woodland street, Tanager street, Crescent Hill avenue, Park circle and Cutter school lot,	62 92
Engineering Records and notes and care of instruments,	19 08
	<hr/> \$2,353 58

Draughting materials and office supplies,	\$52 19	
Expressing,	70	
Printing,	9 00	
Repairs to instruments,	1 20	
Carfares,	5 13	
	<hr/>	\$68 22

Careful notes, measurements and locations of the changes, additions and extensions made by the departments during the year were taken as the work progressed and are now being shown on permanent plans and records; also all the information which it is possible to obtain concerning existing structures in the Town has been compiled for ready reference. Many preliminary plans and estimates for the use of the several Departments, Boards and Committees were made as requested.

### HIGHWAYS.

Park Circle, the street around the standpipe at Arlington Heights, is the only street accepted this year. This street is forty feet wide, and was accepted by the Town March 30, 1903. Crescent Hill avenue has been built under the Betterment Act in accordance with the plan accepted at the Town Meeting of Dec. 1, 1902. The construction of this street required, in addition to earth excavation, the removal of 1,100 cubic yards of ledge which covered practically the entire width of the street near Westmoreland avenue to a maximum height of sixteen feet. There were also about 150 cubic yards of ledge removed near Montague street. The street has been built in a very substantial manner with a practically macadam travelway, gravel sidewalks and grass strip, and with paved gutters and catch-basins on the steeper portion south of Westmoreland avenue, for the disposal of storm water. The location of the street required cutting on the easterly side and filling on the westerly side to

arrive at the established grade. The abutters were protected in these cases by retaining walls where necessary, and by filling, in the low places. The street should last for many years as the sewer and water pipes are laid and it would seem unnecessary to soon disturb the surface.

There has been no other new construction of streets, the remaining work being resurfacing of old streets and making necessary repairs. One thousand and forty-seven linear feet of edgestone and 1,220 square yards of concrete, and 141.5 square yards of brick were laid during 1903.

The question of paving of at least a portion of Massachusetts avenue, west of Medford street, must soon be given consideration, as a macadam pavement can hardly be considered permanent on this street owing to the constant travel and heavy teaming and the narrowness of the travelways on either side of the Boston Elevated Railway tracks. The street is muddy in wet weather and dusty in dry weather, causing great annoyance to merchants and the general public and results in much wear on the surface of the street. The cost of constant repairs to keep it in clean and safe condition is increasing each year, and economy demands that a paving of suitable material should be provided. Nine hundred dollars will capitalize \$20,000 at 4 1-2 per cent., enough to do a considerable part of the work, or it would seem a good plan to spend a fixed sum each year towards this improvement.

The abolishment of the railroad crossing on Massachusetts avenue, in the centre of the Town, should be given careful consideration before any change in the street or pavement is made at this point; especially as the safety of the public and delay in travel to pedestrians, electric cars and all travel demands an early solution of the problem. Also, the development of the centre of the Town is much retarded on account of the uncertainty of the effect to adjacent property, resulting from the

separation of the grades. For reasons of economy, the work should be soon accomplished, since the increase in the amount of private property damages must necessarily be greater as time goes on. At least a definite plan of construction should be agreed upon with the railroad and State authorities that all future improvements may be planned in accordance therewith and be therefore permanent.

The advisability of laying bitulithic macadam pavements, so satisfactorily used in many of our neighboring towns and cities, should be given consideration in the reconstruction of some streets of the Town.

### BRIDGES.

All the highway bridges are in good condition with the exception of the River street bridge. This bridge is of wood resting on granite abutments and granite pier and is maintained jointly by the Town of Arlington and the City of Medford; it is now much out of repair and must soon be rebuilt. The work should be done jointly by the Town of Arlington, the Metropolitan Park Commission and the City of Medford.

The iron work of the Medford street bridge has been newly painted and the abutments repointed with Portland cement, the cost being paid jointly by the Town of Arlington and the City of Medford. A new bridge across the brook at Forest street has been built by the Highway Department of concrete, reinforced with iron rails, in a very substantial manner. All the other bridges in the Town are comparatively new and of modern construction and are practically permanent.

### STORM DRAINS.

The 12-inch storm drain in Westmoreland avenue was extended from Westminister avenue to Crescent Hill avenue in connection with the new construction of that street and a 15-

inch drain was laid in Massachusetts avenue from the Boston Elevated Railway car-barns to Paul Revere road, there connecting with catch-basins for the removal of surface water and with 6-inch and 8-inch pipes extending to Dundee road to drain a large amount of ground water which comes to the surface at this point. The length of these drains is 1,230 feet.

### BOARD OF SURVEY.

Plans of Brattle street from Summer street to Brattle avenue were approved by the Board on the petition of Messrs. Tolson and Millett. A plan of Aerial street was also approved by the Board of Survey on petition of the abutters. The total number of plans now on file approved by the Board is seventy, representing 8.38 miles of streets.

All the lines of the streets established by the Board of Survey under Section 3 of the Board of Survey Act have been defined by stone bounds, with the exception of Gray and Summer streets. The points for bounds on Summer street have been located, and it is intended to place them in position as soon as possible.

Many of the street lines of accepted streets and Town ways are not well defined, especially is this true of streets which have been laid out for some years. Stone bounds should be placed at the angles and the points of intersection of these streets, as at present it is impossible to determine the lines without considerable expense, it often being necessary to run lines and make measurements for quite a distance to obtain the necessary data. In some cases it is impossible to arrive at the exact line originally established, owing to neglect in the placing of proper bounds and imperfect description with reference to boundaries now existing. This work should receive immediate attention and the old lines should be relocated and re-established as the growth of the Town requires their accurate and frequent use.

## WATER DEPARTMENT.

Lines and grades for location of new mains were given, also measurements and computation of work under contract on Mystic street were made. All the mains, gates, specials and service boxes are located and shown on the plans and records of the department.

## CEMETERY.

Stakes have been placed at the lot corners in three of the new areas laid out by the Cemetery Trustees in 1901 and 1902. The number of each lot is shown by a zinc figure on the stakes so that the lots may be readily found and identified. A new receiving tomb is under construction on the easterly side of Mystic avenue, near Laurel avenue. The dimensions of the tomb are sixteen feet by twenty-four feet inside with arched concrete roof nine and one-half feet above the granolithic floor at the centre. The walls are of blue stone and ledgestone plastered on the inside with Portland cement and waterproofed on the outside with asphalt, as is also the dome. The tomb when completed will be enclosed in a grass covered mound, therefore great care was taken in the construction that the interior might be well ventilated and free from dampness. It is intended to build a granite retaining wall for a support to the embankment, and as a finish for the front of the tomb, to be laid with thin rock-faced stone reinforced with concrete.

## SEWERS.

The construction this year has been expensive in proportion to the length of pipe laid, on account of the large amount of ledge,—459 cubic yards having been excavated. Reference to

the annexed table will show the streets sewered and the cost of the construction. On Crescent Hill avenue it was deemed advisable to connect the two ends of the sewers constructed in 1900, as the construction of this street was under way by the Highway Department, and it was desired to avoid the possible tearing up of the finished street in the future. The Highway Department had removed the ledge to a sub-grade preparatory to finishing the street, and the Sewer and Water Departments combined in making the connection for both systems. The excavation was done by the Sewer Department, and after the water pipe had been laid on the westerly side of the trench the Water Department completed the back-filling. The Water Department paid one-quarter of the total expense of the work.

The work of construction during the year was done by day labor, with the exception of Appleton street from Sta. 1 + 75 to Oakland avenue, which was done by contract with C. E. Trumbull & Co., of Boston.

The Highway Department steam drill was used on Crescent Hill avenue, Harvard street and Cliff street, where the excavation was nearly all ledge.

On Windermere avenue the sewer passes through wet ground where it would be necessary to lay an underdrain to carry off the water to permit the securing of tight cement joints. A part only of this sewer was laid by use of underdrains, the balance and portions of the Appleton and Harvard street sewers comprising about 479 linear feet were laid by using a new form of joint of asphalt composition prepared by Warren Bros. Corporation, of Boston, with very satisfactory results. This method had been previously tried with success by the Department on a smaller scale and our experience this year proves this method to be economical, and we believe the only one which will secure absolutely tight work. The use of asphalt is of great assistance as the otherwise necessary excavation for underdrain

TABLE SHOWING COST OF SEWERS BY STREETS, 1903.

	Size.	Length.	Cost of		Total Cost.	Amount of Assessments.	Cost per Foot.	Average Cut.	Character of Soil.
			Labor.	Materials

Oakland avenue, Appleton st. to Linden st..	8	606	502 41	243 42	745 83	710 46	1 23	7.0 "	Blue gravel.
Windemere avenue.....	8	368	590 79	163 40	754 19	410 85	2 05	9.2 "	Blue gravel and ledge.

Total construction, 1903.....2,931 feet, or 0.56 miles.  
Total length of sewers December 31, 1903.....22.61 miles.  
Sewers owned by Commonwealth of Massachusetts, 3.47 miles.

\* Appleton street from Station 175 to Oakland avenue built by contract with C. E. Trumbull & Co., balance of construction for 1903 by day labor.

with increased pumping is avoided and our work [this year shows a consequent saving of from 20 to 30 cents per linear foot. The composition is handled very much the same as lead in running joints for water pipe. It is not expected or recommended that this form of joint is economical except in wet work where tight joints are necessary. It was found from experience that it was possible with this method to get tight work even though the pipe to be laid was half full of water, the composition readily displacing the water from the joints of the pipe.

### MAINTENANCE.

The sewers have been thoroughly cleaned and the system is in good condition. The usual attention has been given to keep the system up to a high standard at all times.

Reference is made to the table in the Sewer Commissioner's report for the statistics of the Sewer Department. The following is the cost of maintenance for the year 1903 :—

Flushing and cleaning sewers,	\$451 96	
Repairs to trenches,	96 72	
General maintenance and repairs,	214 08	
Materials, cement, ropes, etc.,	73 67	
Maintenance of teams,	120 52	
Engineering and clerical work on sewer plans, records and particular sewers	550 62	
	—————	\$1,507 57

### PARTICULAR SEWERS.

The methods employed in this Department are the same as heretofore. There were sixty-eight particular sewers constructed during the year, at an average of \$ .494 per foot, comprising a length of 4,617 linear feet. This cost is less than in any previous year. Sixty-three and a half per cent. of the buildings on lines of the sewers are now connected with the system.

## CONCLUSION.

The abstracts from the deeds at East Cambridge, which are made each year for the Assessors, have been indexed and made available for the use of the Departments, also all the plans of real estate in Arlington which are on file at East Cambridge have been copied for general use. Plans for the Assessors should be made and arranged on what is known as the "Block System" showing the streets, frontages, and areas of all property for use in the accurate and equitable assessing of the real estate in the Town. The value of draughting instruments and supplies in charge of the Engineering Department, December 31, 1903, is \$118.00; the balance of the equipment is owned by the Sewer Department. Following are tables showing location, widths and lengths of public streets and private ways in the Town.

Respectfully submitted,

ROBERT W. POND,

*Town Engineer.*

		<hr/>
		\$14,757 77

EDWARD S. FESSENDEN,  
 WINFIELD S. DURGIN,  
 WARREN W. RAWSON,  
*Sewer Commissioners.*

# REPORT OF WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31, 1903.

## PIPE EXTENSIONS AND RENEWALS.

In all there have been laid 848 feet of 12-inch, 1,461 feet of 10-inch, 60 feet of 8-inch, 3,795 feet of 6-inch, and 20 feet of 4-inch pipe. Thirteen hydrants and thirteen gates were set.

There have been added this year fifty services, thirty-four connected with the high, and sixteen with the low service. Five sewer-flushing services have been added and two abandoned, making a total of sixty-three now in use. The following tables give the extensions in detail : —

### *To extend the High Service.*

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Crescent Hill avenue.....	108	6	..	..
Harvard street.....	36	6	..	..
Forest street.....	60	8	..	..
Windermere avenue.....	358	6	1	1
Mystic street.....	158	10	..	..
Mystic street.....	2,355	6	5	2
Mystic street.....	20	4	..	1

In all 158 feet of 10-inch, 60 feet 8-inch, 3,857 feet 6-inch, and 20 feet 4-inch pipe, six hydrants and four gates.

*To extend the Low Service.*

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Cottage avenue.....	396	6	1	2
River street.....	315	6	1	..

In all 711 feet 6-inch pipe, two hydrants and two gates. There has been expended on pipe extensions the sum of three thousand eight hundred thirty-two dollars and fifty-five cents. Three thousand five hundred dollars of this sum was obtained by the issue of bonds.

*To replace cement-lined and other pipes.*

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Massachusetts avenue.....	848	12	2	..
Massachusetts avenue.....	1,303	10	3	2
Massachusetts avenue.....	60	6	..	..
Cleveland street.....	44	6	..	1
Marathon street.....	31	6	..	..
Fairmont street.....	3	6	..	..
Teel street.....	50	6	..	1
Henderson street.....	39	6	..	1

In all 848 feet of 12-inch, 1,303 feet of 10-inch, 227 feet of 6-inch pipe, five hydrants and five gates. Three hydrants and three gates have been abandoned.

## PRESENT PIPE SYSTEMS.

A careful study has been made of the entire pipe system of the Town and the following tables, differing somewhat from those previously given, show the actual length of mains now in use.

*Length of Main Pipe in use January 1, 1904.***LOW SERVICE.**

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe.....	12	8,530		
“ “ “ .....	6	12,532		
“ “ “ .....	4	20,070		
Total.....	.....	41,132	52	35
Iron pipe.....	12	6,771		
“ “ .....	10	5,392		
“ “ .....	8	8,580		
“ “ .....	6	19,820		
“ “ .....	4	11,898		
Total.....	.....	52,461	109	101
Total both kinds.....		93,593 17.72 miles.	161	136

**HIGH SERVICE.**

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe.....	12	16,503		
“ “ .....	10	14,414		
“ “ .....	8	12,779		
“ “ .....	6	45,737		
“ “ .....	4	1,497		
		90,930 17.22 miles.	190	156

Total of both services: 34.94 miles of pipe, 351 hydrants and 292 gates. In addition there are 3,910 feet of smaller pipes, 2-inch to 1½ inch, which are laid in places where hydrants were not needed and the amount of water required was small.

## QUANTITY OF WATER.

As the water pumped at the Arlington station of the Metropolitan Water Works on Brattle Street was used in the Town of Lexington as well as on the High Service, and as the amount delivered to Lexington was not measured before July 1, 1903; we are unable to give the consumption before that date.

The average daily consumption of water on the high service, in gallons, since July 1, 1903, was :—

July,	327,600	October,	225,100
August,	260,500	November,	223,800
September,	250,700	December,	216,900

Daily average for the six months, 250,783.

For the 620 services this gives an average consumption of 404 gallons per service per day. The consumption for the same period in 1902 was 536 gallons per service, the decrease in 1903 being about 25 per cent.

The average daily consumption on the low service since July 1, 1903, was :—

July,	472,100	October,	329,200
August,	379,700	November,	307,500
September,	351,200	December,	350,700

Daily average for the six months, 365,067.

For the 1,136 services this gives an average consumption of 321 gallons per service per day.

## RESERVOIR.

The reservoir and reservoir lot have received the usual attention. The sum of \$157.76 has been expended during the year in repairing fences, cleaning and weeding, and cleaning brook.

## WATER METERS.

Water meters still continue in successful use for field irrigation, greenhouses, hotbeds and wash houses. Sixteen have been added and four discontinued during the year, and one hundred and six are now in use.

The following table gives the number of the various sized meters in use during the past year and the uses of water.

	SIZE.					Total.
	$\frac{5}{8}$ Inch.	$\frac{3}{4}$ Inch.	1 Inch.	$1\frac{1}{2}$ Inch.	2 Inches.	
Farms .....	10	16	36	5	2	69
Hose .....	8	6	3	..	..	17
Stables .....	3	3	1	..	..	7
Factories .....	..	2	4	..	..	6
Stores .....	..	3	..	..	..	3
Hotels .....	..	2	1	..	..	3
R. R. Stations .....	..	1	..	..	..	1
Car stables .....	..	..	..	1	..	1
Milk rooms .....	1	..	..	..	..	1
Bakeries .....	..	1	..	..	..	1
Clubs .....	..	..	..	1	..	1
	22	34	45	7	2	110

## USES AND INCOME.

The following table prepared by the Water Registrar shows the number of fixtures supplied, and gives the total income for 1903 :—

	High.	Low.
Number of services.....	620	1,136
Houses paying \$25.00 per year.....	165	178
First faucets.....	645	1,365
Hose paying \$6.00 per year.....	9	3
Wash tubs.....	863	1,022
Basins .....	585	739
First bath-tubs.....	479	576
Additional bath-tubs.....	4	14
Bath-tubs used in common, \$4.00 per family.....	14	24
First water-closets .....	551	883
Additional water-closets.....	177	213
Water-closets used in common, \$4.00 per family.....	21	124
Hose (lawn and stable).....	370	478
Horses.....	57	230
Cows.....	37	51
Vaults .....	2	62
Private hydrants.....	....	1
Fire stand pipes.....	16	....
Private fountains.....	1	3
Motors .....	1	3
Bath-tubs paying \$10.00 per year.....	1	1
Water-closets paying \$10.00 per year.....	1	1
Shower baths.....	1	3
Foot baths.....	1	3
Meters.....	28	82
Hydrants, fire; no income.....	190	160
Stand pipe for street watering; no income.....	6	15
Income, 1903.....	\$38,866 40	

There are on hand, in addition to small quantities of pipes and fittings of all sizes and necessary tools and fixtures for carrying on the works, 111 feet of 12-inch, 408 feet of 10-inch, 1,020 feet of 8-inch, 989 feet of 6-inch and 4,375 feet of service pipe. The total value, including horses and wagons, etc., is \$5,506.22.

RECOMMENDATIONS.

We make the following recommendations : —  
That all cement-lined pipe on the low service be replaced by iron pipe at as early a date as possible, beginning at points

where the pipes are giving the most trouble and where the pressure is high. That necessary extensions be made according to the established rules. That the Water Works be paid for water supplied for fire protection at a fixed sum per fire hydrant, also for all water used for sewer flushing, street watering, public buildings, cemeteries, and drinking fountains, such payment to be made from the general tax levy.

Respectfully submitted,

PETER SCHWAMB,

GEORGE P. WINN,

GEORGE W. LANE,

*Water Commissioners.*

# REPORT OF THE SUPERINTENDENT OF THE WATER WORKS.

---

*To the Arlington Water Commissioners:—*

GENTLEMEN:— My report for the year ending December 31, 1903, is hereby respectfully submitted.

## MAIN PIPE.

Six thousand one hundred and eighty-four feet of pipe have been laid, thirteen hydrants and thirteen valves set.

Three thousand eight hundred and six feet have been laid for extension of mains, two thousand two hundred and eleven feet for the renewal of the cement main on Massachusetts avenue, and one hundred and sixty-seven feet for connections on Cleveland, Marathon, Teel and Henderson streets and Fairmont avenue.

Location.	Length in feet.	Cost.
Massachusetts avenue,	2,211	\$3,995 85
Mystic street,	2,533	2,226 83
Forest street,	60	146 65
River street,	315	238 17
Harvard street,	36	43 00
Windemere avenue,	358	398 62
Crescent Hill avenue,	108	349 32
Cottage avenue,	396	429 96
Cleveland street,	44	68 68
Marathon street,	31	38 57
Teel street,	50	69 21
Henderson street,	39	58 81
Fairmont avenue,	3	13 54
		<hr/> \$8,077 21

## SERVICE PIPES.

Fifty services have been put in during the year, thirty-four on the high and sixteen on the low system, at an average cost of \$16.07 each.

Two services on the low system have been discontinued.

## REPAIRS ON SERVICES.

Forty-seven leaky services have been repaired, forty-one on the low and six on the high system.

## HYDRANTS AND VALVES.

There are three hundred and fifty-one hydrants in use ; thirteen have been set and three removed.

There are also two hundred and ninety-two gates in use ; thirteen have been set and five discontinued.

Two leaky hydrants have been removed and replaced by new hydrants.

## LEAKS IN MAIN PIPE.

Nineteen leaks have been repaired in the main pipes, eleven in the low and eight in the high system.

## STANDPIPE LOT.

The standpipe lot has been cared for the same as last year, the Metropolitan Water Board paying \$25 as their share of the expense.

## RECOMMENDATIONS.

I recommend that the removal of the cement pipe be continued, to be replaced with iron pipe of larger diameter.

The following streets should be renewed at the earliest opportunity :— Winter, Warren, Park and Beacon. The pipes on these streets are of very little value for fire protection.

THOMAS RODEN.

## EXTRACTS FROM RULES OF WATER WORKS.

---

SECTION 15. The following rates will be charged annually from July 1, 1904, for the use of water, namely :

### DWELLING HOUSES.

Occupied by one family, for the first faucet . . .	\$6 00
For each additional faucet to be used by the same family . . . . .	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be \$1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family	4 00
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house :	
Whenever one service-pipe supplies <i>four</i> or more tenements, the rates shall be paid by the owner, and there shall be a discount of ten per cent: <i>provided, however</i> , that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub . . . . .	4 00

For each additional bath-tub . . . . .	\$3 00
For bath-tubs convenient to faucets, but not connected, the rate will be \$3.00 per year.	
For the first water-closet . . . . .	5 00
For each additional water-closet . . . . .	3 00
For hopper water-closets . . . . .	8 00
For vaults flushed with kitchen sink water in case such vaults are not used in connection with a water-closet, the rate will be \$2.00 per year.	
When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family . . . . .	4 00
Where two faucets are used one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both; <i>provided</i> , that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than . . . . .	24 00

BOARDING HOUSES.

For the first faucet . . . . .	\$10 00
Each additional faucet . . . . .	2 00
Water-closet or bath-tub, when used by boarders . . . . .	10 00
Each additional bath-tub or water-closet . . . . .	3 00

STORES, OCCUPIED AS OFFICE, SHOP, OR SIMILAR PURPOSE.

First faucet . . . . .	\$6 00 to \$20 00
For each additional faucet . . . . .	2 50
For water-closet or urinal . . . . .	6 00

## MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water . . . . . \$6.00 to \$25 00

## HOTELS.

For each bed for boarders and lodgers . . . . . \$3 00  
 For each bath-tub in a hotel . . . . . 10 00  
 For each water-closet in a hotel . . . . . 10 00

## PUBLIC BATHS.

For one tub in a public bath-house . . . . . \$10 00  
 For each additional bath-tub . . . . . 5 00  
 For one water-closet in a public bath-house . . . . . 10 00  
 For each additional water-closet . . . . . 3 00

## STABLES.

Private Stables, For the first horse . . . . . \$5 00  
 “ For each additional horse . . . . . 3 00  
 “ For one cow . . . . . 2 00  
 “ For each additional cow . . . . . 1 00  
 Livery club, and boarding stables. For each horse . . . . . 3 00  
 Car and omnibus stables. For each horse . . . . . 2 00  
 Truck and cart stables. For each horse . . . . . 2 00  
*Provided*, that in no case shall any stable be charged less than . . . . . 5 00

The rates for stables include water for washing carriages without hose; when hose is used \$3.00 additional.

## HOSE.

The following regulations are uniform throughout the Metropolitan District for 1904 :—

The use of water through hand hose, on premises where the water supply is *not* metered, shall be restricted to two hours in each day between the hours of five and eight A. M. and five and eight P. M.

The hose must be used with a nozzle not exceeding three-sixteenths of an inch in diameter, and while so used must be held in the hand of a person on the premises of the water taker.

For hose used in this manner, when supplied from the house service, the charge will be \$4.00 per year. If a separate service is used the charge will be \$6 00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to cut off all the use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

### STEAM BOILERS.

For each boiler in use not over twelve hours a day,  
for each horse power . . . . . \$6 00

### METERS.

Water for field irrigation, greenhouses or hot-houses, hot beds and wash houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter rates will be as follows :—

Up to	.	.	20,000	cubic feet per six months,	15	cents per 100 cubic feet.
From 20,000 to	40,000	"	"	"	13	" " 100 " "
From 40,000 to	500,000	"	"	"	12	" " 100 " "
Over	.	.	500,000	" " " " "	10	" " 100 " "

The following meter rents will be collected each six months in addition to the above charges :—For a  $\frac{5}{8}$ -inch meter, \$1.00 ; a  $\frac{3}{4}$ -inch meter, \$1.50 ; a 1-inch meter, \$2.00 ; a 1½-inch meter, \$4.00 ; a 2-inch meter, \$6.00.

The minimum charge for metered water, including the meter rent, will be \$7.50. In case more than one meter is used by a water taker the minimum charge for water will be \$7.50 for each meter, including the meter rent. In case of meters used on hose connections the charge will be the meter rent plus that for water used. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that water takers read their meters occasionally to satisfy themselves whether or not they are working, and that they immediately send notice of any irregularity to the Water Board.

Bills for metered water will be made out January 1st and July 1st.

### BUILDING PURPOSES.

The minimum charge for water for building purposes is \$3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

### ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year :

For a jet of 1-16 of an inch	.	.	.	.	.	\$3 00
“ “ 1-8 “ “	.	.	.	.	.	5 00
“ “ 1-4 “ “	.	.	.	.	.	8 00

To be cut off at discretion of the Superintendent.

*Rebates* will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the

house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is twenty-five cents for each operation.

In case one service pipe supplies several tenements, stop-cocks must be provided so that the water may be shut off from each tenement separately. When tenements are vacated the owner must at once give notice to the Water Registrar to have the water shut off and the stop cock sealed. When the tenement is again occupied the Water Registrar must be notified to have the seal removed. Rebate will be allowed for the period the seal remains on, provided such period exceeds thirty days. If seal is disturbed or removed by other than the Water Works agents no rebate will be allowed. The charge for placing and removing seals is twenty-five cents for each operation. *All notices must be written and must be sent to the Water Registrar.*

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the Town shall require.

### PIPE EXTENSIONS.

Vote of Town, passed April 14, 1896.

Voted : — That the Water Commissioners shall, before laying main water pipes in any street or way, require the party or parties asking for same to deposit with the Town Treasurer the sum of thirty cents for each lineal foot of pipe to be laid, less an amount equal to the established water rates for five years on the fixtures supplied at the time of laying the pipe, the said sum to be held by said Treasurer in trust for a term of five

years and at the end of said term paid into the Town treasury to the credit of the water works, unless the rates actually collected during the said five years on account of fixtures supplied directly from said pipe exceed the amount originally estimated and deducted from said sum of thirty cents per lineal foot, in which case said excess shall be repaid to the depositor to the extent of the original deposit and the balance, if any, paid into the Town treasury as aforesaid, excepting otherwise ordered by the Town.

### LIMITS OF HIGH AND LOW SERVICE DISTRICTS.

According to an understanding with the Metropolitan Water and Sewerage Board the dividing line between the high and low systems has been made to conform as nearly as possible to contour 60 above Boston City Base. The low service district is bounded by the following streets which are to be supplied from the low service on both sides; the low service is, however, to be extended to the depth of one house-lot only on the high sides of the bounding streets: — Beginning at Mystic Lake, Fairview avenue to Mystic street; Mystic street to Summer street; Summer street to Grove street; Grove street to Massachusetts avenue, including Grove street place and Dudley street as far as Brattle street; Massachusetts avenue to Academy street; Academy street to Maple street; Maple street to Pleasant street; Pleasant street to the Belmont Line, including Pelham terrace.

It is understood that either the high or the low service may be used on Massachusetts avenue between Brattle street and Grove street, also that for purposes of fire protection the high service may be extended into the low service district.

## REPORT OF THE BOARD OF HEALTH.

---

During the year ending December 31, 1903, the number of contagious diseases reported to the Board of Health has been 109, 14 less than in 1902.

Of this number 19 were measles, 40 diphtheria, 47 scarlet fever and 4 typhoid.

In 1902 measles were epidemic, constituting a large proportion of all the contagious diseases reported.

During the year of 1903, diphtheria and scarlet fever have been epidemic in certain sections of the Town.

Thus, in the Russell and Crosby school districts, there have been 32 cases of diphtheria and 44 cases of scarlet fever reported.

Two of the cases of diphtheria were fatal, and one of scarlet fever.

A large number of these cases were in families in which the mother, or another untrained attendant, cared for the patients, and where the quarantine could not be so thoroughly carried out as desired by the attending physician.

In many cases contagion was unnecessarily spread to the other children of the family, or to the children of other families, because the attendant failed to carry out the strict quarantine rules.

Great stress should be laid by the attending physician, in each case, on the necessity of the strictest quarantine until fumigation has been done.

Too often in diphtheria, the attendant in the quarantine relaxes her vigilance as soon as the child's throat is free from membrane, feeling that the danger has passed. That child is

a menace to everyone, especially children, until cultures from the throat are negative, and the sooner people realize this the sooner will the spread of diphtheria diminish.

Aside from contagious diseases the health of the Town has been exceptionally good.

Nothing has been done about removing the growth of weeds from Spy Pond owing to lack of funds.

The low wet land off Mystic street, near the gas house, is being rapidly filled, and the area made as dry as possible.

Considerable difficulty is experienced each year in keeping the dead alewives from becoming a nuisance on the shores of the lower Mystic Lake.

Much good could be done in improving the sanitary conditions of the Town, if more funds were available for this purpose.

Emergencies are liable to arise at any time, necessitating an expense in the care of contagious diseases liable to be removed to Waltham Hospital or elsewhere. For such emergencies funds are imperative, that these conditions may be adequately met.

The records of the Sewer Department show that only two-thirds of the buildings on the line of completed sewers are connected with the system, it is important that all buildings should be connected at an early date, and the use of cesspools discontinued.

It is a significant fact that the greatest number of cases of diphtheria and scarlet fever occurred in dwellings not connected with the sewer.

## MEDICAL INSPECTION OF SCHOOLS.

The total number of children examined during the year 1903 was 899, of which number 93 were sent home for the following reasons : —

Pediculi,	36	Whooping-cough,	3
Sore Throat,	11	Mumps,	1
Vaccination,	6	Chicken-pox,	1
Revaccination,	10	Erythema,	1
Pink Eye,	8	Itch,	1
Ringworm,	4	Scarlet Fever,	1
Stye,	10		

During the year 257 children were examined for vaccination, of whom 10 were requested to be revaccinated, and 6 were required to be vaccinated for the first time.

Upon later inspection all of these had satisfactorily complied with the regulation.

A larger number of requests for children's eyes to be examined for glasses has been made to parents this year, than during the preceding year.

### PLUMBING INSPECTIONS.

During the year 1903 eighty-three applications were placed on file, and plumbing permits duly issued therefor. Twenty-seven new buildings are included.

Frequently for proposed reconstruction of old plumbing, several different plans have been submitted to the Inspector for approval, that bids might be obtained and contracts made for the work to be done in conformity with our rules and regulations relating thereto.

Many bath-rooms the past year have been fitted up with improved fixtures and sanitary appliances, models of beauty and utility. As a sanitary requirement our Inspector has given much attention in each case to provide for effective ventilation.

Signed,

EDWARD S. FESSENDEN,

EDWIN P. STICKNEY, M. D.,

EDWIN MILLS,

## REPORT OF PARK COMMISSIONERS.

---

The principal work which has been done the past year in regard to the parks of the Town of Arlington is the maintenance of same.

A regular meeting of the Park Commission was established this year, to meet once a month the year round.

Early in the year the care-taker, who was to be employed later on at Menotomy Rocks Park, began his duties by trying to check and destroy the spread of the gypsy moth. Considerable work was done in this direction, but the regular duties of the care-taker interfered very materially, and the special work had to be finally given up, so that the moth had full sway to spread in all directions.

There were removed from this Park this year about 375 trees, both dead and alive, the latter interfering with the growth of other trees in their vicinity.

These trees aggregated about forty-five cords of wood, which was sold for \$1.50 per cord on the stump.

The leaves were left on the ground, as in the past year or two, which necessitated the keeping of the care-taker on duty until there was a generous fall of snow, on account of the great liability of brush fires, which occur so frequently in this section.

The walks of the Park were repaired early in the year, and the care and beauty of the flowers were duly commented upon by many visitors.

A rule was adopted this year that all running and jumping of horses in Menotomy Rocks Park be prohibited on account of the liability of accident and the destroying of walks, flower beds, etc.

At the November Town Meeting the Town appropriated the sum of five hundred dollars to the Park Commission for the purpose of exterminating the gypsy moth at Menotomy Rocks Park, and your Board at once made a contract with H. L. Frost & Co. to do this work. Work has already been done by this concern and your Board are to receive a reply from them once a month as to the progress of the work. This will continue during the whole of the current year.

Your Board consider the Gypsy Moth the most serious proposition that certain towns on the north side of Boston ever had to contend with.

The money needed to exterminate this pest has long ago been more than these towns could stand, and the pest is spreading so rapidly each year that it is fast getting to a point where the State cannot control it, and must be taken up by the National Government.

At Meadow and Russell Parks, the triangular grass plots on Medford street, near Chestnut St., and the circular area about the stand pipe at Arlington Heights, walks that were gullied have been filled in with blue gravel, and the grass kept cut. There was nothing done in regard to the Gypsy Moth at these latter places, as they were so numerous that it seemed a useless expense to even try to keep them out of these areas.

No bills out of the ordinary were contracted for during the past year and all have been approved and passed for payment in the usual manner.

Respectfully submitted,

HENRY D. DODGE,

THOMAS HOGAN,

CHARLES H. CARTER,

*Park Commissioners.*

# TREE WARDEN'S REPORT

FOR YEAR ENDING DEC. 31, 1903.

---

I have the honor herewith to submit my first annual report as Tree Warden for the year 1903.

The greatest part of the work done during the year has been in removing the brown tail moths. The appropriation of \$800 made for this purpose at the March meeting was not sufficient and at the November meeting, at my request, an additional appropriation of \$500 was made.

Owing to this appropriation the work has been prosecuted more rapidly and economically and with better results to the Town.

Of the \$500 appropriated in November about \$400 was expended during November and December. This covered about two-thirds of the work and with a small appropriation in the Spring all work on the brown tail moths will be completed. I strongly recommend an extra appropriation for this purpose at the March meeting, as the work of removing the nests can be done better and cheaper than after the trees are covered with foliage.

The brown tail moths are increasing on private grounds and some action should be taken by the Town to compel property owners to exterminate them or they will have cause to regret neglect in not doing the same.

## GYPSY MOTHS.

The gypsy moth is most numerous on private property and is increasing tenfold. The most infected place in Town is around

the borders of the Mill Pond Brook where the trees are one mass of egg clusters. These trees should be cut down and burned immediately.

This pest is more to be dreaded than the brown-tail moth and a small appropriation would be sufficient to remove them from the highways of the Town.

### PLANTING NEW TREES.

An appropriation of \$100 was used to the best possible advantage and about forty young trees were set out, all of which are doing well. The Town should appropriate a larger amount for small trees as the Town is constantly building new sidewalks and also for replacing those which are taken out each year.

I recommend that the Town appropriate for and set out each year 100 small trees.

### GUARDS.

The appropriation for guards has been expended to good advantage and all trees are well protected.

### TRIMMING OF TREES.

An appropriation for this purpose was cut out by the Committee of Twenty-One. I think a small appropriation is necessary as I am continually having requests to remove trees.

I recommend the following appropriation for this department for the ensuing year — \$1,500.

In concluding this report, I wish to extend thanks to the several departments of the Town for their many courtesies extended to me.

(For receipts and disbursements see Auditor's report.)

Respectfully submitted,

A. FOSTER BROOKS.

*Tree Warden.*

## THE ELBRIDGE FARMER FUND.

31, 1904,	\$3,018 70
	<hr/> <hr/>

ARLINGTON, December 31, 1903.

I hereby certify that I have examined the accounts of the Cemetery Department and find the same correct, agreeing with the Auditor's books.

The funds invested have been examined and found as represented.

(Signed)

JULIUS W. BUHLERT,  
*Auditor.*

During the year the new section of the Cemetery laid out and graded last year has been plotted and staked, work made necessary from the fact that in the old and central parts of the Cemetery there are scarcely twenty lots now remaining unsold.

The construction of a new Town tomb has been undertaken and completed with the exception of the ornamental front and retaining wall. This work was necessary owing to the condition of the old tomb, and the site selected, while of little value for lots, makes an ideal location for a tomb. The tomb is constructed of stone and cement and when completed will be a vast improvement and addition to the Cemetery. It is built in the very best possible manner and is capable of receiving thirty-six bodies. We should be pleased to have this work completed during the coming year. The Cemetery continues under the care of Mr. Everett S. Chapman, Superintendent.

(Signed)

WARREN A. PEIRCE,  
GEORGE G. ALLEN,  
J. EDWIN KIMBALL,  
*Trustees of Consolidated Board.*

## REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

---

*To the Town of Arlington: —*

The Trustees of the Robbins Library submit their annual report.

In our last report we drew attention to the need of a change in the grade of the lawn surrounding the Library in order to turn the water away from the building and make effective the repairs, which we felt could not wisely be delayed, upon the areas surrounding the basement windows. The request for assistance from the Town was met by an appropriation of \$500 which will be expended in the spring in grading the lawn, the Trustees having spent \$250 of their regular appropriation in repairing the areas. The sum so expended materially diminished the amount available for the purchase of books.

We again note a falling off in the number of volumes taken,—42,735 for this year as against 43,914 last year. There is a falling off also in the number of books loaned from the children's room,—11,187 as against 12,013 last year. But the use of the children's room shows a gain. We note a slight loss in the daily attendance of the reading room, but a marked gain in the use of both rooms on Sunday.

We have continued to give exhibitions of photographs, etc., in addition to those hitherto reported.

### JANUARY AND FEBRUARY.

24. Views of California scenery.

### MARCH.

25. Views of Egypt.

## APRIL.

26. Photographs of Rome, No. 1.

## MAY.

27. Photogravures of English country houses.

## JUNE AND JULY.

28. Photographs of Assisi.

## DECEMBER.

31. Exhibit of German festoons and decorative groups, No. 1.

Mr. Winfield Robbins remains the same generous friend as before by the gift of books and engravings.

Mr. Frederic Ayer, of Arlington Heights, has presented sixteen volumes of French and German books.

Dr. Andrew F. Reed has given a valuable work in two volumes of Gleason's Pictorial for 1853.

Mr. Edwin S. Farmer has completed the fine set of "The Messages of the Presidents" by adding the eleventh volume.

Congressman Samuel McCall has sent a valuable collection of Public Documents.

The editors of the *Advocate* have continued to send a file of that paper.

Respectfully submitted,

SAMUEL C. BUSHNELL,

E. NELSON BLAKE,

JOSEPH C. HOLMES,

CHARLES A. KEEGAN,

JAMES P. PARMENTER,

ARTHUR J. WELLINGTON,

ARLINGTON, December 31, 1903.

# REPORT OF THE SCHOOL COMMITTEE.

---

December 31, 1903.

*To the Town of Arlington :—*

Your Committee believe that the high standard of your public schools has been maintained during the past year, and due credit should be given the principals of the several schools and the teachers for the good results attained, as more responsibility was thrown upon them than usual, during a portion of the time, by the illness of our Superintendent. Mr. Sutcliffe has now fully recovered and is doing efficient service in conducting the school work of the Town; but in connection with his duties as principal of the Russell School and secretary of the Committee, more work is required of him than should properly be expected of a superintendent of schools in a town as large as Arlington. It is to be hoped that the Committee can arrange in the near future for some modification of the several duties, or grant assistance of a clerical nature.

The Committee deemed it proper, in consideration of continued service and efficient work as principal of the High School, to increase the salary of Mr. Holt to \$2,400 per annum. Four new teachers assumed duties in the High School at the beginning of the Fall term, and the changes in the teaching force of the several schools during the year have been as follows :—

## HIGH SCHOOL.

### RESIGNED.

Miss Mary H. Cutler,  
Miss Susie L. Austin,  
Miss M. Cody Roberts,  
Miss Anna J. Newton,

### APPOINTED.

Miss Sarah J. Bullock,  
Miss Winnifred B. King,  
Miss Ethel G. Reed,  
Miss Elizabeth Magay.

## RUSSELL SCHOOL.

## RESIGNED.

Miss Elizabeth Bassett,  
Miss Bertha M. Beecher,  
Miss Carrie M. Poor,

## APPOINTED.

Miss Grace Osborne,  
Miss Anna M. Newell,  
Miss Edith V. Corliss.

## LOCKE SCHOOL.

Miss Gertrude Williams, Miss Elizabeth Warner.

## CROSBY SCHOOL.

Miss Florence R. Faxon, Miss Jennie M. Cottle.  
Miss Ethel Fletcher, Miss Sara N. Henderson.  
Miss Carolyn H. Parker, Miss Annie W. Cobb.

## CUTTER SCHOOL.

In the Cutter School Miss Rose A. Brady has been granted a year's leave of absence, Miss Florence Jepson being appointed as substitute, and Miss Bertha M. Pattee engaged as an extra teacher.

The crowded condition of the Russell School, noticeable particularly in the 7th and 8th grades at the opening of the Fall Term, will be remedied when the new Parmenter School is ready for occupancy.

On October 4th, Judge W. E. Parmenter closed his life of usefulness, and in recognition of his long service as Chairman of the Committee, suitable resolutions were passed by the Board, and the afternoon session of the schools was omitted on the day of the funeral.

Resolutions were also recorded on the death of Miss Anna E. Pillsbury, who served the Town faithfully as a teacher in the Russell School for 36 years.

The condition of the Russell School building is not what it should be, and a liberal appropriation ought to be made by the Town for its renovation. If kept in proper repair this large building should be useful for school purposes for many years to come.

A new system of payment, by ten equal instalments, of the salaries of the teachers has been inaugurated whereby they receive checks for the full amount due them on the last school day of each month from September to June inclusive. The janitors are similarly paid in twelve monthly instalments.

A permanent athletic field sufficiently large for use as a base ball ground by the High School scholars would be of great advantage to the children of the Town. This year by the personal efforts of Mr. Holt, with the assistance of High School scholars, Lawrence Field was leased,

Respectfully submitted,

H. G. PORTER, *Chairman.*

## TOWN CLERKS' REPORT.

---

In the report of the Committee of Five dated March 25, 1903, the following recommendation was made : —

“ In our opinion the Town Clerk should be on duty at all times during business hours. We recommend that he act as Clerk for the Board of Selectmen, and as Clerk of Departments and that his duties be so arranged as to afford him a familiar and practical knowledge of all the departments of the Town work with which the Selectmen have particularly to do.

“ He would thus be prepared to answer any and all questions pertaining thereto in an intelligent manner and would be of great assistance to the Selectmen in the performance of their duties. To the above duties could be added those of Clerk of Cemetery Trustees and Clerk of the Tree Warden.”

At the adjourned meeting held on April 7, 1903, it was voted :

“ That it is the sense of this meeting that the convenience and interests of the citizens of the Town will be best served by the adoption of the recommendation of the Committee of Five regarding the office of Town Clerk and his duties and by the co-operation in accordance therewith by the Selectmen.”

Shortly after my taking the office a communication was sent to the Selectmen stating a readiness and willingness to assume and perform such duties, under that vote as they might assign.

The clerical work of the Selectmen or of any departments over which they have control, was not, however assigned to me and I am, therefore, unable to report on any matter over which the Board of Selectmen has control.

In accordance with the above vote of the Town the books and accounts of the Cemetery and Tree Warden departments

were turned over to me and the work of these departments has been done in this office during the year.

It early developed that the convenience of the citizens demanded that some official of the Town should receive and receipt for moneys due the Cemetery Department for sale and care of lots, etc., in the absence of the Treasurer. The Trustees authorized the Town Clerk as Clerk of Cemetery Trustees to perform this duty.

A bond of the Town Clerk was accordingly made to cover his duties as Clerk of Cemetery Trustees.

In the report herewith given of the conditions, methods and systems as they were found, I desire to state most emphatically that the report is not to be understood, or taken in any sense, as a reflection on the efficiency or ability of the honorable gentlemen who formerly held the office.

With the added duties of Treasurer and Collector, it is not to be wondered at that many of the little details that enter so largely into the tabulation of records were overlooked. This condition obtains, perhaps, to a greater extent during recent years where the work evidently was delegated to clerks.

The result is a great many incorrect and incomplete records, some of a very serious nature to the parties interested, and should be rectified at once.

The forms for recording and the system of indexing was found unsuited to the growing needs of the Town in obtaining desired information quickly and accurately.

Books of record were found to have been in constant use for forty years, in a very worn condition, and with forms for recording not adapted to the requirements of the present methods of tabulating records.

This condition was perhaps more noticeable in the record of births and deaths.

These books, in order to preserve them, have been rebound, numbered and filed away, and new books, specially made for the office, have been purchased, giving the fullest possible information on these subjects.

The indexing of these records was, in former years, done by the old book index and required a good deal of time to find the information desired, on account of the similarity of names and the very limited key given in the book index.

These records have all been placed in the card index where the information may be obtained in the shortest given time.

The records of marriages were found in a very good condition, with the exception of the indexing which has been placed, as the others, in the card system and indexed back to and including the year 1898. All these records should be indexed back for at least forty years.

In the filing and preservation of deeds, contracts, specifications, bonds, agreements, warrants, appointments, releases, reports, etc., the system was not suited to the obtaining of these papers when called for, without an unnecessary waste of time and labor.

While it has required more time than at first seemed warranted, the result, in placing these papers, of so much importance to the Town, in a condition where each is filed in a separate envelope, numbered and indexed, where they may be obtained instantly justifies the time and labor expended.

The records of the Town Meetings have been margined and indexed and are now in a condition where information pertaining to these records may be obtained readily.

These records should be printed in the Annual Town Report each year, thus precluding the possibility of loss by fire or otherwise. Were the records to be burned, or otherwise destroyed, there would be absolutely no means of replacing them.

By printing them each year in the Town Report (at a very small cost) they would be forever preserved, as by being placed thus in the hands of so many people they could easily be obtained and copied.

They would also become a source of information to our citizens and an education to our young men about to assume the responsibilities of citizenship.

It is to be hoped that the Town will act favorably on this matter, and have the records of the Town Meetings printed each year.

Unfortunately too many of our citizens do not realize the amount of detail work necessary to properly conduct the affairs of a growing municipality, particularly under the trying conditions existing in our Town for the past few years. A personal visit to the various offices and an inspection of the work the Town officials are doing will do more to show the true condition of affairs, than pages of reports.

While there are perhaps suggestions that might be offered and changes advised, for the advancement of the public work, I believe that those suggestions and changes should first be presented to committees having the matter in charge, and, believing this, make no suggestions in this report.

Two hundred dollars was appropriated for the use of this office for the past year, and of this amount \$197.21 has been expended, as shown in the Auditor's report, for printing, books, files, indexes, etc., leaving a balance unexpended of \$2.79.

During the year the following licenses have been issued : —

To collect old junk, etc.,	3
To pool rooms,	5
To sell second-hand furniture,	1
To sell fireworks,	11
To innholders,	1
To victuallers,	2
To auctioneers,	4

## DOGS REGISTERED.

Males,	275
Females,	39
	<hr/>
Whole number registered,	314
Paid to County Treasurer (less fees),	\$682 20

I have examined the Town Clerk's record of Dog Licenses and found the same correct, with receipts from the County Treasurer for above amount.

(Signed) JULIUS W. BUHLERT,  
*Auditor.*

BIRTHS AND MARRIAGES REGISTERED DURING  
THE YEAR 1903.

Total number of births registered,	198
Females,	106
Males,	92
Born in Arlington,	193
Born in other places,	5

The parentage of the children born was as follows : —

Born in United States, both parties,	68
Born in foreign countries, both parties,	88
Born in United States, one parent,	43
Born in foreign countries, one parent,	43
Born in Arlington, one or both parents,	50

## REPORT OF THE REGISTRARS OF VOTERS.

---

The Board of Registrars of Voters for 1903 organized with John W. Bailey as Chairman *pro tem*, (Wm. H. Pattee being through illness unable to attend) and Thomas J. Robinson as clerk. Frank C. Allen was appointed a member of the Board on May 1st, Wm. A. Fitzpatrick retiring after nine years of service on the Board.

The whole number of Registered Voters on May 1, 1903, was 1,577. At the meeting of the Board, September 14, for the purpose of revising the voting list, 121 names were stricken from the list, a very large proportion of this number not having been assessed.

At the meetings held by the Board for registration the number of voters were added as follows : —

Town Hall. September 17,	8
Town Hall, October 15,	39
Union Hall, Heights, October 19,	27
Town Hall, Heights, October 24,	89

The list as revised to January 1, 1904, is as follows : —

Whole number registered,	1,743
Whole number males,	1,619
Whole number females,	124
	<hr/>
	1,743

WM. H. PATTEE,  
JOHN W. BAILEY,  
FRANK C. ALLEN,  
THOMAS J. ROBINSON,  
*Registrars of Voters.*

ARLINGTON, December 31, 1903.

I have examined the accounts of Harvey S. Sears, Treasurer of the Town of Arlington, covering the period from January 1, 1903, to March 14, 1903, and find them correct and agreeing with the Auditor's books.

J. W. BUHLERT,  
*Auditor.*

JANUARY 1, 1904.

*To the Selectmen of Arlington:—*

I give below a full account of all my receipts and disbursements for the financial year ending December 31, 1903, and also the report of the Committee on Appraisal of the Public Property of the Town, appointed at the annual meeting in 1903.

WILLIAM A. MULLER,  
*Town Treasurer.*

---

HARVEY S. SEARS,  
*Collector of Taxes.*

ARLINGTON, December 31, 1903.

## AUDITOR'S REPORT

---

The Auditor, in accordance with the provisions of Article 16, of the Town's By-laws, adopted in March, 1903, presents his report for the financial year 1903.

The salaries, with the exception of the Board of Assessors, have been paid up to December 31, 1903. It seemed desirable to establish a uniform period so that each financial year will show the amount expended. Heretofore salaries were paid respectively to December 31st, March 1st and April 1st.

The appropriations for Robbins Library, State Aid, Watering Streets and Public Schools do not furnish sufficient available funds for the entire year. The deficiency of Robbins Library and Public Schools is made good by receipts of Trust Funds and State Aid's by the Commonwealth's payment in December each year, of the amount paid for State Aid by the Town during the preceding year, which may not even then be sufficient to make up the deficit, as is the case this year. The Watering Street expenses during the summer are met in December by note of the Town in anticipation of street watering assessments. However, as the by-law relating to the Auditors' duties says, "To transmit bills to the Treasurer for payment only if there are available funds" the Town either should furnish the amount needed, in which case the reimbursements when received at the end of the year would revert to the Treasury; or the Auditor should be instructed in each instance to approve bills in the anticipation of the respective receipts. In the latter case the above accounts will show an overdraft part of the year. A similar condition exists in the Sewer Department. Under the present method it is impossible for the Auditor to determine to what extent the commitments of Sewer assessments, against which the

Town Treasurer can borrow, will reimburse the Town Treasury for construction expenses.

The simplest remedy for the conditions shown would be, of course, to make a sufficient straight appropriation, and not to count on funds before they are in the Treasury.

It might also be well to determine in how far the provision for approving bills may be applied regarding Outside Poor, Board of Health or other departments in cases of calamity or distress, for a strict interpretation might lead to unnecessary delay, expense or friction.

The credits which the departments receive during the year are of two kinds. One, a reimbursement for work done or for expenses incurred, paid out of the appropriations of the current year. The other is a reimbursement to the Town for money expended and made good by previous appropriations; that is to say, a credit collected for which there has been no outlay; for instance, if the Outside Poor Dept. collects during 1904 a bill paid by the Overseers of the Poor during 1903, such receipts not having been taken into account in making up the yearly budget, are not available funds for the respective departments. Your Auditor recommends that he be authorized to open a Treasury account, and that such credits as above described be passed to its credit, with the provision, however, that the balances shown at the end of the year be available only for the Sinking Fund. Rents, licenses, sale of offal might be included in this account.

The Auditor has examined the securities and accounts of the following trust funds, and finds the securities on hand as stated and the accounts as printed by the Treasurer elsewhere, correct :

Commissioners of Sinking Fund.

Pratt Fund.

High School Income Fund.

E. Nelson Blake, Jr., Memorial Fund.

Martha M. W. Russell School Fund.  
 “ “ “ “ Poor Widows' Fund.  
 William Cutter School Fund.  
 Poor Widows' Fund.  
 Military Fund.  
 Citizen's Soldier's Fund.  
 Henry Mott Library Fund.  
 Timothy Wellington Fund.  
 Julia Fillebrown Fund.

The following deficits are shown in the Auditor's balances :—

<i>a.</i> Suspense Account,	\$12,000 00
<i>b.</i> Abatement of Taxes,	1,675 45
<i>c.</i> State Aid,	46 00
<i>d.</i> Corporation and Bank Tax,	2,328 34
<i>e.</i> Tax and Sewer Assessment Suspense,	75 83
<i>f.</i> Non-resident Bank Tax,	23 28
<i>g.</i> Expense for collecting Back Taxes,	59 25

*a.* Suspense Account. Caused by the acceptance of the Town of the compromise in the former Town Treasurer's bond. On January 1, 1903, the whole amount of the bond, \$30,000, was carried as an asset, realizing only \$18,000. The above shortage resulted.

*b.* Abatement of Taxes. A large number of abatements were made by the Committee, consisting of the Assessors and the Committee of Five. The Auditor would also call attention to the questionable value of unpaid taxes of 1897, 1898, 1899 and 1900. The above Committee, however, having the matter in charge, will report needed action.

*c.* State Aid. The amount received by the State (1902 disbursements) was not sufficient to offset this year's disbursements.

*d.* Corporation and Bank Tax. The Assessors' estimate in making up their tax levy was \$11,000. Only \$8,671.66 was received, causing the shortage.

*e.* Tax and Sewer Assessment Suspense Account. The Auditor was obliged to open this Account, comprising Taxes and Sewer Assessments, which were established as misappropriated or otherwise wrongly charged to Collector of Taxes.

*f.* Non-resident Bank Tax. The Assessors committed \$262.57 to the Collector of Taxes for collection. The State Treasurer, however, called for \$285.85, causing this deficit.

*g.* Expenses for collecting Back Taxes. The Committee, consisting of the Assessors and the Committee of Five, having in charge the collection of Back Taxes, were obliged to employ an officer to serve warrants. The expense was charged by recommendation of the Selectmen to above account. The amount collected from tax-payers for warrants has been credited; leaving above balance. These deficits must be taken care of by the Town.

A list of unpaid taxes is in the Auditor's office and agrees with his books. The Collector's and Treasurer's books have been examined and agree with the Auditor's books. The Cemetery account and Dog Tax account kept by the Town Clerk have been examined and found correct.

The Auditor, in order to be able to devote his time to auditing principally, recommends that he be given a clerk, or an appropriation for the same. The detail of bookkeeping is such that the Auditor cannot attend to all his duties, unless he devote the greater part of his time to the same.

J. W. BUHLERT.

*Auditor.*
